

FITECO LTD – SUPPLIER CAPABILITY SHEET

Company Overview

Fiteco Ltd. is a Hungary-based precision sheet metal fabrication company specializing in punching, laser cutting, CNC bending, welding and assembly of industrial components and enclosures.

We support OEM customers across Europe with flexible production of prototypes, custom, small and medium series.

Core Manufacturing Capabilities

Sheet Metal Processing

- CNC laser cutting (steel, stainless steel, aluminium, copper)
- CNC punching (max table size: 1500x3000 mm)
- CNC bending (max length: 2500 mm)

Welding & Assembly

- MIG / MAG welding
- TIG (WIG) welding
- Welded subassemblies and mechanical assemblies

Finishing (via certified partners)

- Powder coating
 - Galvanizing
 - Hot-deep galvanizing
 - Nickel plating
-

Technical Capacity

- Max sheet size: 1500 × 3000 mm
 - Max bending length: 2500 mm
 - Material thickness range: standard industrial sheet metals (0,5 – 16 mm)
 - Production type: prototypes → medium series
 - Batch flexibility: high-mix / low-to-medium volume production
-

Industries Served

- Industrial equipment manufacturers
 - Mining Industry
 - Medical devices
 - Electronic sheet metal components
 - Enclosures & cabinet systems
 - Automation components
 - Gaming & vending equipment
 - Self-service terminals & kiosks
 - General mechanical engineering
-

Quality Management

- ISO 9001 certified quality management system
- Incoming / in-process / final inspection
- Full traceability on request
- Dimensional inspection according to customer drawings

 Note: EN 1090 / ISO 3834 not yet implemented

Supply Chain & Logistics

- EU-wide delivery
 - Flexible lead times for small and medium series
 - Production based on customer drawings (2D / 3D CAD)
 - Fast quotation response (typically 24–48h)
-

Documentation Available on Request

- Company presentation (PDF)
 - Machinery list
 - ISO 9001 certificate
 - Quality Policy Statement
 - Sample parts / reference photos
 - RoHs and Reach Declaration of Conformity
-
