HIGH VALUE FOR
CUSTOMER

“Be the production choice
for those who share the
big picture of building a
better tomorrow.”

An aerial photograph of a city built on a hillside. The city features a mix of residential houses and taller apartment buildings. The surrounding area is lush with green trees and vegetation. In the foreground, there are some out-of-focus green leaves and a yellow flower. The text 'KATAPULT METAL' is written in orange and 'BREATHING WITH SOCIETY' is written in white, both in a bold, sans-serif font, centered over the top half of the image.

The screenshot shows a computer monitor displaying the SendCutSend website's material selection interface. The interface includes a 'Select Material' dropdown menu with a search bar, and a list of materials with their properties: ALUMINUM (Light, strong and versatile), BRASS (Great for decorative applications), COPPER (Non-magnetic conductivity), STAINLESS STEEL (Durable and corrosion-resistant), STEEL (Easy to fabricate, inexpensive), and TITANIUM (Inexpensively strong and lightweight). Below the monitor, several laser-cut parts are displayed, including a red L-shaped bracket, a black U-shaped bracket, a blue circular ring, a small gear, and a wooden board with two holes.
