

COMPANY PROFILE

 **NEJCI**

PRECISE MACHINING

## ABOUT OUR COMPANY

We are a young, ambitious, innovative and dynamic company with a clearly defined growth and development strategy.

We specialise in the production of complex products and highly demanding metal products for the needs of medicine, the hydraulic industry and agricultural machinery.

We use modern equipment from the world's best manufacturers, which enables us to provide comprehensive solutions in an excellent ratio between quality and price. We are highly flexible and offer a wide range of products and react quickly to product changes and other needs of our customers.

## ABOUT OUR COMPANY

We are distinguished by a combination of modern technologies, state-of-the-art fast processes and flexible production for dedicated use. Our development strength is a combination of clear strategies, development directions and commitment to our values: flexibility, partnership and efficiency.

Our vision is based on technological development, at all levels, and in the continuous improvement of the quality of our production processes, the goal of which is: successful and long-term cooperation with our customers and partners.
