

**MEMSAN**

**TECHNIC MACHINE  
INDUSTRY TRADE LIMITED COMPANY**

Weld Catalog

Memsan Technic Machine was established on a factory area of 3,500 m<sup>2</sup>, including 2,000 m<sup>2</sup> of indoor space, to provide production activities and engineering solutions in sectors such as machinery, steel construction, automotive, trailers, defense, and rail systems, as well as project design services.

By offering the required quality standards to our customers, we continuously improve and develop our products quality with our enhancement policies; contributing added value by producing innovative solutions in the fields of project, engineering, and manufacturing.

### **Our Mission:**

To offer economical products that meet world standards, open to technological developments, without compromising on quality.

To support universal values by protecting the environment and add value to society.

### **Our Vision:**

To offer economical products that meet world standards, open to technological developments, without compromising on quality.

To support universal values by protecting the environment and add value to society.

### **Our Quality Policy:**

- To ensure customer satisfaction within the framework of laws and to meet customer expectations at the highest level.
- To guarantee continuous and lasting quality of our services and products.
- To value our employees, support their continuous development, and provide a safe and healthy working environment.
- To receive their suggestions and participation in all matters.
- To carry out our services and production with minimum errors, on time, and always in compliance with ISO 9001 standards, constantly improving our quality system.
- To fulfill our commitments without hesitation under all circumstances.

We are capable of manufacturing all types of projects made of aluminum, stainless steels, high-structural steels, and wear-resistant materials, in line with customer requirements and quality standards, with the expertise, knowledge, and capacity of our qualified personnel.

In the machinery and steel construction sector, we produce line transfer systems, conveyor systems, food machinery, and body constructions of stone crushing machines;

In the automotive sector, we manufacture tractor parts, bus body construction components, bracket assemblies, and handles;

For the trailer sector, we manufacture body and chassis parts, ramps, and platforms for vehicle-carrying lowbeds;

For the defense industry, we produce body and chassis parts made of high-strength materials for defense vehicles;

For the rail systems sector, we manufacture all welded components for trams, metros, and freight wagons.

In the sectors where we operate, we also provide our customers with surface preparation and wet painting services with 2 manual sandblasting lines and 4 paint ovens.

**In our company**

- 3 Engineers
- 2 Technicians
- 10 Welding production staff
- 8 Painting staff
- 5 Sandblasting staff
- 2 Shipping staff

In total, there are 30 employees

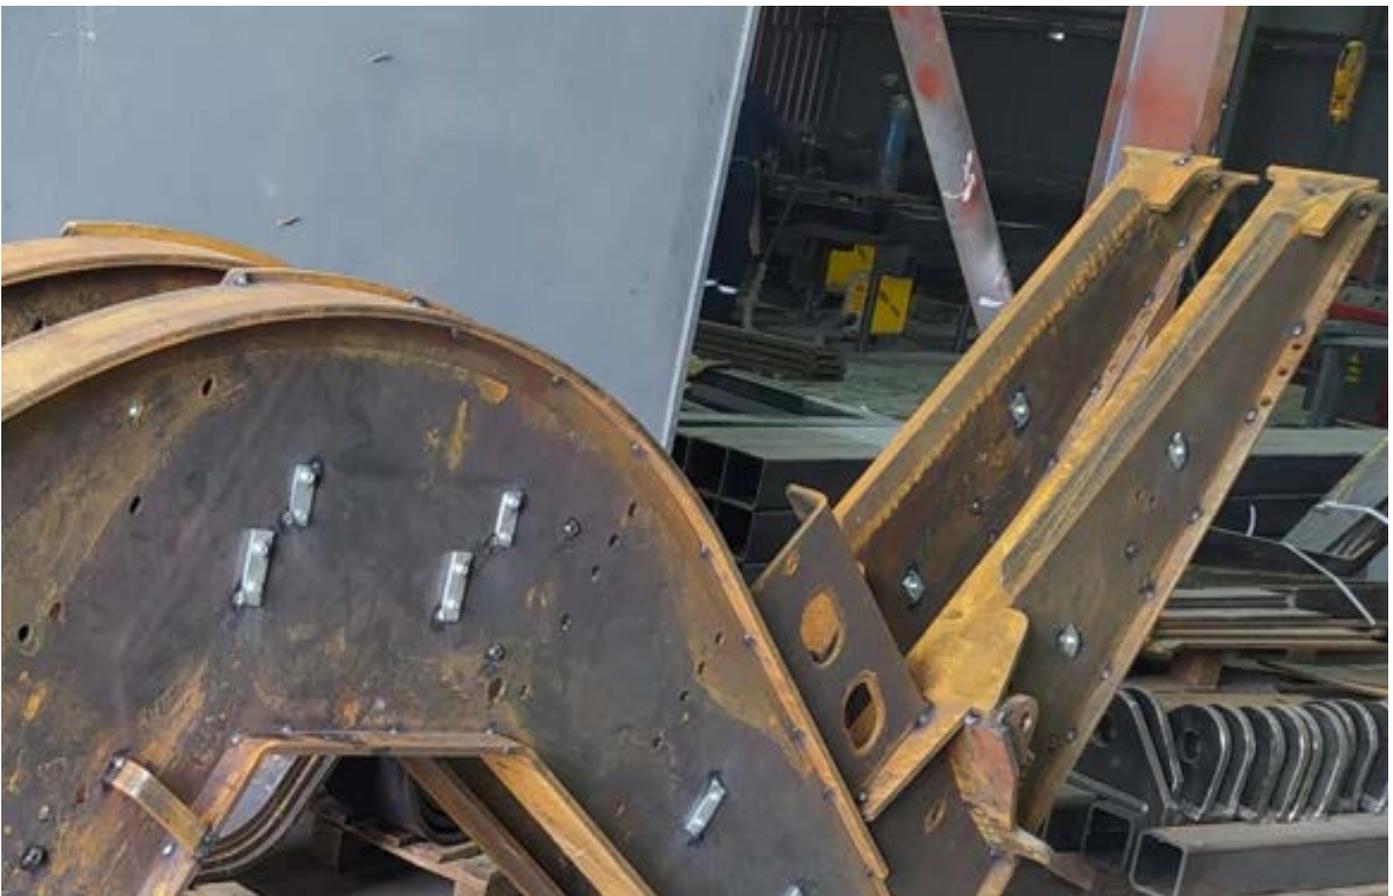

## Trailer Vehicle Carrier Platforms

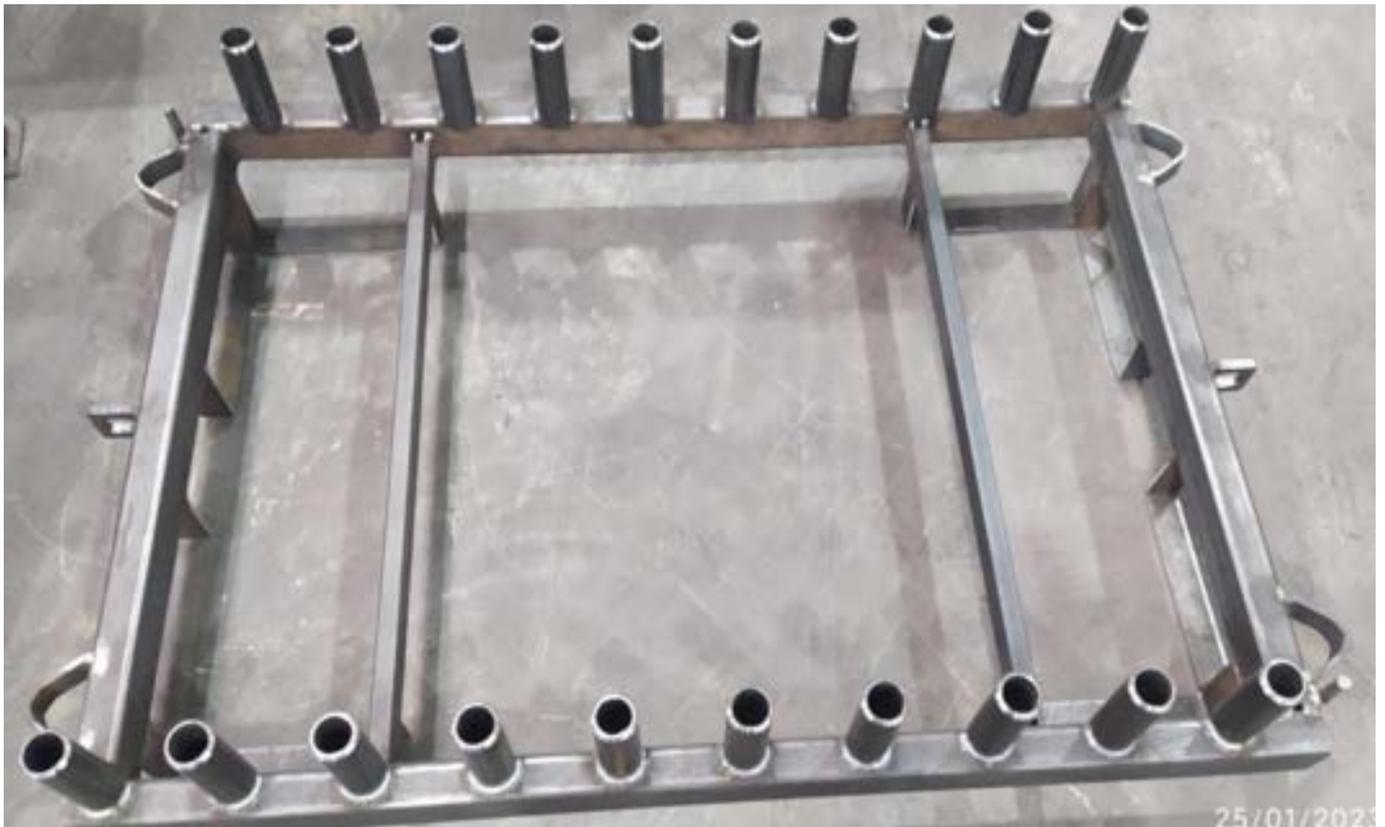

## Tractor Parts

## Regal Manufacturing

## Demountable Container

Rubber Covered Conveyor Roller

## Horizontal Conveyor System

Grid blasting line	6x6x18 m
Glass sphere sandblasting line	5x4x10 m
1. Paint oven	5x3x10 m
2. Paint oven	6x6x18 m
3. Paint oven x2	4x3x7 m

We Paint The Complete Body and All Undersides Of Rail Vehicles

## Wagon Cattle Bucket Part

Wagon Battery Box

Tower Crane Body

Pallet Stacking System Tower
