

CORPORATE PROMOTIONAL PRESENTATION

About Us

Kayabaşı Machine, started its journey with only one CNC lathe in Denizli 3rd Industrial Zone in 2017. Today, it serves its domestic international customers by producing with machines consisting of CNC Lathes and CNC Vertical Machining Centers in a closed area of 600 m².

It offers spare parts production services at international standards to a wide range of sectors such as automotive, textile, textile recycling and cable industries.

With its quality control laboratory established to achieve the goal of producing high-standard products for both national and international brands, it is confidently advancing towards this objective.
