## **ABOUT US**

Established in 2011, our core focus is laser cutting of steel, stainless steel, and aluminum sheets. Providing a comprehensive service with a high capacity, we guide clients from product design to mass production, building trust through adherence to deadlines. We always improve and innovate. That means bringing in new and faster machines and more efficient technology as well as improving the packaging of the shipments so the products arrive without a scratch or bend. In the last 13 years, more than 100 companies have chosen us because of the quality of our works, the great communication and timely delivery. Most of them are happy to recommend us to this day.

## CLIENT TESTIMONIAL

"At DMG MORI, we place high expectations on our suppliers and SMP meets them. They are reliable and deliver on time. We are really happy that they have the capacity that we need, and they are always able to produce our goods in excellent quality. We have confidence in the future and want to grow further together."
