Academy

trust. the base of our success

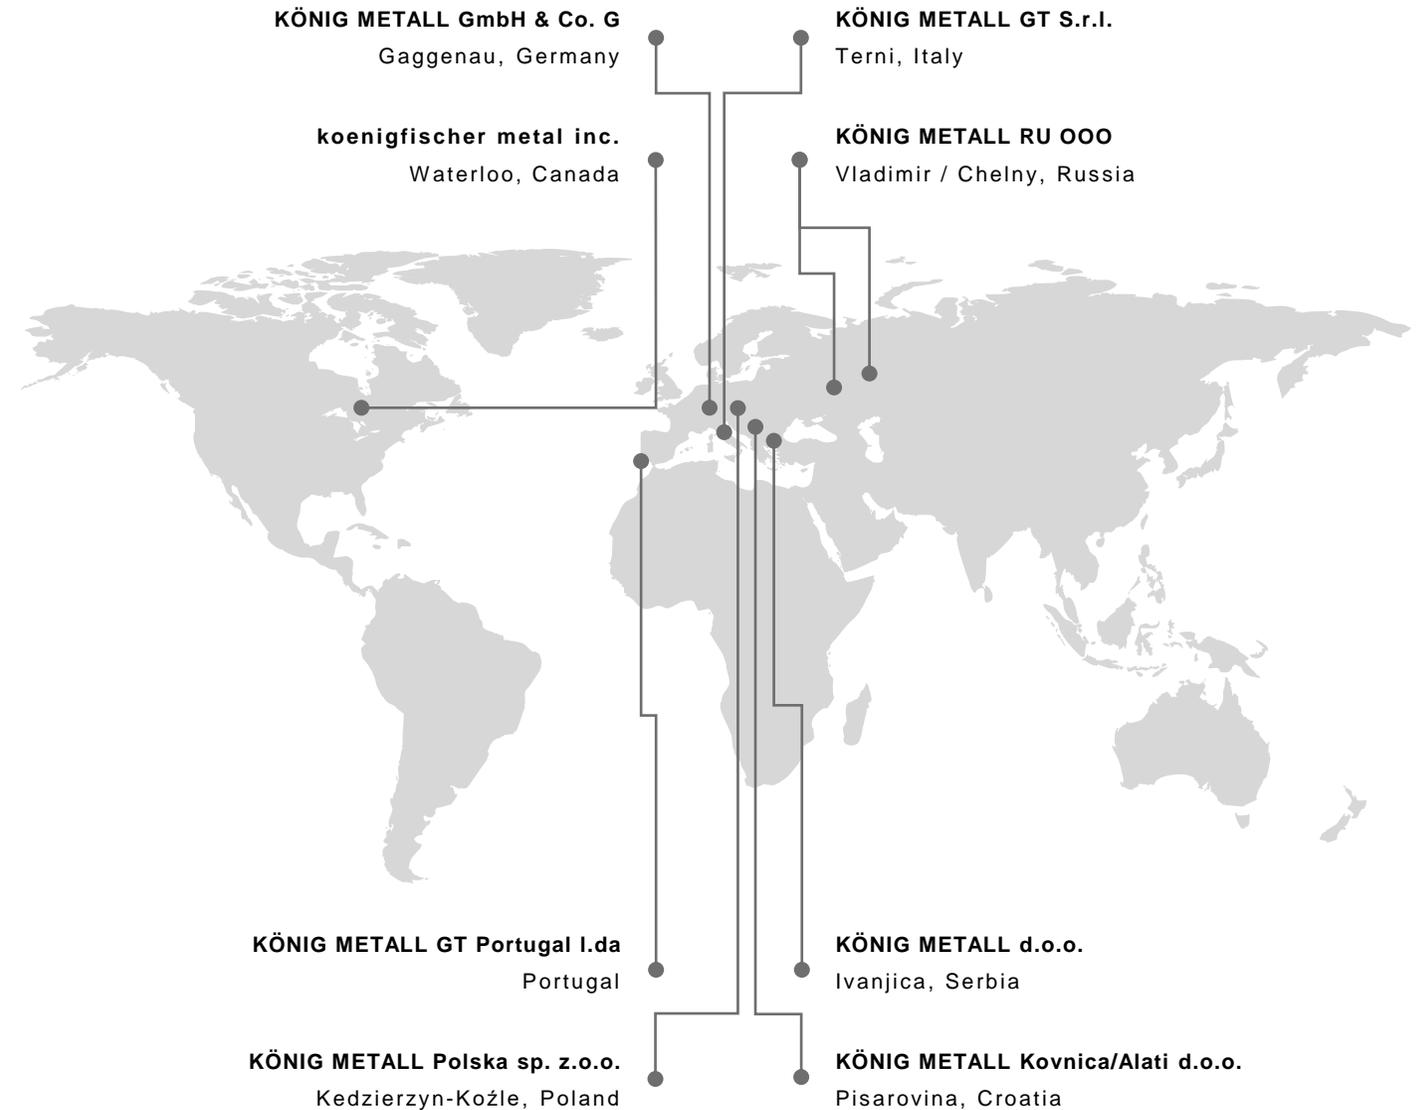

Our customers

flexible and efficiency-oriented

Worldwide connected

We process sheet-metal and tubes globally at eight sites with our apprx. 1,400 employees according to customer-wishes. We deliver into the automotive- and electricindustry, machine construction and several other industries.

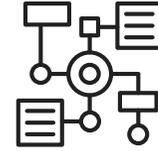

trendsetting and need-oriented

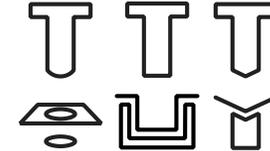

Technologies

Comprehensive technology- and process-Know-how from a single source.

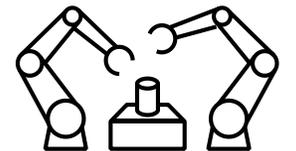

Dynamic markets, competitive pressure, legal requirements – enterprises are facing new challenges permanently, which demands innovative solutions. If more complex the requirements are, the even more stronger is the need of a partner, who not only develop tailor-made products, but also manufacture economically. The KÖNIG METALL group offers all advantages from a single source:

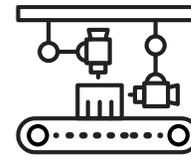

Processdevelopment
and design

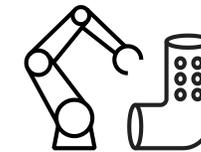

Punching, drawing
and bending

Assembly of
assemblies

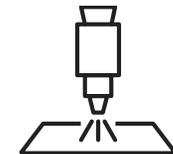

Tool-, special-
and machineshop

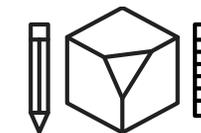

Tubeperforating and
tube manufacturing

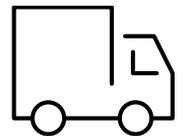

Cutting and
welding with
lasertechnology

Surface treatment

Prototyping

Logistics
