ABOUT US

ALFA Machinery Engineering, operating since 2017, stands out with its services in the fields of engineering, manufacturing, and integration. With the extensive knowledge base of its founders, a dedicated technical team, and skilled workforce, the company has rightfully established a strong position in the ever-changing industry. Situated in the Muradiye Evrenos Industrial Zone in Manisa, the company operates within a modern production facility covering an area of 4500 m². With a team of experts including 10 certified welding personnel, 3 machining specialists, 2 mechanical engineers, 3 mechanical technicians, 1 industrial design engineer, 1 welding inspector, and 1 computer engineer, the company provides services.

MACHINE LINE

1 - 2020 Bodor 4KW Enclosed Type Fiber Laser Cutting Machine

1 - 2021 Durma 120 Ton Press Brake

1 - 2023 CRP Welding Robot

1 - 2003 Yaskawa Welding Robot

1 - 2005 Komatsu 3 Ton Forklift

1 - 2012 Komatsu 1.8 Ton Forklift

1 - Size 3 Manual Machinist Milling Machine

1 - 2 m Manual Lathe Machine

6 - 400 A Synergic Pulse Welding Machine

1 - 350 Water-Cooled Band Saw

2 - Circular Saw

2 - Manual Welding Workbench Line

2 - 32mm Column Drill Press

4 - Air Compressor

1 - Quality Control Table Set

1 - Cognex Quality Control Camera

1 - Tig Welding Machine

1 - Magnetic Drill

2 - R&D Workstation (SolidWorks Licensed)
