Dear partner,

Thank you for the opportunity to send you a brief presentation of our company, and for the chance to have a future collaboration with you.

We are Artz Elektronik and we offer complete services, of the highest quality in the field of printed circuits, starting from design, verification, digitization, everything related to pre-production, up to the execution of printed wiring. We always guarantee quality, therefore, a first important aspect before the actual manufacturing of PCBs is pre-production advice, and we support our customers with rich experience in the process of data preparation for manufacturing. We specialize in pre-production and can assure you that every PCB produced has gone through rigorous testing and evaluation stages, eliminating any potential problems before delivery.

We understand the needs and concerns of our customers, that's why we want to assure you that we are with you regarding any questions related to future projects and we will always ensure the quality of the products and services we offer.

In this presentation you will see brief information about our company, the products and services offered by us.

We look forward to hearing from you and starting a prosperous and trusting collaboration.

With sincerity,

Ardelean Viorica
General Manager

About us

With a presence of over 27 years in the German market and in Romania since 2004, we have become a reference in the printed circuit industry, and we are proud to offer comprehensive services regarding printed circuits.

We are committed to providing high-quality services and paying attention to every detail of our projects. We are recognized for our professionalism and seriousness, the high quality level of the products and services offered, as well as the prompt response to inquiries and the delivery of ordered products and services.

With every project we undertake, we strive to maintain our position as a reference name among the top companies in the printed circuit market in Romania. Customer care and our commitment to excellence are the principles that guide us every day.

With Artz Elektronik PCB, you can trust that your project will be handled by experienced professionals, and the delivered products will meet the highest quality standards.

Services and expertise:

- **Design and Verification:** We offer comprehensive PCB design and verification services. Our team of specialists helps you develop optimal technical solutions for your specific needs.
- **Digitization:** We stay up-to-date with the latest technologies in digitizing documentation and processes to ensure that your PCBs and data are managed efficiently and accurately.
- **Pre-production:** Our experience in PCB verification is one of our main advantages. We ensure that every aspect is considered before the actual fabrication of printed circuits.
- **Highest Quality PCB Execution:** The quality of the PCBs we provide is recognized and appreciated in the Romanian printed circuit market. We adhere to IPC 600 and IEC 326 standards, and our specialists are certified in accordance with the IPC-A-610 standard.

Quality Commitment:

With pride, we guarantee excellent quality! Our qualified staff, **UL certification**, and **ISO certification** are evidence of our commitment to maintaining high-quality standards to meet the expectations of our customers. No matter how complex or simple your projects are, we are here to help you realize them. With an experienced team in data preparation for manufacturing, we guarantee efficiency and precision in every project. This allows us to produce PCBs ranging from the simplest to the most complex, **with up to 28 layers**.

Over time, we have had the opportunity to produce printed circuits in all fields of activity, collaborating with both local firms and multinational companies. That is why we are proud to develop customized PCB solutions that perfectly meet your needs and offer you materials of the highest quality. From **FR-4, Aluminum, Teflon, Copper core, Polyamide**, and **Rogers** to **Flexible PCBs** and **Rigid-Flex PCBs**, we have the expertise and resources to use various specialized materials according to your requirements.

Competitiveness, trust, and promptness:

Over time, we have learned that our success is based on solid fundamental principles: competitiveness, trust, and promptness.

- **Competitiveness:** We are determined to be competitive in our market. We commit to maintaining a high standard of services comparable to the best practices in the industry.
- **Trust:** The trust of our customers is our priority. We strive to build and maintain strong and trustworthy relationships with all our business partners.
- **Promptness:** Time is essential in our industry. We commit to being prompt in our production and delivery processes, ensuring that the needs of our customers are met on time.

Furthermore, we take on social and environmental responsibility, committing to comply with all legal requirements, minimize our impact on the environment, and actively contribute to our community. Through this policy, we commit to providing high-quality services, being a trusted partner, and adhering to the highest standards of quality and responsibility. Our company relies on these values to create a bright future for the organization and all our partners.

Commitment to Continuous Improvement:

We are determined to constantly improve. We listen to customer feedback and regularly assess our performance to identify opportunities for growth and optimization.

In conclusion, thank you for taking the time to read this brief presentation, and we look forward to discussing in more detail the possibilities for collaboration and assisting you in advancing your projects and plans.
