ZM Skramet

30+ years' experience

Our company has been operating on the Polish market uninterruptedly since 1989. We have successfully expanded our machining services to other EU countries as well.

Thanks to our experience and constant monitoring of market trends, we are able to meet the requirements and expectations of the most demanding customers.

Our continuously growing machine catalogue allows us to offer a wide range of services and guarantees the highest quality of production.

Our customers are companies in various industries. We also create products and semi-products that are being sold under brands of third party large companies.

Zakład Mechaniczny Skramet
