

Hyde CNC Services

High precision machining at its finest

Who we are

We are a team of specialists with vast experience in machining for aerospace, defence, prototyping, nuclear, food, electronics and medical industries.

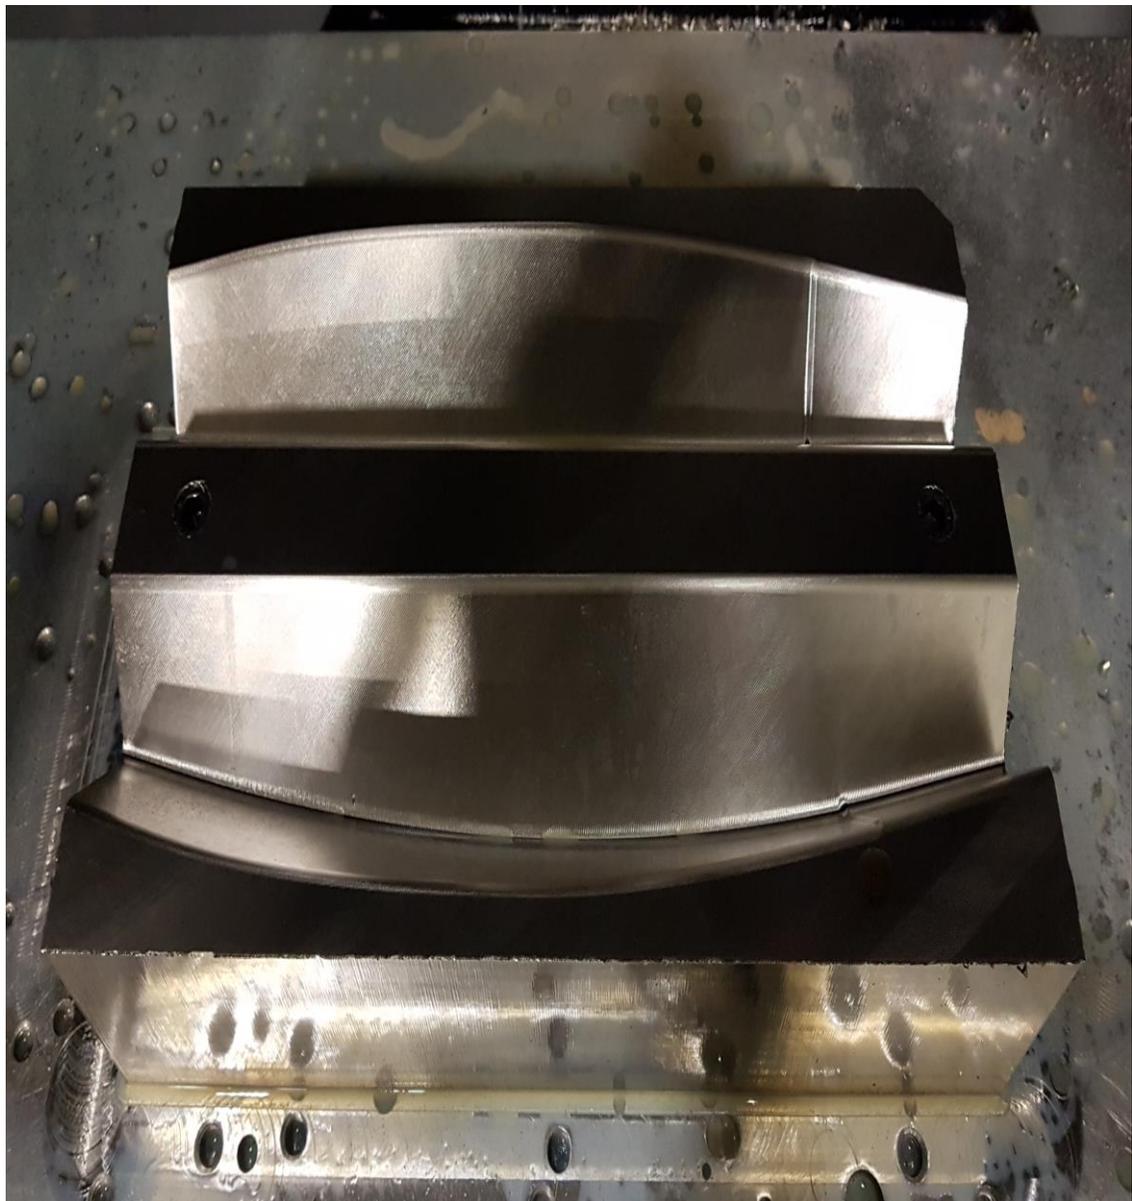

Our pursuit for excellence in precision CNC machining, CAD/CAM led to establish our own company. We aim for every order placed with our company to be meticulously reviewed and processed to written procedures in order to achieve total product conformance.

What we do

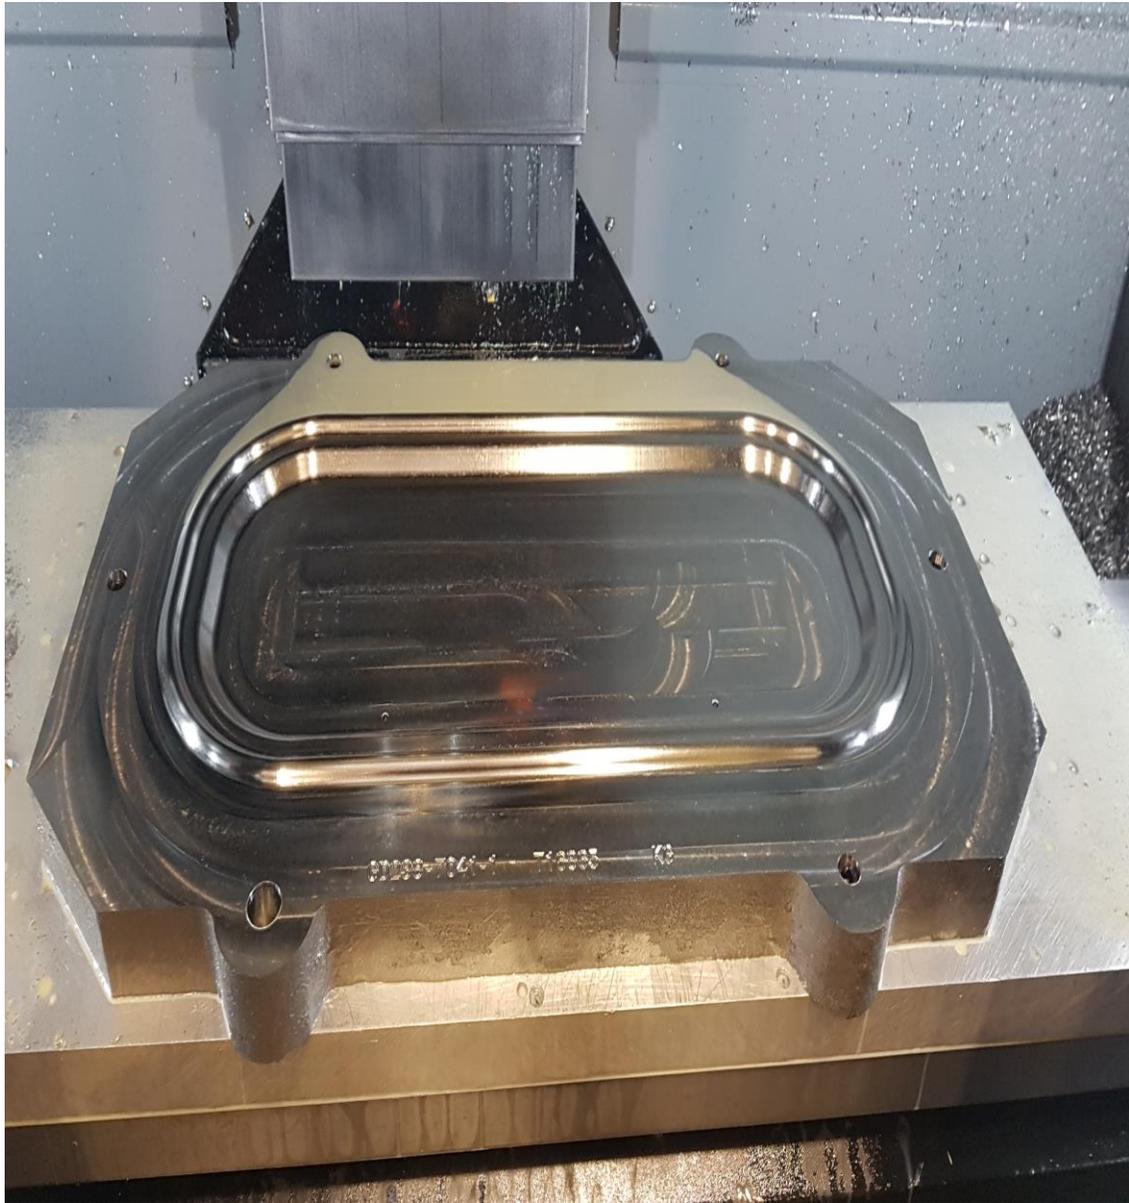

- 3/4/5 CNC Milling
- CAD/CAM programming, design
- Fixture design
- Reverse engineering
- Prototyping
- Engraving, stamping
- Fitting

(All the pictures below are example of work we did ourselves for previous employers)
