

ZAMA SOLUTIONS

Zinc die casting parts from Italy since 1979.

ABOUT US

Since 1979, we produce highly specialized die-cast technical components of zinc also by designing and creating all kind of moulds. We offer our customers a complete service: from the project in co-design of the component to the finished product, through prototyping, industrialization and production.

YOUR PARTNER FOR TECHNICAL ZAMAK COMPONENTS

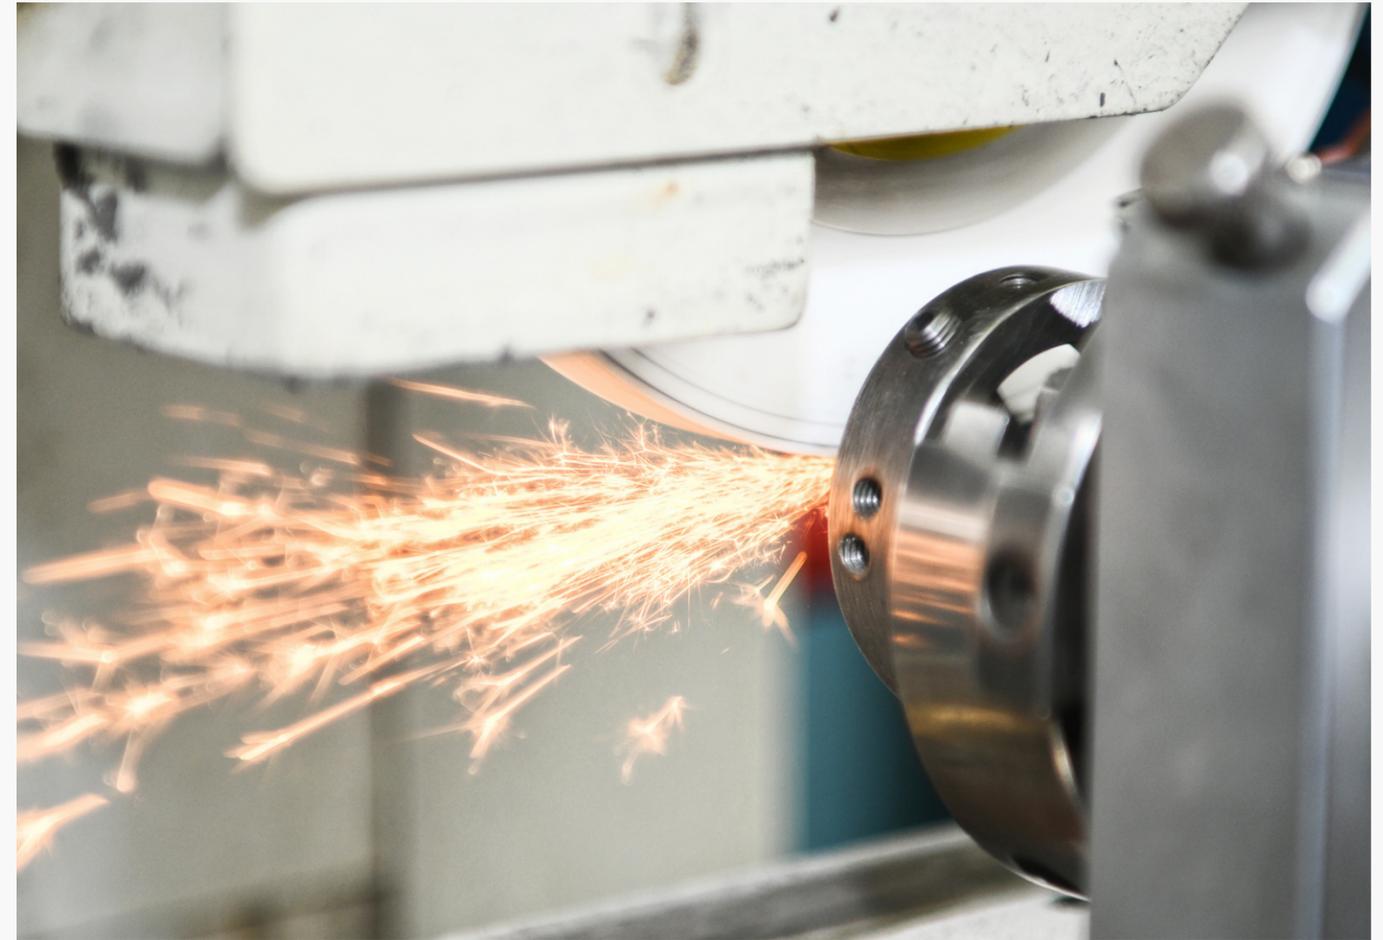

The staff, highly qualified and with many years of experience, supported by the continuous updating of the technology used, has allowed us to acquire high-level contracts and to collaborate with large national and international players.

WHY CHOOSE ZAMAK FOR YOUR COMPONENTS

A versatile alloy for many applications.

Precision, strength and flexibility for all components.

Versatility and design freedom for excellent performance.

OUR PRODUCTION PLANT

Moulds

Production

FROM CO-DESIGN TO MASS PRODUCTION

Prototyping of components
Mould design

Moulding
Mechanical processing
Surface finish
Galvanic coatings

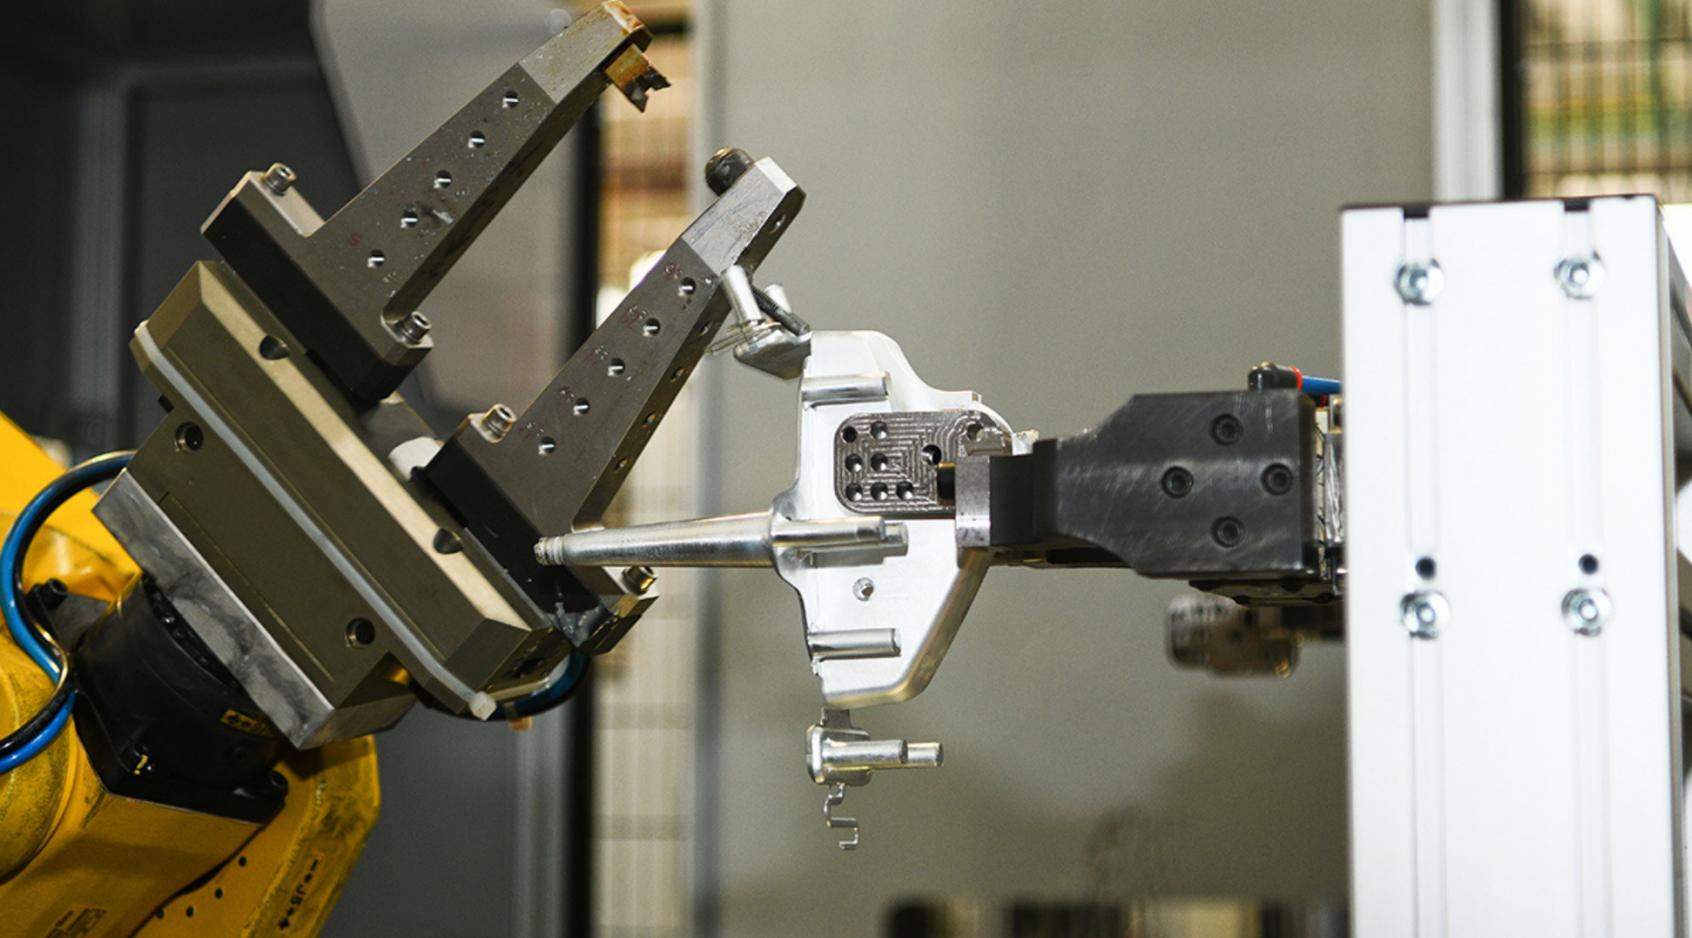

Moulds construction
Moulds maintenance

SOME PRODUCTION CASES

- Structural components
- Locks
- Components for doors and windows
- Automotive
- Mechatronics components
- Connectors
- Gears & Pulleys
- Zipper accessories
- Stationery
- Hinges
- Furniture fittings

OUR PHILOSOPHY

Flexibility and versatility

Personalization

Technology

Respect for the environment

All steps in one solution in our plant based in Italy.
