# ABOUT US

We continue to be the solution partner of our customers with our understanding of production based on quality and trust, with our laser cutting machines, Plasma cutting machines and press brake bending and welded assembly lines, both by welding and fasteners, rivets. etc., we shape metal materials of all quality and offer you turnkey solutions with coating and painting services.

## MISSION:

To serve our customers with high quality, reasonable cost and timely delivery by making use of today's technologies. To assist the training and career development of ZEEN employees while doing all these.

## VISION:

To be among the best brands with its reliable, customer-oriented and quality service understanding.

# OUR SERVICES

---

## *Sheet Metal*

### *CNC Laser Cutting*

We continue to serve our customers with high quality and speed by constantly improving production technologies.

Machine : TRUMPF Carbon Lasers.4 Device and 1 Device NUKON Fiber Lasers  
X axis : 3000 mm to 6.000 mm  
Y axis : 1500 mm. to 2.000 mm  
Power : 3 Kw. To to 6 Kw

# OUR SERVICES

---

## *Sheet Metal*

### *CNC Press Brake*

We continue to serve our customers with high quality and speed by constantly improving production technologies.

Machine : DURMA, ERMAKSAN, HİLALSAN  
X Axis : 3000 mm to 6.000 mm  
Capacity : 240 ton to 320 ton

# OUR SERVICES

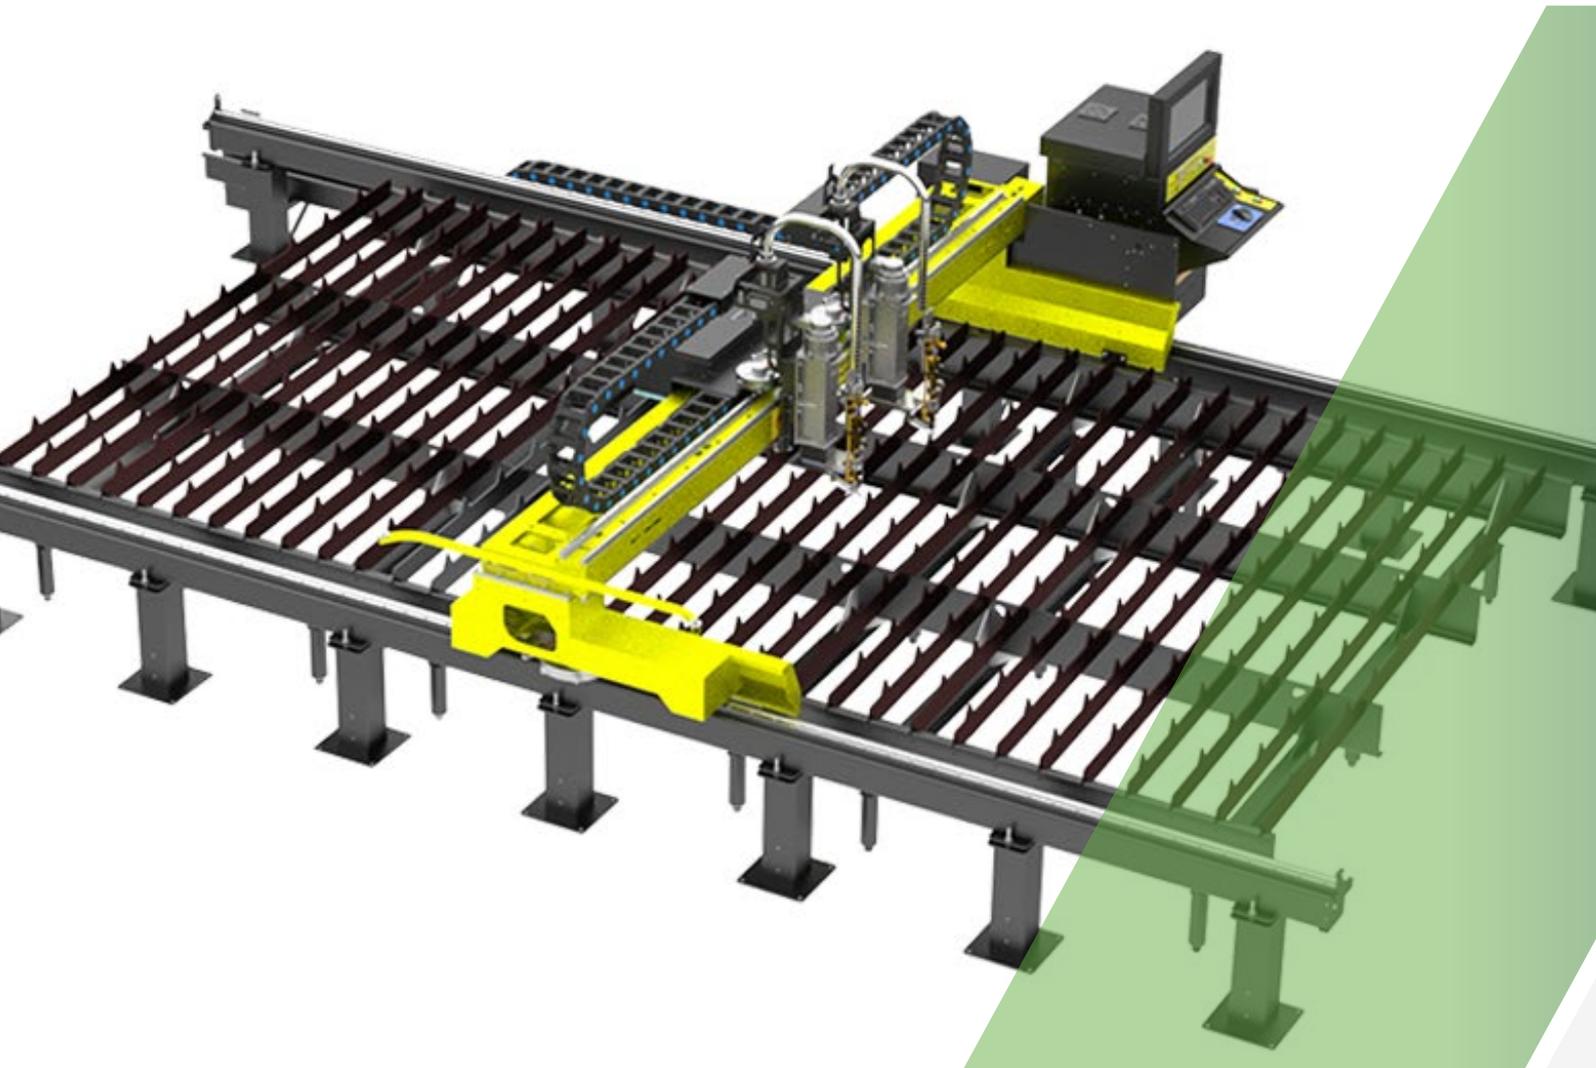

---

## *Sheet Metal*

### *CNC Plasma Cutting*

We continue to serve our customers with high quality and speed by constantly improving production technologies.

Machine : AJAN 260A OXY  
Cut Width : 2.500 mm  
Cut Length : 12 m

# OUR SERVICES

---

## *Welding Workshop*

### *MIG/MAG Welding*

We carry out the special projects of our customers with our experienced welder staff and our MIG/MAG Gas metal arc welding machines.
