

Our work is our passion

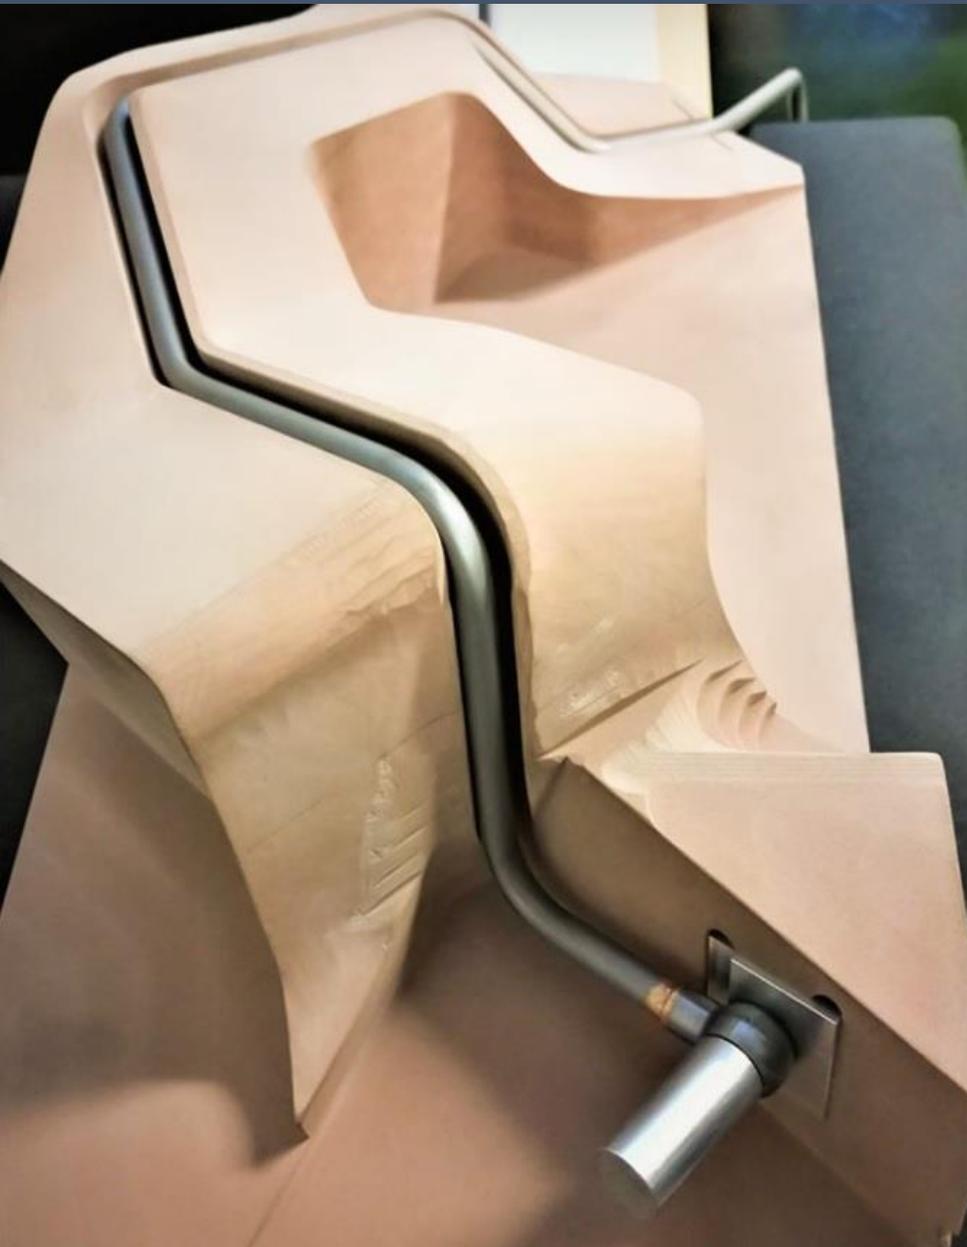

We are made of heart and brain and with passion and competence we manufacture rigid metal tubes bent and shaped according to the customer's design.

Bending of tubes

Manufacturing of rigid metal pipes

The company

Our work is our passion, and customer satisfaction our imperative.

We produce **bent pipes to design**, making use of **thirty years of experience** that ranges from the industrialization phase to mass production.

Every single project is followed **since the prototype is built** and thanks to the **in-house production** of dedicated equipment and tools, an integral part of our know-how, we are a leader in the business of **bending and shaping metal tubes**.

Por Srl was founded in the 1980s with the production of **shaped rigid tubes** for vehicle's power steering and steering systems.

Growing up, our company has diversified and gained a strong experience in manufacturing **rigid metal pipes** in all the industries related to automotive, light and heavy vehicles, agricultural machinery, air conditioning and industrial machinery, producing rigid hydraulic pipes, fuel pipes, diesel pipes, petrol, gas, air and water pipes; we also make **connectors and fittings starting** from a bent and **stamped tube**.

Working process

Over thirty years after the birth of **Por Srl**, we are present in the market for the processing and manufacturing of **bent rigid metal pipes**. The processes that are part of our know-how include:

- tube cutting;
- cold deformation of pipes;
- assembly of fittings, flanges or supports on the pipes;
- braze-welding with copper paste;
- tube bending and shaping;
- controls and tests;

After providing us with the **technical drawing** of the product to be made, the customer will no longer have to worry about anything thanks to our **complete service**, and we will also take care of the **purchase of materials and components necessary** for the production of the parts and to carry out any **galvanizing treatments**.

Technology and know-how

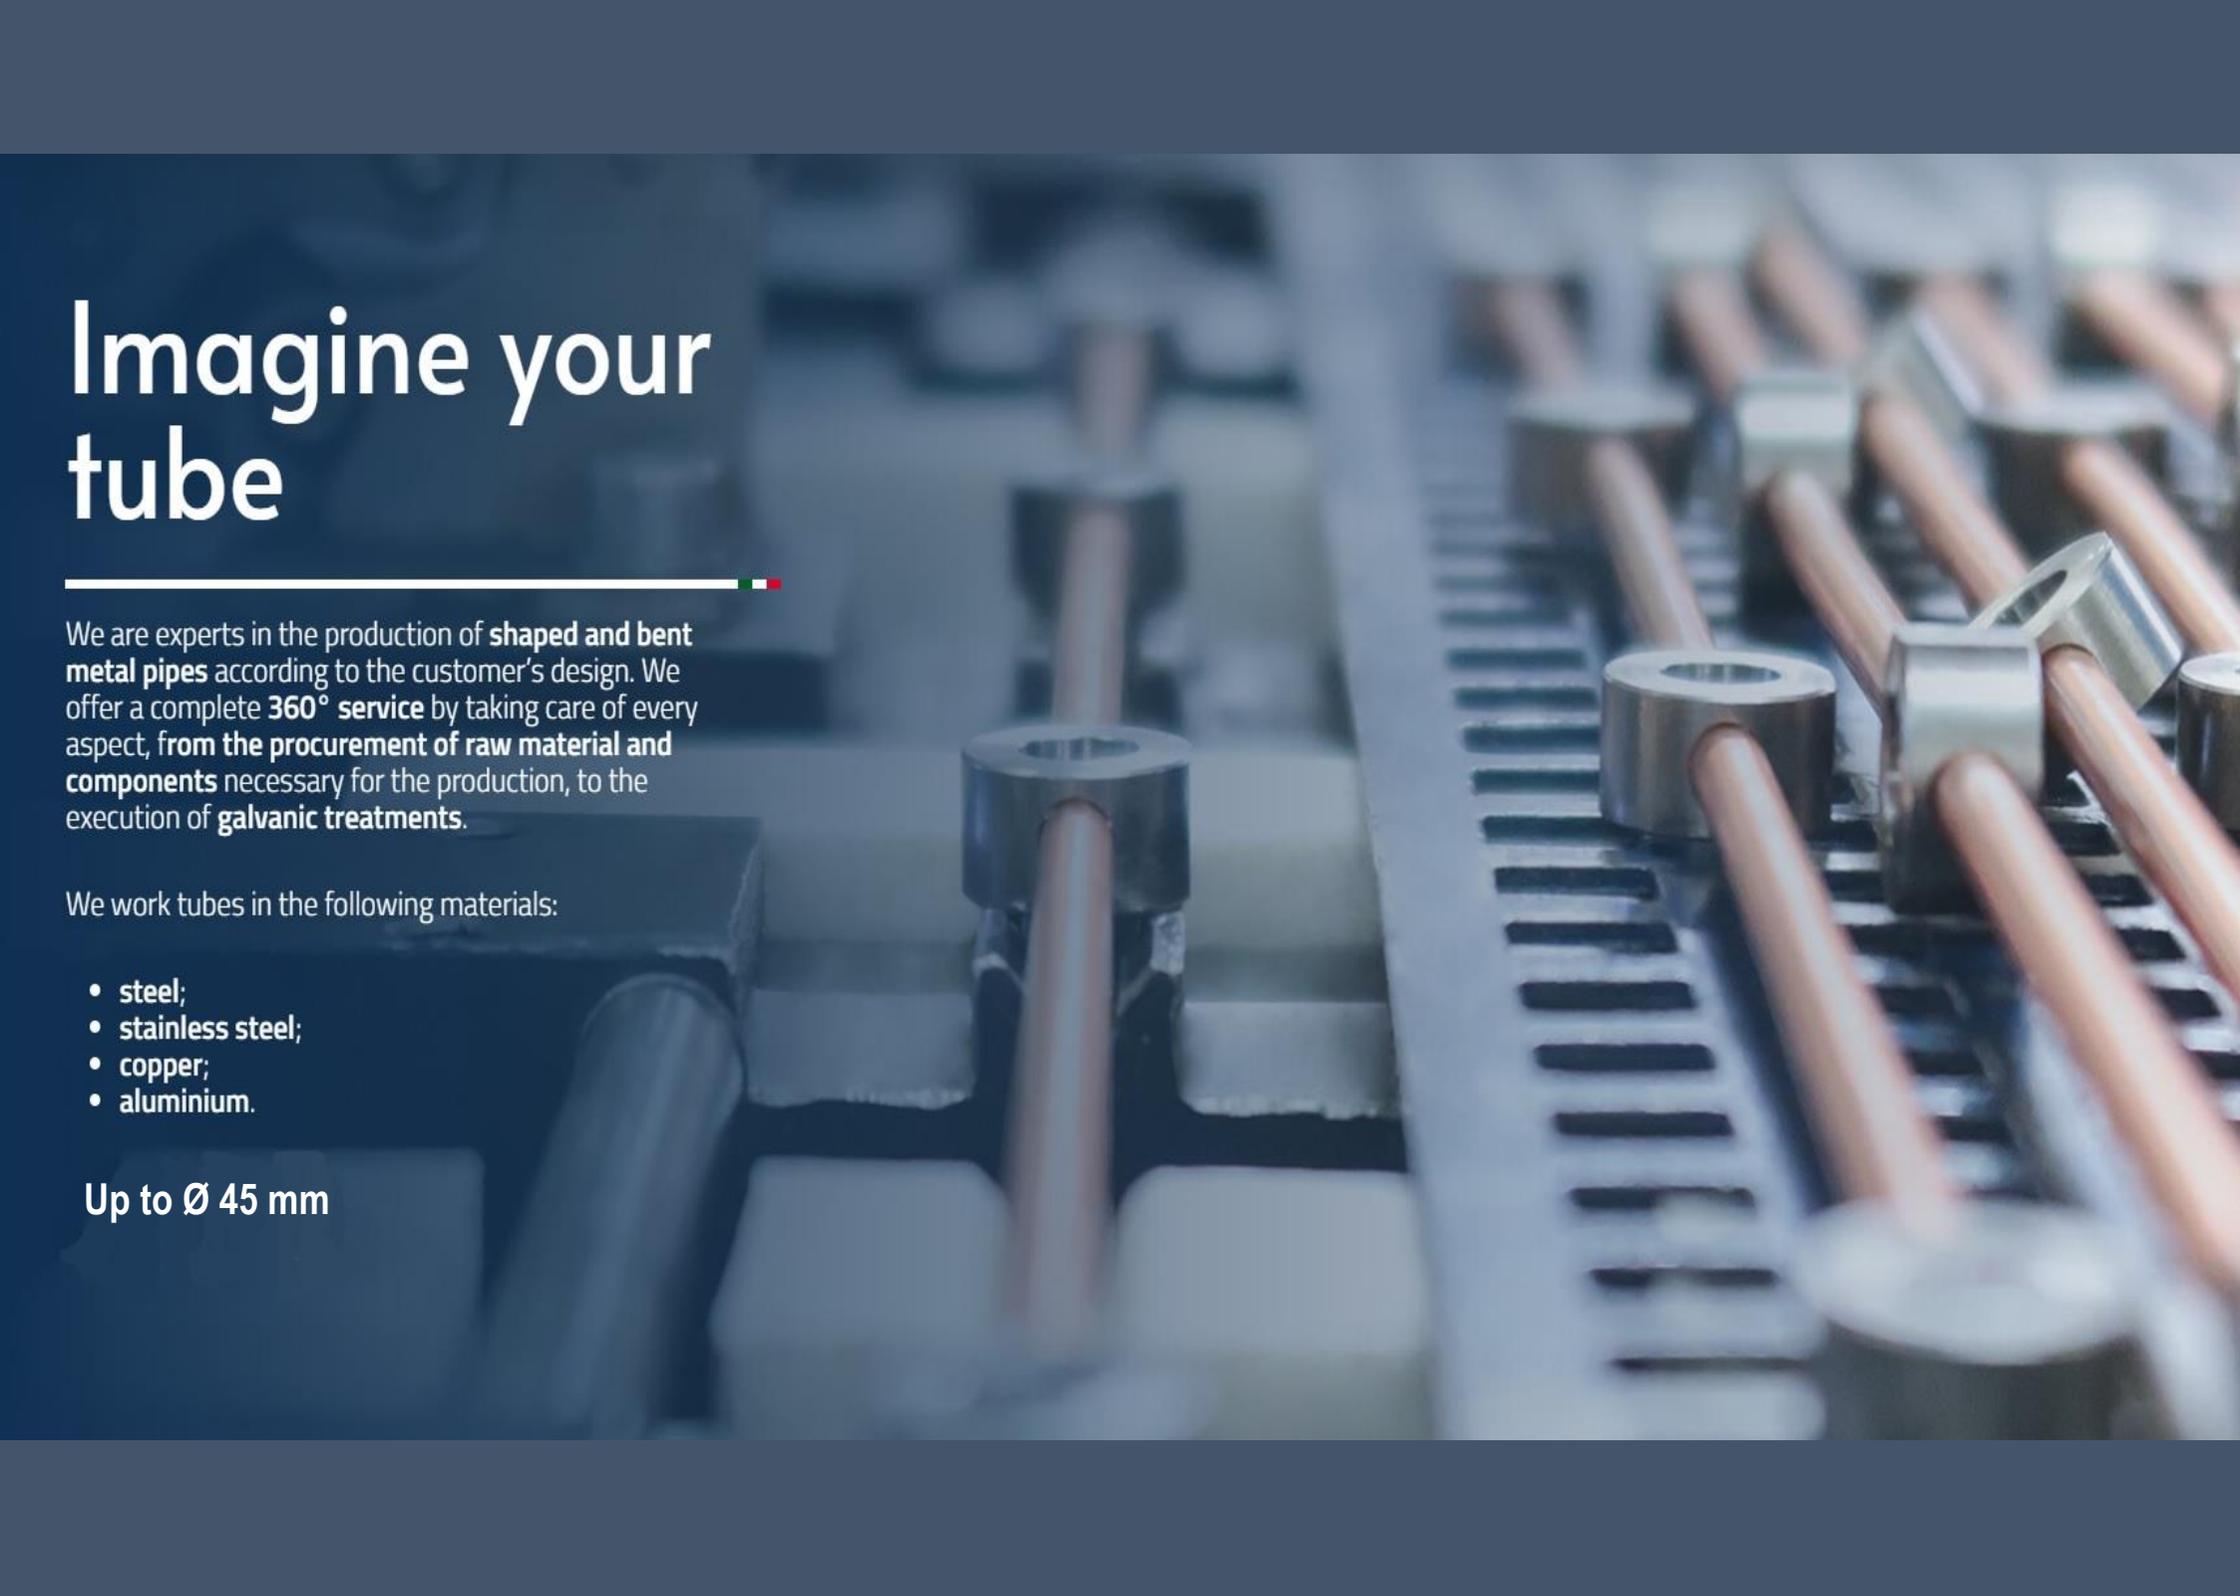

Imagine your tube

We are experts in the production of **shaped and bent metal pipes** according to the customer's design. We offer a complete **360° service** by taking care of every aspect, **from the procurement of raw material and components** necessary for the production, to the execution of **galvanic treatments**.

We work tubes in the following materials:

- steel;
- stainless steel;
- copper;
- aluminium.

Up to Ø 45 mm

The industries we supply

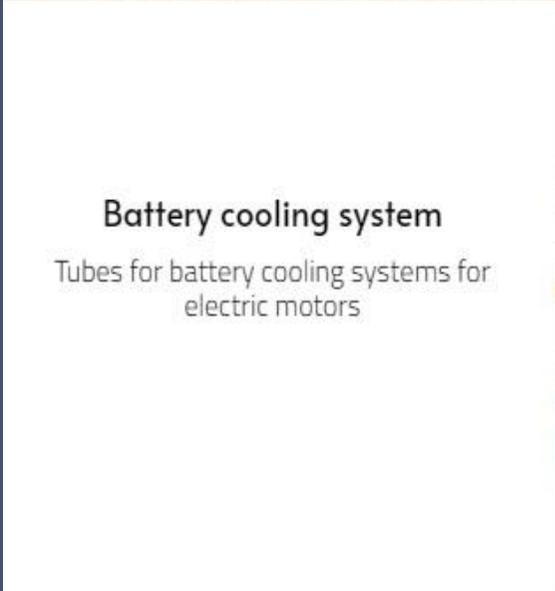

Automotive

Power steering, radiators, engine hoses, fuel hoses

Agricultural

Metal pipes for engines and agricultural machinery

Battery cooling system

Tubes for battery cooling systems for electric motors

Caravan & Camper

Tubes for the camper sector and vehicle's cabs

Nautical

Stainless steel pipes for fluid transfer

Agribusiness

Liquid transport pipes for agro-food industry machinery

Industrial machines

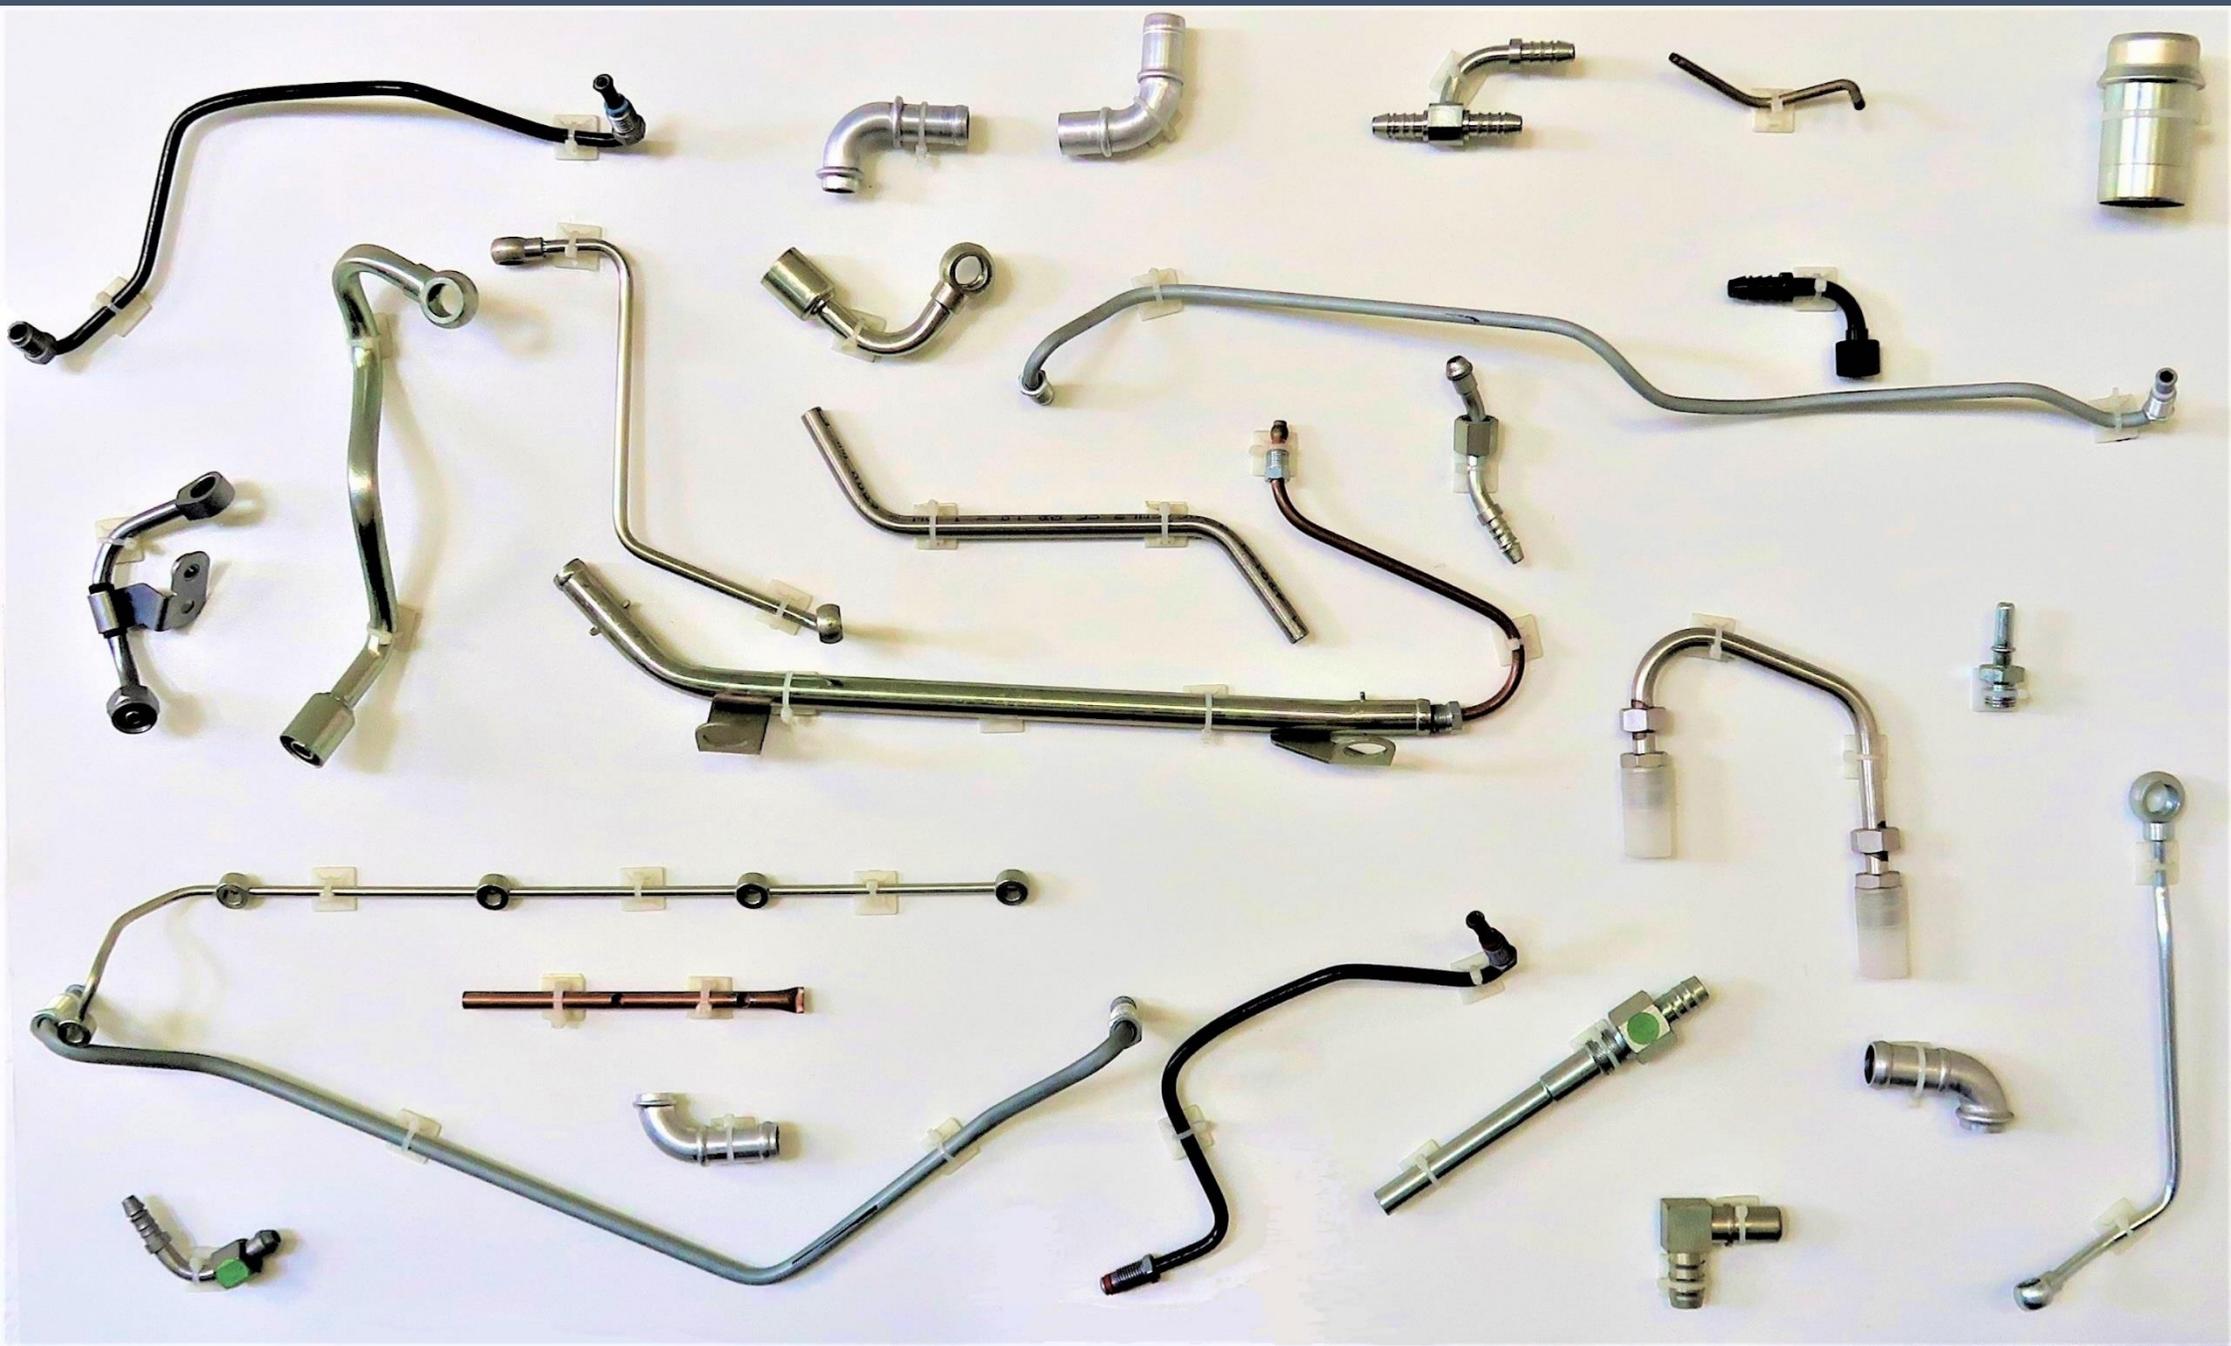

Hoses for compressors and industrial machinery

Conditioning and heat exchange

Pipes for air conditioning and heat exchange systems

Certifications

There is only one rule to produce well: follow the rules. Por Srl boasts since 1997 a **Company Quality System** according to the ISO 9001 standard. We guarantee the conformity of the product starting from the materials, components and treatments, strictly controlled during the arrival acceptance phase and purchased only from qualified suppliers. The purchased materials are also subjected to **continuous monitoring** to guarantee the customer with top quality services.

Lot traceability

To further guarantee the **quality** of the products we manufacture, we provide the customer with production batch's sheets that ensure **the most precise traceability of the materials, components and products we use.**

Quality without compromise

Bureau Veritas Certification

POR TUBETTI SRL

Via Aldo Moro, 18-25030 RONCADELLE (BS) - Italy

Certified site:

Via Aldo Moro, 18-25030 RONCADELLE (BS) - Italy

Bureau Veritas Italia S.p.A. certifies that the Management System of the above organisation has been audited and found to be in accordance with the requirements of the management system standards detailed below

ISO 9001:2015

Scope of certification

Manufacturing of pipes and connectors on customer's design

IAF sector: 17

Original cycle start date: 18-December-2014

Expiry date of previous cycle: 17-December-2020

Certification / Recertification Audit date: 25-November-2020

Certification / Recertification cycle start date: 21-December-2020

Subject to the continued satisfactory operation of the organization's Management System, this certificate expires on: 17-December-2023

Certificate No. - Version: IT302856 - 1

Issue Date: 21-December-2020

GIORGIO LANZAFAME - Local Technical Manager

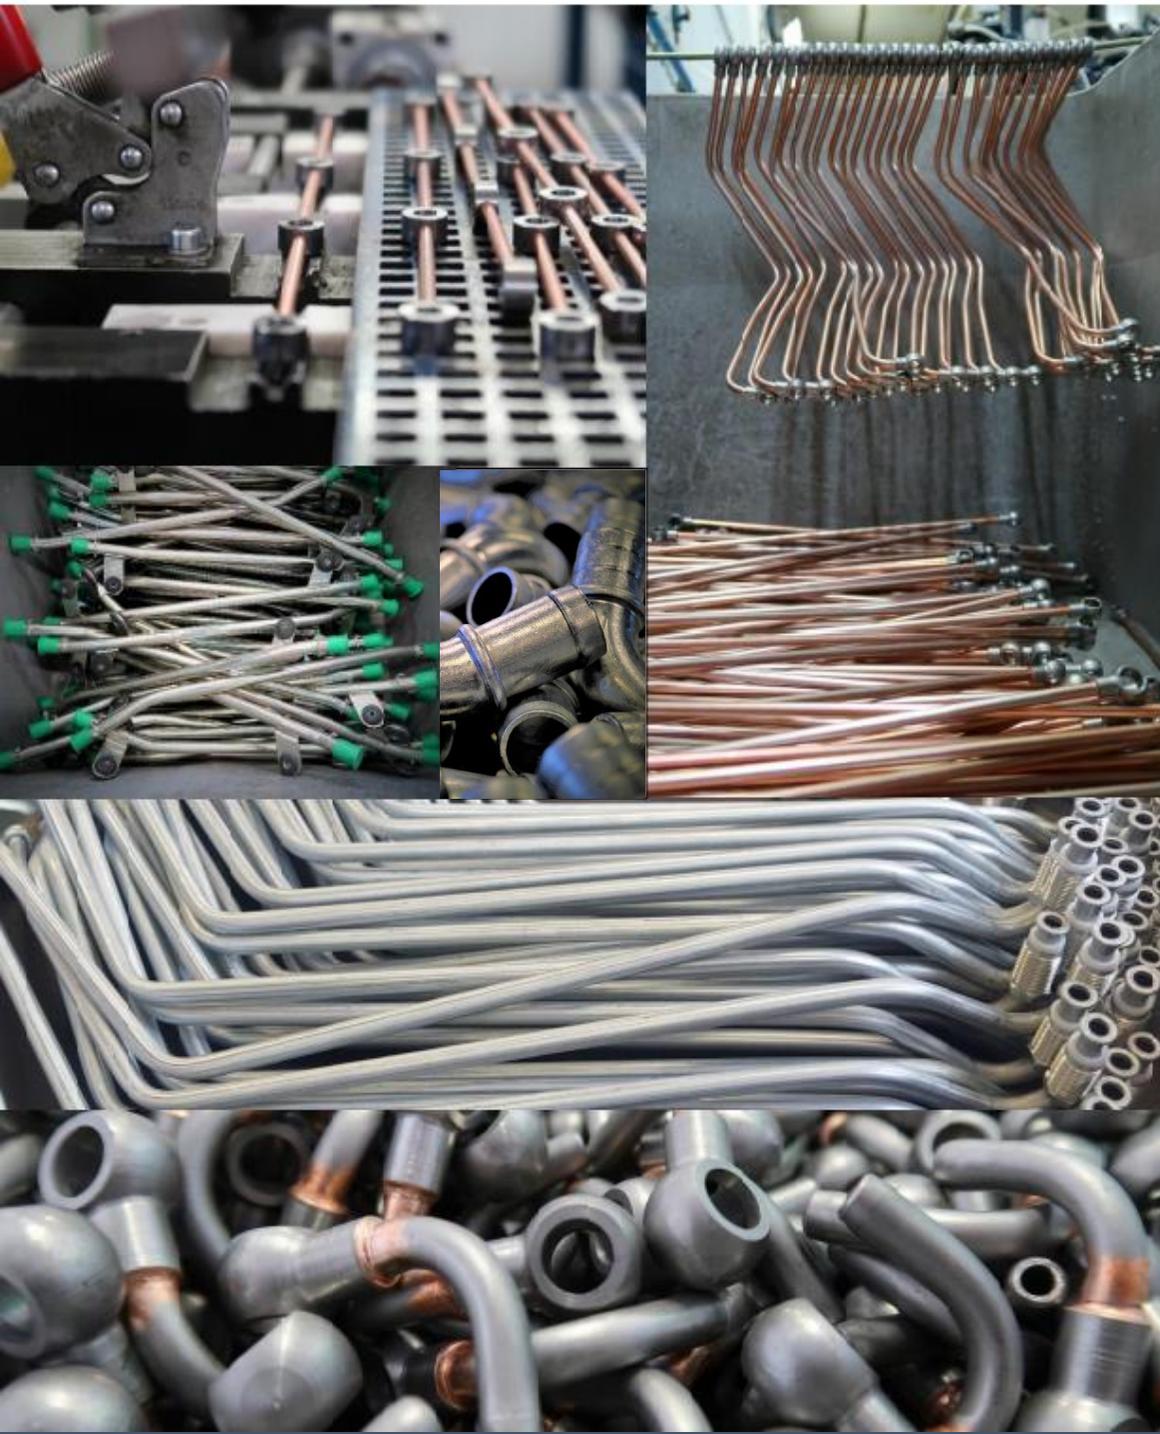

SGQ N° 000A
Member Body Award of Mutual Recognition (MRA) S.p.A.
Member of the IAF and ILAC Mutual Recognition System

Certification body address:
Bureau Veritas Italia S.p.A., Viale Monza, 347 - 20126 Milano, Italia

Further clarifications regarding the scope of this certificate and the applicability of the management system requirements may be obtained by consulting the organisation.
