

Welding Technology Srls

Schio, 25/10/2018

OBJECT: COMPANY PRESENTATION

We hereby want to submit to you the presentation of our society:

For years under commission of other Italian companies we have done many jobs that could be of interest to you, such as complete construction of:

- Inner e outer collectors, Pipes and protection screens for CARTUCCIA AMMONIA CONVERTER.
- Pressure tanks, double-chamber carbon steel tanks.
- Heat exchangers with tube bundle in stainless steel and various alloys.
- Metallic structures for chemical, petrochemical and nuclear industries.

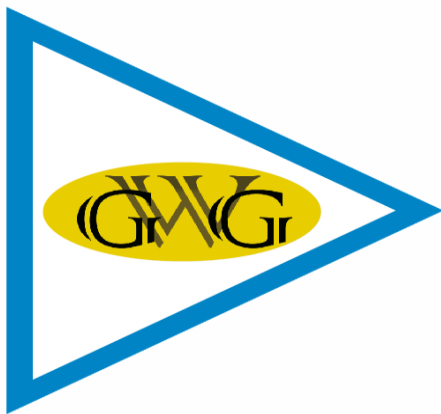

COMPANY:

Passion and experience have allowed us to under take The complete supply of the contract From the birth of the project to the finished product. Every step is followed in detail To get a full customer satisfaction.

The core of the activity concerns the construction of tanks Heat-driven, vacuum chambre Metal structures and equipment for the cosmetic industry IMedical-Pharmaceutical, petrochemical and nuclear.

The company according to customer's requirements Provides complete design and certification equipment

It carries out its activity in a structure of about 1500 sqm with a large court yard area adjacent to the plant, That allows you to face independently and with your own means, Any handling of materials for the loading and unloading of trucks.

Welding Technology Srls

The well-organized production occupies about ten employees, employed in the various processes And, when it is necessary, it is supported by external craftsmen And by structures very close territorially for the finishing of materials

The GWG is able to offer its customers Various types of welding and the highest quality of MIG and TIG welding Thanks also to the use of cutting edge machinery

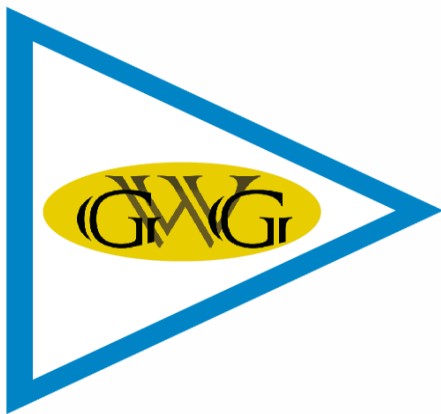

Attrezzature:

- Automatic plasma welding (PAW), manual MIG (GMAW), TIG (GTAW), Electrode (SMAW), Saldatura ad arco con filo animato (FCAW).
- Arc welding with flux cored wire (SAW).
- Rotating tables for automatic welding.
- Rotating Positioners for tanks welding.
- Hydraulic Shears
- Press-fold.
- Calandra.

PRODOTTI/LAVORAZIONI:

The company carries out welding, joint welding, wire welding, TIG welding , plating , brazing, brazing, anti-wear coatings, and special welds such as: carbon steel, alloyed and low alloy steels, austenitic stainless steels, duplex and super duplex stainless steels, nickel and its alloys (Hastelloy - Inconell - Monel - Etc.), titanium gr. 1,2 – 7 – 11, primary aluminum and its alloys, copper and its alloys, etc.

- Pressure tanks, Double chamber tanks, Tanks/Reactors with agitators.
- tube heat exchangers .
- Vacuum chambers and thermal screens.
- Welding overlays.
- Various pipes (manifolds, etc ..)
- Special structures/equipment welded and tested.

Welding Technology Srls

CERTIFICATIONS:

Inside the company there is an area where LP checks are carried out , the collaboration with Mc Control allows us to carry out non-destructive checks and at the customer's request interventions are carried out for tests on vacuum equipment/constructions with all-round equipment. 'avant-garde.

During the order phase, certificates are also provided upon customer request.

CONTACTS:

Registered office: Via dei Quartieri, 45 – 36016 Thiene (VI)

Operational headquarters: Via Campania, 8 - 36015 Schio (VI)

Tel. 0445-628129

VAT number and CF: 04153850245 REA: VI-383334

e-mail: info@gwgwelding.it

administration: amministrazione@gwgwelding.it

In the hope of having done something pleasant, and with the hope that our company may be of interest to you , we send our warmest regards.
