About as

- Since the founding of the company DajbocTechDOn S.R.L based in Satu Mare Romania, we have designed and manufactured several devices from several fields

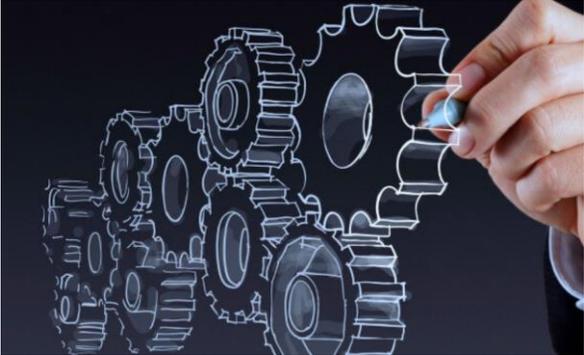

D.D. DAJBOC

What we do?

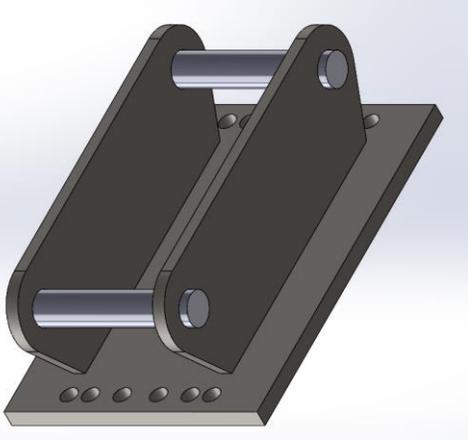

Manufacture

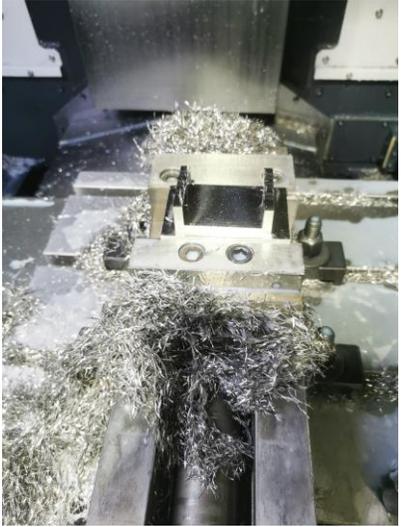

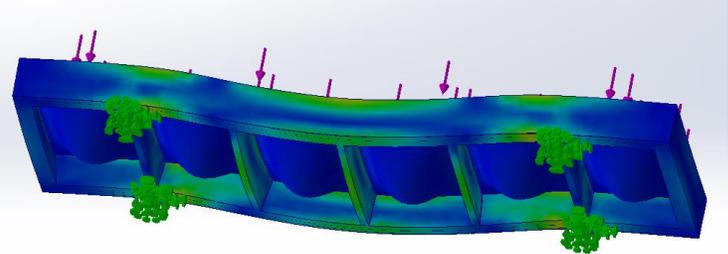

Gather Information and Requirements

Design

Simulation

Assembly

Test

Control

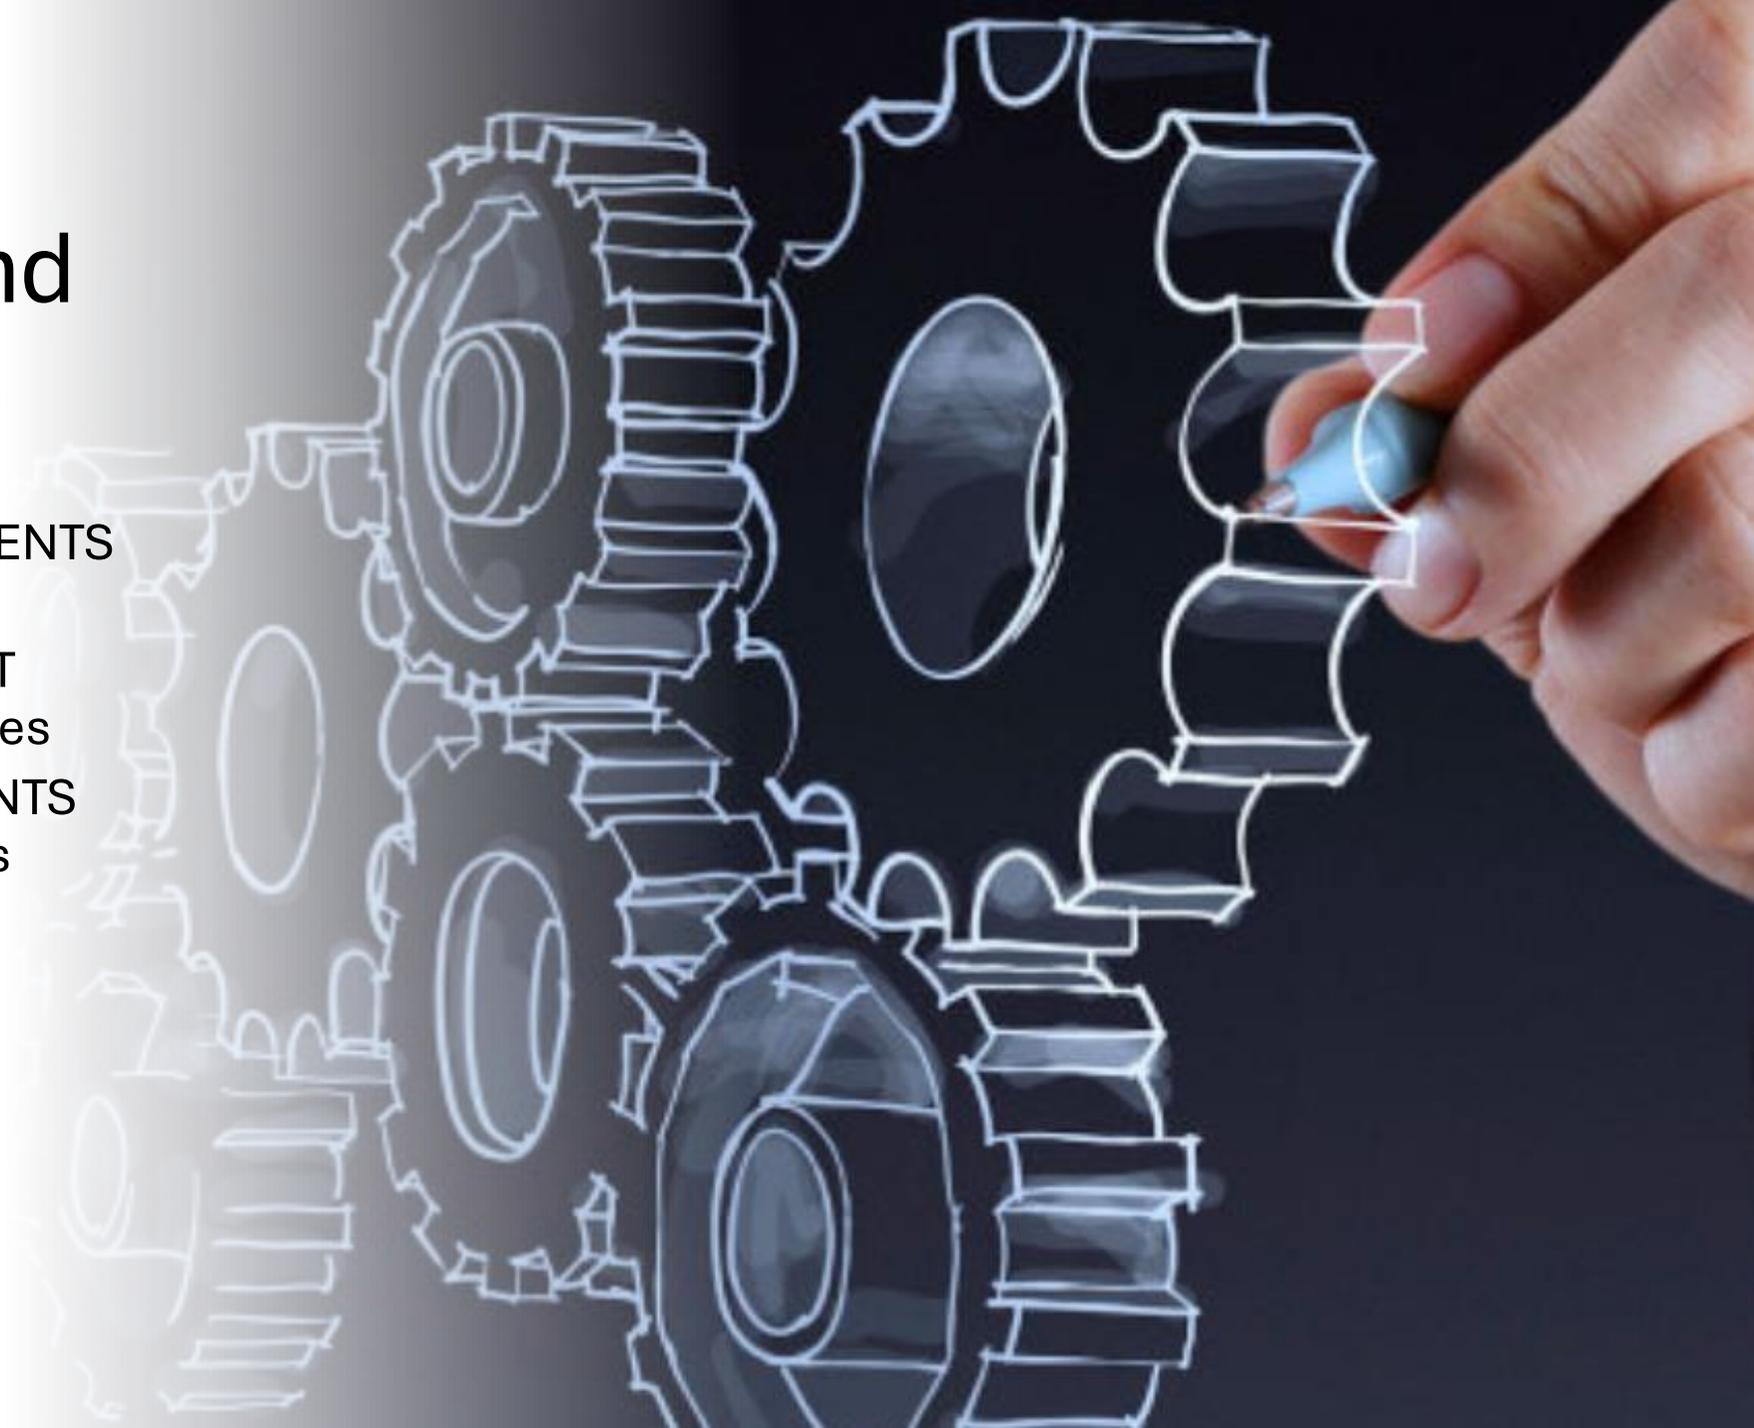

Deliver

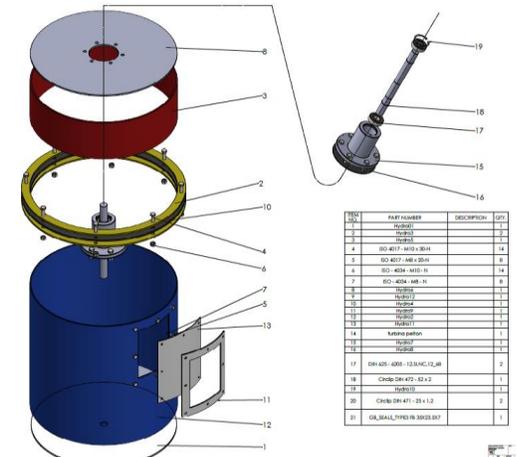

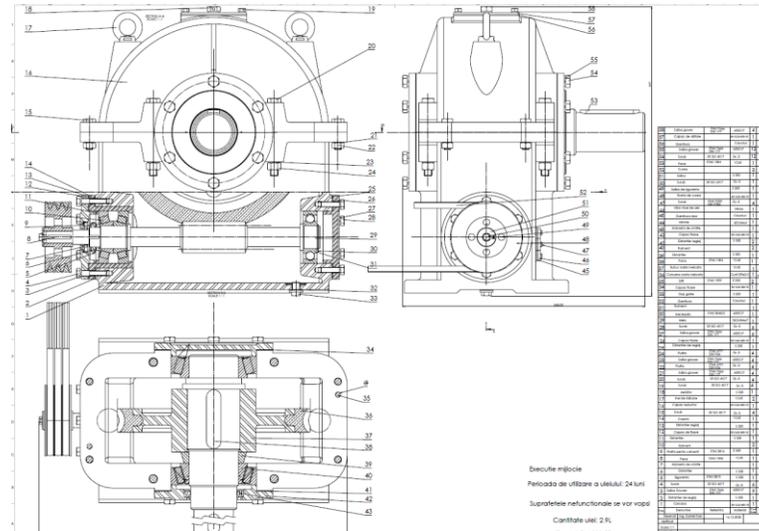

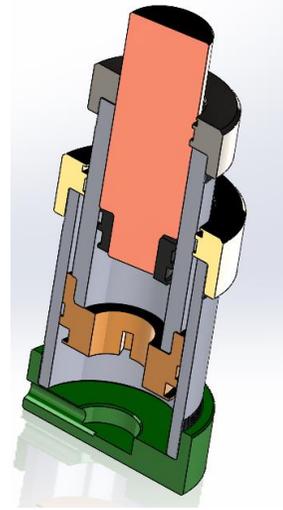

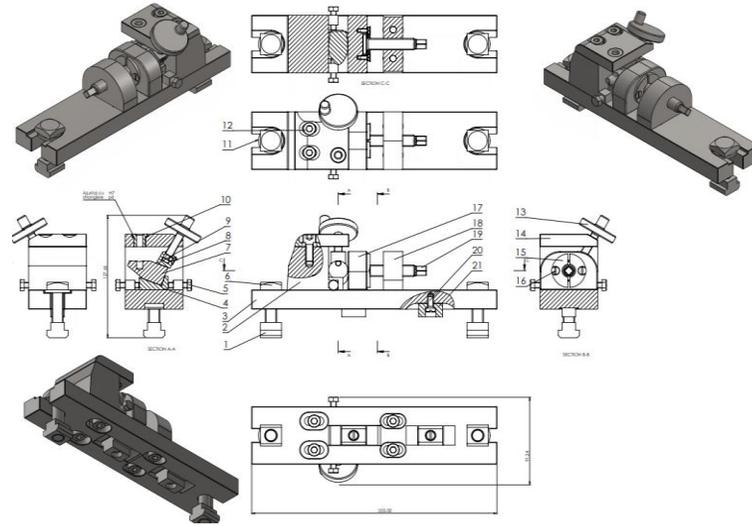

Gather Information and Requirements

- OUR 5-STEP REQUIREMENTS GATHERING PROCESS:
 - ESTABLISH PROJECT GOALS and objectives
 - ELICIT REQUIREMENTS FROM STAKEholders
 - DOCUMENT THE REQUIREMENTS
 - CONFIRM THE REQUIREMENTS
 - PRIORITIZE THE REQUIREMENTS

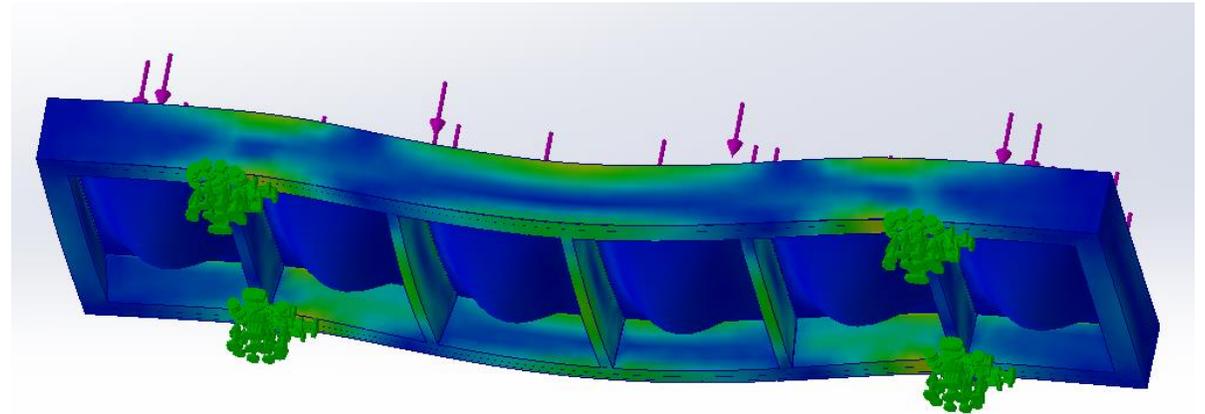

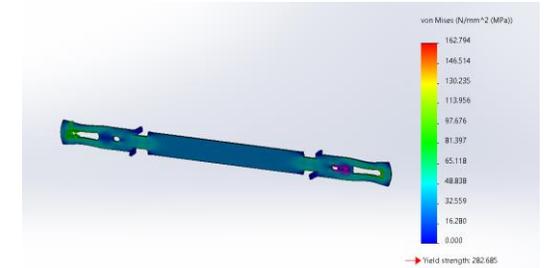

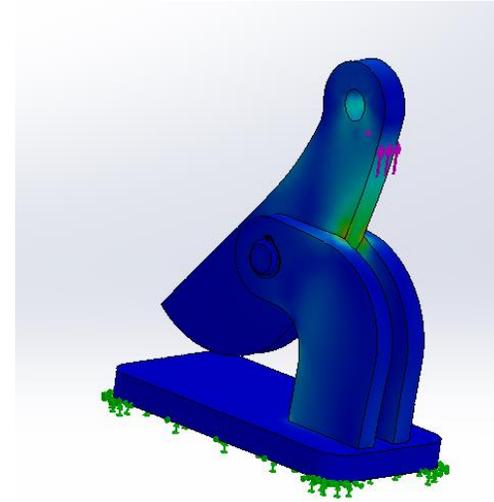

Design

- We design a wide range of products and devices from different fields.
- We ARE ACTIVE IN BRANCHES LIKE:
 - automotive industry
 - industrial equipment
 - agricultural equipment
 - WE also have a project for the energy industry

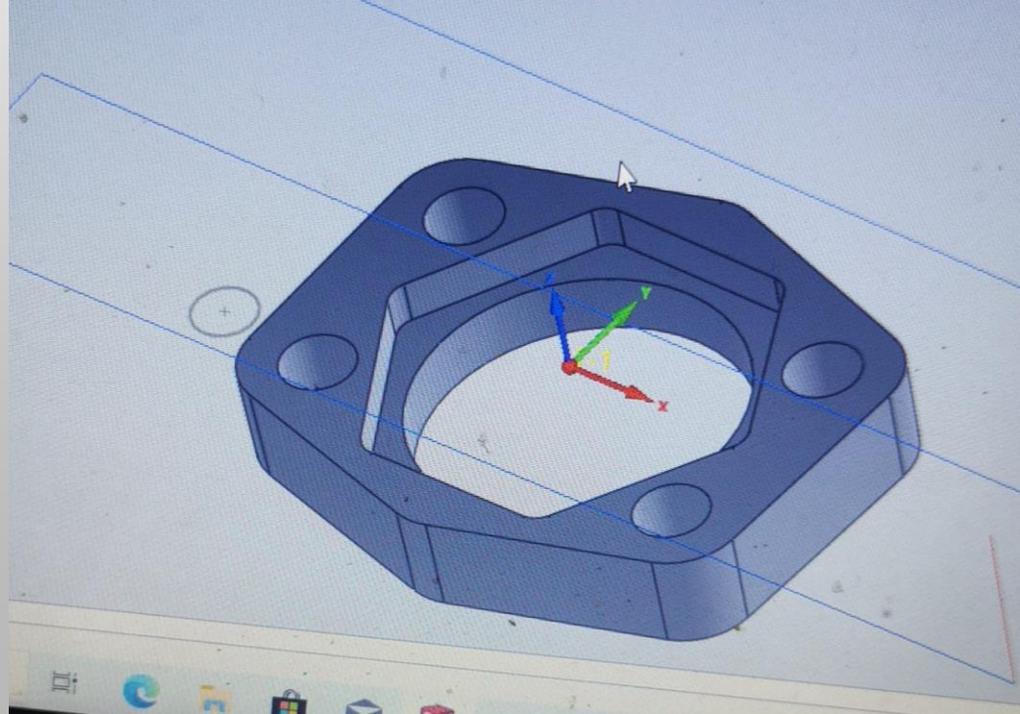

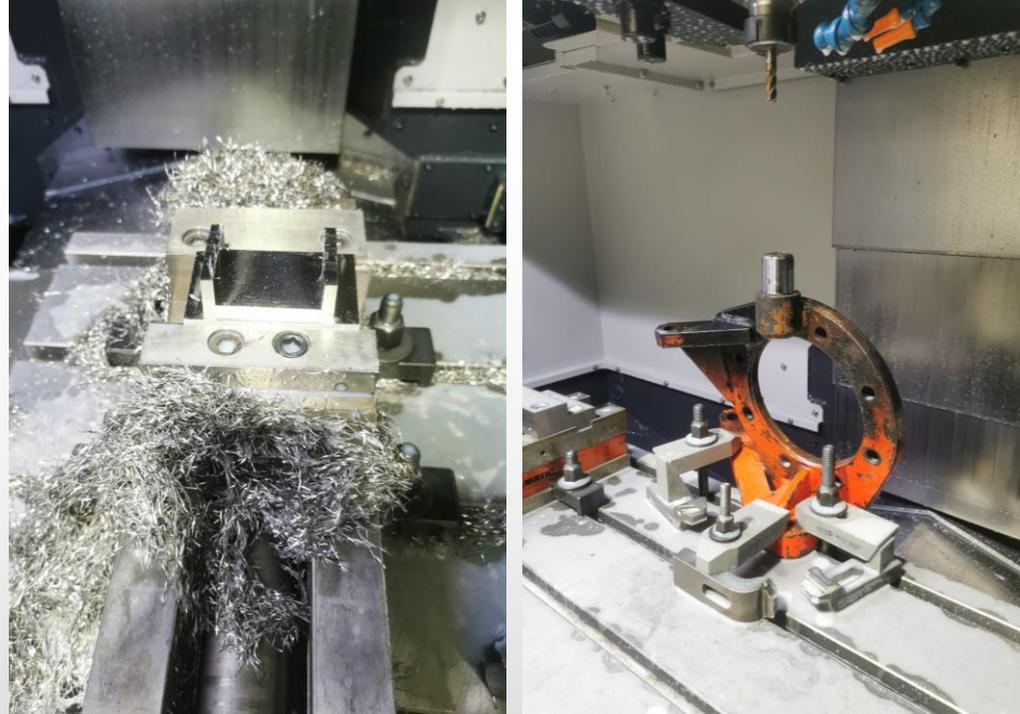

Simulation

- In order TO AVOID THE PARTS BEING REJECTED AFTER MANUFACTURE, RIGHT AFTER DESIGN we simulate the capacity, COMPLIANCE AND CONFORMITY of the devices or subassemblies.

Manufacturing

- EQUIPPED WITH CNC EQUIPMENT, ALL INDIVIDUAL PRODUCTS NEEDED FOR PROJECTS ARE MANUFACTURED AND TESTED BY US.

ASSEMBLY

- IF NEEDED, THE PARTS ARE ASSEMBLED BY US, COMBINING INDIVIDUAL COMPONENTS INTO A FINISHED PRODUCT DURING MANUFACTURING.
- E.G: IN THE PICTURE ARE DEVICES FOR CRIMPING ELECTRICAL CABLES.

CONTROL

- WE OVERSEE, MANAGE AND CONTROL:
 - THE TASKS INVOLVED IN PRODUCING THE PARTS
 - THE RAW MATERIALS NEEDED
 - ENSURING THE PROCESS WAS EXECUTED PROPERLY

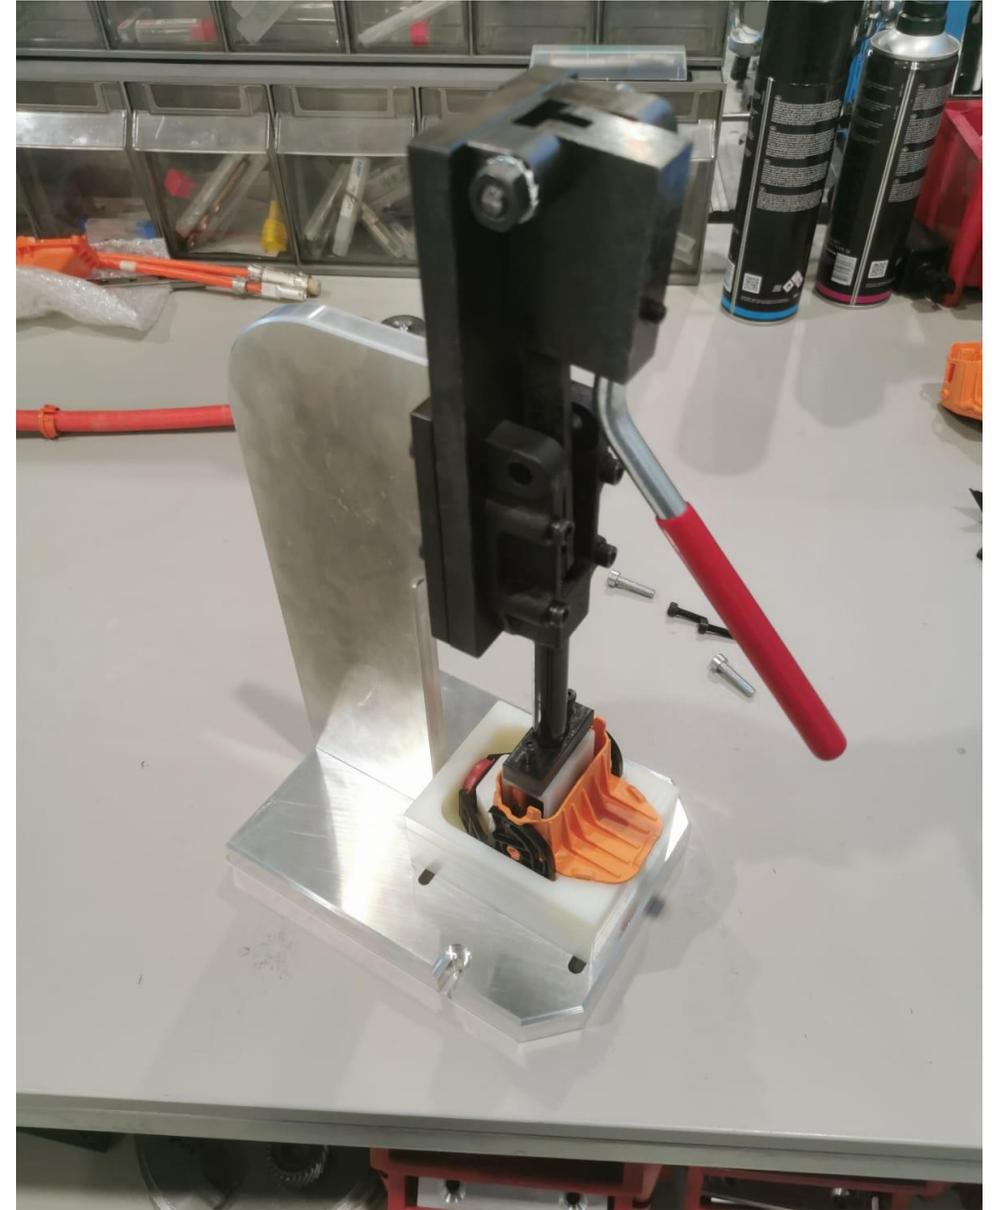

TEST

- FOR EACH PROJECT, THE PROCESS OF CONDUCTING QUALITY CONTROL CHECKS ON THE MANUFACTURED INDIVIDUAL PARTS, AS WELL AS ON ASSEMBLED PRODUCT AS A FINISHED ITEM IS EXECUTED.

D.D. DAJBOC

DELIVERY

- WE ARE ABLE TO TAKE OVER AND ENSURE THE PROCESS OF TRANSPORTING THE PRODUCTS (ASSEMBLED GOODS) FROM OUR LOCATION TO A PREDEFINED LOCATION.
