

// IT'S UP TO US //

Company Description

P&M tools construction is a young company that was founded in 2018 by two mechanical engineers with many year od experience.

The company was founded to offer the market new conceptual solutions, as well as to contribute to the development of the auto and machine industry. In addition, we deal with tool making, modeling and programming.

We offer welding of complex assemblies as well as laser cutting of materials

What we do

- Tool Construction
- Tool modeling with a 3D CAD/CAM program
- Creation of 2D technical documentation
- Making tools and parts on CNC machines
- 3D printing
- Providing conceptual solutions and solving potential problems arising in production
- Welding
- Laser cutting of metal

Companies we cooperate with

AMM
MANUFACTURING

HUTCHINSON[®]
