Dear Madame/Sir,

The **Fragokov – export, v. d.** is industrial company with approx. 160 employees located in eastern part of Slovakia. We have our own designing department and testing room, supported by latest CAD and CNC Technologies and we are able to participate on product development together with customer. Our company is certified according to international standards in automotive industry **ISO 9001:2008** and **VDA 6.1**.

Production program can be divided into 4 spheres:

## 1. Hydraulics

*Master brake and clutch cylinders  
 Wheel brake cylinders  
 Slave clutch cylinders  
 Brake controllers  
 Special operating cylinders*

... for application in:

*Passenger cars  
 Vans and trucks  
 Tractors  
 Buses  
 Forklifts*

The **Fragokov** company has over 60 years tradition in production of original components for hydraulic brake and clutch systems for automobile industry.

## 2. Engineering cooperation

Manufacturing process in Fragokov is focused on serial and mass production, where following technological equipment is used:

- conventional and CNC milling machines
- conventional and CNC lathes
- automatic lathes with bar loaders
- single-purpose drilling lines
- vertical honing machines
- centerless grinding machines
- working centers
- own assembly of parts

Machined materials are grey cast iron, ductile cast iron, steel and aluminum, brass etc.

## 3. Toolmaking

Our company is one of the most experienced toolmakers with over than 40 years of experiences in these branches:

 *Tools for injection moulding of plastics, rubber and vacuum forming*

 *Jigs and fixtures*

 *Stamping tools for sheet metals working, cutting*

 *Gauges and measurements*

Maximal dimensions of tools: **850 x 1400 mm** and maximal weight of tools: **5000 kg**

## 4. Injection moulding

We provide serial injection of plastic parts – molding on our own injection machines from common plastic materials as: ABS, PA, PBT, PC, PE, PP, PS, SAN, TPE ...

- available machines size – clamping forces **63 – 800 tones** • maximal moulds weight **up to 2,5 kg** •

More information about our company and our production you can find on our web site [www.fragokov.sk](http://www.fragokov.sk)

**We offer our potential partners quality, flexibility according to market requirements, deliveries reliability and perspective for future growth.**

**Note:** If you would like to send us an inquiry for making correct quotation, we need to see technical drawings, yearly demand and data about parts (dimensions, weight, material ..., regarding plastic parts 3D model if it is possible).

*Marketing and Sales*
