

CNC MACHINING

QUICK, INNOVATE, PRECISE

About Us:

Our production started in 2008. Due to the volume of work, the need for independence and increase in production capacity 2012. we formed a company BOTEH.

Currently we have 25 employees and we are located in a 500 m² facility with 8 modern CNC milling machines, 3D measuring equipment and large saw for aluminum.

BOTEH is known in Croatia and in the region as a reliable manufacturer in mechanical industry. Our sophistication, dedication and quality has been recognized by many clients.

Years of experience, professionalism, superior quality and service are the basis of our production and business.

High Precision Milling

BOTEH offer a diverse range of CNC high precision milling working with a range of materials including aluminums, brass, steels, stainless steels and plastics.

Our team is equipped with experts in manual programming and CAD-CAM programming.

Quality Inspection

Customers cannot afford to receive non-conforming product. Quality is a priority at BOTEH. Our focus is on our inspection and quality area. This area is enclosed in a temperature and humidity controlled environment to ensure part consistency. We currently hold ISO 9001:2008 certification.

inspection department incorporates the use of CMM technology, generating printouts of inspection findings. We initiate 100% inspection after every operation and our records are maintained as evidence of final product acceptance.

Industries:

Industrial machinery

Electronics industry

Transportation

Renewable energy

Shipbuilding

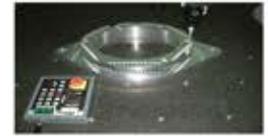

Food processing

Pharmaceutical packaging

We proudly make prototype and limited production parts and assemblies for a variety of industries. Our base are German and Croatian market.

Engineering

Our software programs include:

MASTERCAM X8, PC DMIS PRO, BRISCAD, CIMCO Integration which allows us to read and program most files (CATIA, STEP, IGES, PRT, SLDPRT, and many more).

We accept any electronic files via email, dropbox or Cloud.

We have quality professionals who are skilled in programming and utilizing the latest software and equipment. Customers expectations are high and our quality department stands behind our products.

Material availability and saw:

We have secured storage of material and large saw.

With those capabilities we can ensure fast response and short time delivery.

Width 870 mm
Height 170 mm

Lenght as long there is space :)

Why Us:

BOTEH specializes in medium to complex CNC high precision milling. Our pride is first class quality and on-time delivery by utilizing lean production methods to better our internal operations.

We have experince in urgently jobs and partner in trasportation for fast response to our clients in EU.

With our technology in both machines and software, we are capable of doing the most complex work.

To complement our vast machining capabilities; we put a lot of effort and equipment into our inspection and quality area.

To find out more about how we can assist you, please contact us or request a quote.

Reach out to us,
you'll be happy you did

OUR MISSION:

BOTEH PRODUCES HIGH PRECISION MILLING PRODUCTS TO CUSTOMERS.

WE ARE MAKING EVERY EFFORT TO MAKE OUR CUSTOMERS BECOME LEADERS IN THEIR INDUSTRIES.

WE CREATE ADVANTAGE AND NEW VALUE THROUGH INNOVATION AND USE OF THE LATEST TECHNOLOGY.

IN OUR WORK WE ENCOURAGE A GOOD ATMOSPHERE AND THE DESIRE FOR PROGRESS OF ALL. EVERY SERVICE WE EXECUTE IS ON TIME AND WITH FIRST CLASS QUALITY.
