

United Springs

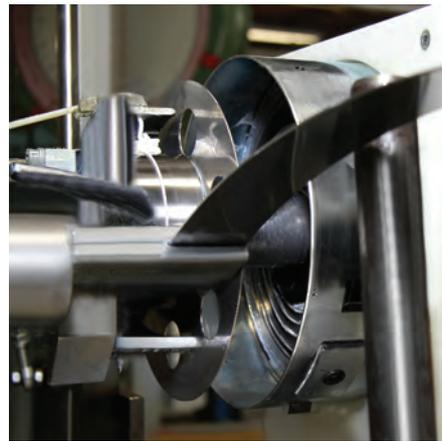

PRECISION COMPONENTS

The ability of United Springs to develop prototypes efficiently and reliably, due to our long-term involvement with designing fresh innovations for plastic moulding, has been fundamental to the satisfaction of our growing customer base.

We have cultivated partnerships with many industry leaders, imagining new solutions and ensuring their swift translation from prototype to mass production. Knowledge, experience and attention to detail, ensure that every bespoke spring, contact part and compression limiter is manufactured to our customer's exact specifications.
