

OECCO
tooling solutions

PRESENTATION

ABOUT US

OEKO Tooling solutions is a company bringing together a group of dedicated professionals specialized in the manufacture and sales of plastic injection tools. What sets it apart from the competition is the fact that it provides a complete service from manufacture to after-sales maintenance. This guarantees a long life expectancy of tools and is a solution for many companies seeking continuous support throughout all the aspects of injection molding.

With us on board, you save personnel resources you'd otherwise need to allocate to project management. Partnership and responsiveness of all parties; you, **our Tool shop** and our **Chinese partner**, are key to completing the project successfully.

TOOLSHOP

We offer to our customers tools made in **Slovenia** or tools made in **China up to 15t**

All after-sales are provided by our workshop, including:

- **Tool modifications**
- **Tool optimization**
- **Tool repairs**

Quality over quantity

Our annual capacity is up to **70 to 100** tools depending on their size and complexity. This capacity is also guided by the responsibility towards our clients, which is to keep some capacities free for continuous modifications that are a constant in the tool business.

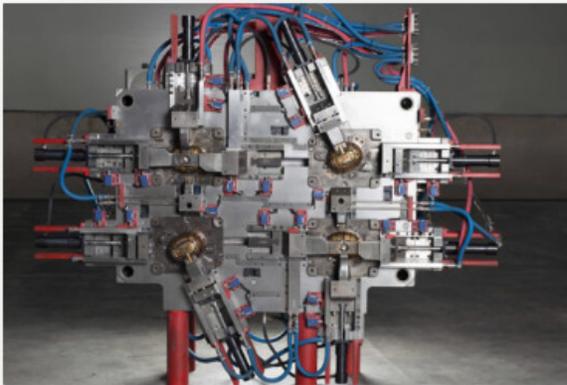

MACHINE PARK

- **5 axis CNC milling machine HERMLE C40U**
- **5 axis CNC milling machine Spinner U-620**
- **3 axis CNC milling machine Hartford HSA**
- **3 axis CNC milling machine Hartford HCMC-13**
- **3 axis CNC milling machine Hartford MVP-10**
- **3 axis CNC milling machine brother speedio S700X1**
- **3 axes HSC FANUC ROBODRILL α -D21LiB5**
- **Horizontal CNC drilling and milling center – SHW**
- **2x plane grinding machines**
- **EDM – Die sinking machine Ingersol Gantry 800**
- **Wire erosion FANUC ROBOCUT**
- **Spotting press REIS TUS100-100**

High quality standards that meet all the requirements of the European market.

Transforming ideas into excellent tools with cost-effective solutions!

Injection tooling

We offer manufacturing options in China or Europe depending on your needs and specifications.

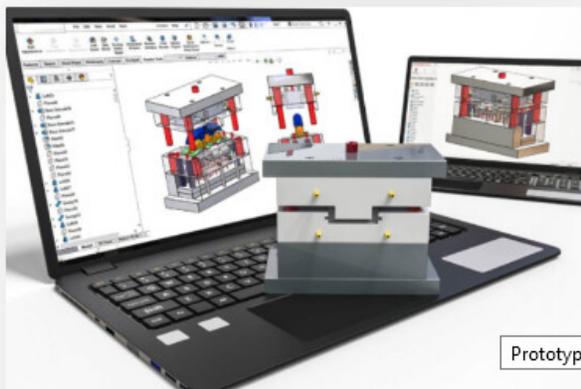

Manufacture of components

We manufacture individual components for tools and deliver them to your production facility in order to save you

Tool modifications and maintenance

Our company provides an outstanding after-sales service. To avoid the excessive

Prototyping

Prototyping

Tool prototypes are essential for testing an object before proceeding with production. The prototypes allow us to manufacture limited series as a preliminary step to large-scale manufacturing.

Inserts sintering

Industrial 3D printing with direct metal laser sintering – DMLS technology enables our customers to cost-effectively produce a variety of prototypes or small series of products.

Logistics

From easily transportable tools to tools weighing up to several tons, we offer delivery by sea, air or rail. Our goal is to deliver the tool in perfect condition within the agreed delivery time.

Management Service

CERTIFICATE

The Certification Body
of TÜV SÜD Management Service GmbH
certifies that

OECO d.o.o.
Gozdna pot 8, 8273 Leskovec pri Krškem
Republic of Slovenia
at the site
Ukmarjeva 4, 1000 Ljubljana
Republic of Slovenia

has established and applies
a Quality Management System for

**Development and Sale of
plastic Injection molding tools and components.**

An audit was performed, Order No. 707132278.
Proof has been furnished that the requirements
according to

ISO 9001:2015
are fulfilled.

The certificate is valid from 2022-02-22 until 2025-02-21.
Certificate Registration No.: 12 100 63560 TMS.
