It operates in the fields of procuring properly, making designs, processing with state-of-the-art machines, machining, surface treatment and assembly with contracted external suppliers.

OUR SERVICES

Laser Cutting

Punch Cut

Guillotine Cutting

Press Brake Bending

Cylinder Twist

Welding

R&D / Design

Press Interconnect Components Applications

Hydropneumatic Interconnect Components
Applications

Stud Welding Applications(Shock Screw)

Metal Coating and Paint Applications

Assembly

PRODUCTS

Vertical Type Closed Rack Cabinet

Wall Type Closed Rack Cabinet

Vertical Type Open Rack Cabinet

Vertical types can be produced from 16U up to 44 U height.
Wall types can be produced from 7 U up to 20 U height.

SECTORS SERVED

Defense Industry
Automotive Sub-Industry
Medical Industry
Electrical-Electronics Industry
Telecommunication - Signalization Industry
Renewable Energy (GPP-HPP-RES)
Projects

APPLICATION EXAMPLES

Military Marine Platform Type
Operator Console

4U PC Rack Case

3U-19" PC Rack Case

Monophase Battery Charger
(Redressor + Maintenance Free
Battery Set)

APPLICATION EXAMPLES

Modular Hydraulic Lift

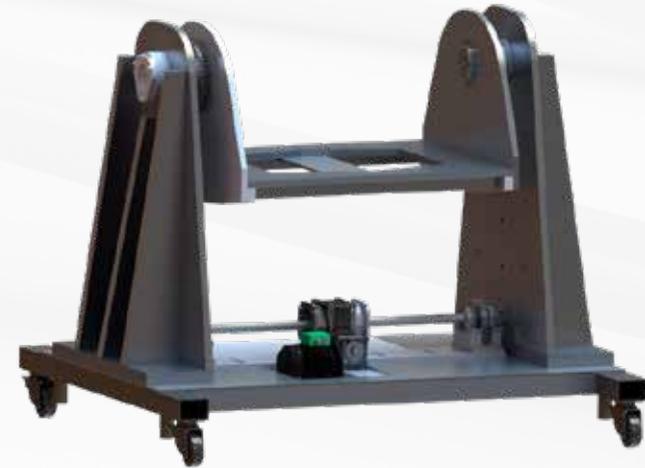

Stewart Platform

APPLICATION EXAMPLES

Towable Precision-Positioned Missile Launcher

Special Test Device for Defense Industry

Precision Positioning Binocular
Control Desk
