

**TC CONTACT, spol. s r.o.**

Nové Mesto nad Váhom

TC CONTACT has been operating as a production company with assembly and cooperation activities since 1992. From its establishment, the Company has focused on its **collaboration with international and global clients.**

Focus on mechanical engineering - the precision machining production of non-standard, **single-purpose machinery**, equipment and technological complexes (including their electronic control systems), with applications in different types of industry, mainly automotive.

The main goal of the company is to keep the **innovative technologies,**  
**products with high value added.**

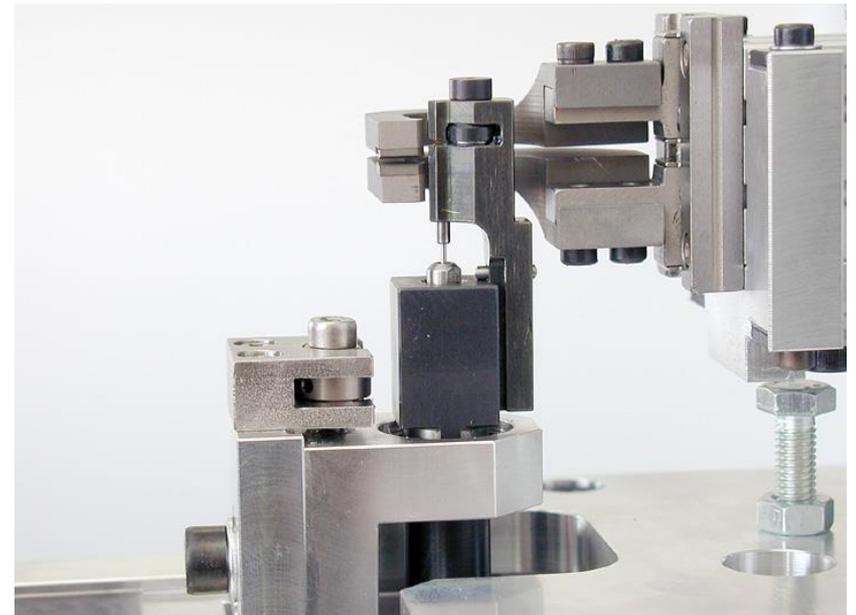

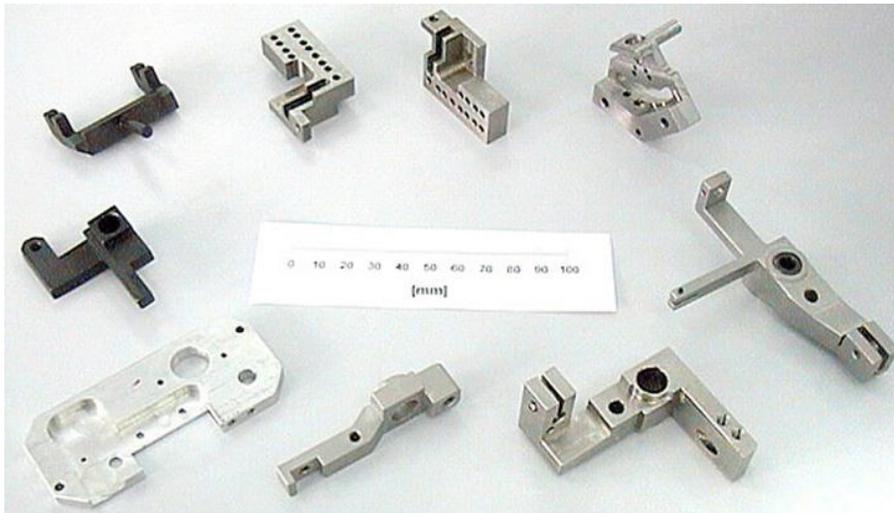

The town is situated on the west of Slovakia, close to the main highway, circa 100 km from Bratislava and 160 km from Vienna

Our programme includes:

- ultra-precise and miniature components (up to precision class IT 4),
- assembly, positioning, clamping and measuring devices, equipped also with 3 D surfaces, measuring gauges,
- complex 3 D moulds,
- handling and transportation systems,
- machinery and equipment for technological complexes and special-purpose machinery.

# ISO 9001:2009
