

FAST, PRECISE AND RELIABLE SINCE 1972

HIGH PRECISION CNC MACHINING

Our Service

FLEXIBLE *Flexible*

Specializing in 3 – 4 – 5 axis CNC Turning + Milling, we handle both large and small batches.

We machine every kind of material, excelling in Stainless Steel and Nickel Alloys.

RELIABLE *Reliable*

For over 50 years, LP Meccanica has provided high-quality custom parts and components for customers across a wide range of industries including the aerospace, energy, machinery, pharmaceutical, and food & beverage industries.

ECONOMICAL *Economical*

From the choice of raw materials to the design of special tools, our dedicated team of engineers thoroughly plans every step to reduce the overall cost of your parts.

Partnering with us is as simple as getting in touch and starting a conversation.

WHERE YOUR MECHANICAL PARTS COME TO LIFE

SMALL SERIES & PROTOTYPING

From concept to finished part in a few days.

SPECIAL APPLICATIONS

Standard is no longer enough.
Every client has different needs, and we can help adapt your standard components, machines, or systems to fit your customers' specific application.

INDUSTRIAL AUTOMATION

Flexibility at your service.
When your clients need changes, there's no time to waste. We produce parts for custom handling systems and workstations in a matter of days.

RESEARCH & DEVELOPMENT

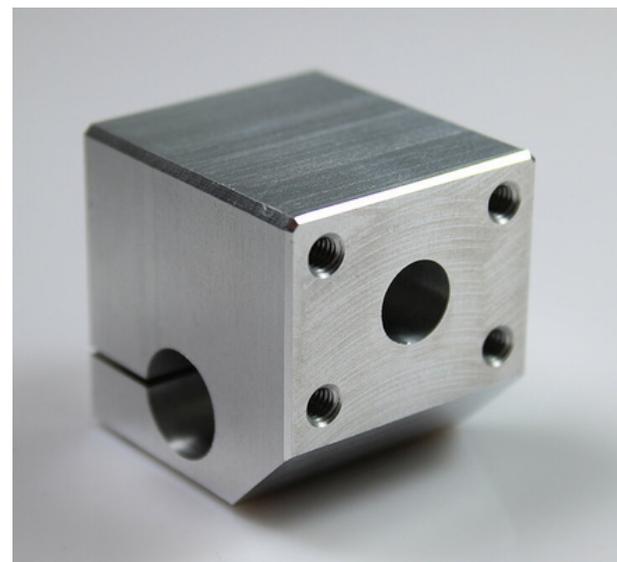

Touch your ideas.
Timing is key to successful innovation and profitability. We'll quickly advance the development of your projects to minimize your time-to-market.

NO JOB IS TOO SMALL

Training | Planning | Sourcing

Small series require professional expertise, meticulous planning, and an excellent supply chain. Tools and instrumentation are critical, but what really makes the difference is manual work and craftsmanship.

Most companies decline low-volume jobs, however, we've spent the last 50 years perfecting our processes and technique - so that you can receive unique parts, up to 5-axis, with lead times beginning at 5 business days.

ADDITIONAL SERVICES

- ✓ ENGINEERING
- ✓ FORGING / CASTING
- ✓ HEAT TREATING
- ✓ MARKING
- ✓ TESTING

Your point of reference

We offer a wide range of additional services that can be performed in-house or with the help of our extensive network of qualified suppliers. This way, you only have to deal with one company, saving on time, resources, and logistical costs.
