

REI TREGI SRL – COMPANY FACT SHEET

COMPANY FIGURES:

- Foundation : Year 2000
- Ownership: Maurilio Gervasoni – President
Germano Gervasoni – General Manager & Head Technical Division
Paola Gervasoni – Sales and Accounting Division
- Website: www.reitregi.it
- Employees: > 50
- Turnover: € 18,3 millions
- Export quote: 99%
- Metal processing: Yearly 850t (780 t brass +other metals) - 4m Components/pieces
- Core Production: Hot forging - Casted Parts- Die forging of parts in Zamak– Plastic injection
- Specialisation: Customized solutions – Design – Industrialization – R&D Consulting
- Industry surface: 6000 m2 - 2 Buildings for Production – Warehouse – Packaging
- D-U-N-S Number: 434099826
- Certifications: UNI EN ISO9001

MACHINE PARK FOR PRODUCTION - MACHINING – ASSEMBLING – TESTING – DESIGN

- Gnutti Transfer - Automatic blocks for machining CNC – 3 axes 3
- Gnutti Transfer – Automatic blocks for machining CNC – 4 axes 1
- Gnutti Transfer – Automatic blocks for machining CNC – 5 axes 1

- Assembling Machines Automatic compressed air testing at 10 bar 4
- Assembling Machine and Automatic test 1
- Stamping Machine - resistance welding 1
- Press Machines – at partners site 25
- Hatebur Machines – at partners site 3
- Sandretto Plastic injection Press from 90 t to 300 t – at partner site 10

- Testing Machines – single station 2
- Vertical Packaging Machine – single station with bar code system 1
- Mounting Blocks with Electronically controlled screwdrivers 3

- Depuration System and demineralization for process water 1
- Hänel Automatic vertical warehouse for storing equipment 2
- Fischer Couloscope Coating thickness measurement 1
- Profile projector 1
- Micrometer Intertest 3
- Micrometer precision comparators and external diameter control 1
- Hardometer (hardness Brinell -Vickers – Rockwell) 1
- Mitutoyo Altimeters (center distance – thickness – diameter) 2
- Mitutoyo Profilometer SJ-410 & SJ-301 2
- Ash Vision Camera 1
- Dinamometers keys 5
- Ultrasound T1007 thickness control 1
- Hydraulic test bed up to 25 bar pressure 1
- Thread Grub probes and rings kit upon clients measure request 1
- Compressed air testing machines 3
(from 0.2 to 10 bar – leaks detected up to 5 Pascal per second)
- CNC Screwdrivers from 0.5Nm to 150 Nm 10
- Automatic Assembling machines (o-rings, ball valves etc) 5
- Mechanical design of all the parts on Siemens Solid Edge 4
