ALUMINUM GETS SHAPE

THE COMPANY

Fondstamp is a gravity die aluminum foundry since 1978, continuing a family tradition started in the 30's

EQUIPMENT

The nine melting furnaces, over forty hydraulic moulding benches and the finishing department integrated in the company permit a good response to the quality and delivery requirements of the customers

ALLOYS

The variety of produced items makes that several unified alloys are usually present in our warehouse, allowing us to suggest the preferable solution for every casting. The following alloys are on stock

ALUMINUM ALLOYS

EN AB 46100

EN AB 46400

EN AB 47000

EN AB 45300

EN AB 44100

EN AB 43100

EN AB 42100

EN AB 71100

EN 601

ZINC ALLOY

EN 1774 ZL2720

Different alloys used on request

ALUMINUM GETS SHAPE

SUPPORT IN PRODUCTS DESIGN

The acquired experience and professionalism consent Fondstamp to supply to our customers a meaningful support in the design of the components, in the choice of the most suitable alloy, in the realization of the dies.

MACHINING

Thanks to the support of qualified workshops, we can supply machined castings
