

EIDOS  **S** 
ULTIMATE MACHINING CHALLENGE

Matecam 
aerospace components

EIDOS22 SRL AND MATECAM SRL

Two companies, one group, same passion

EIDOS22 SRL

Founded in 1986
Renewal in 1996 and 2016
20 people
7 axis turning
5 axis milling
CAD CAM
Laser marking
Special processes
EN 9100 certification
Aerospace, aeronautics
Formula 1, medical
America's Cup

MATECAM SRL

Founded in 2012
5 people
7 axis turning
5 axis milling
CAD CAM
Laser marking
Special processes
EN 9100 certification
Aeronautics, automotive
Special parts, special screws
Titanium and other metal alloys

35 YEARS OF ACTIVITY

EIDOS²²
ULTIMATE MACHINING CHALLENGE

TOTAL ANNUAL TURNOVER: 3 MLN

SECOND GENERATION

CERTIFICATION EN 9100

Tailor made solutions
Special parts
Prototypes
Small and medium series
Engineering

A dark, atmospheric image of a rocket launch with a plume of fire and smoke against a starry night sky.

AEROSPACE

A close-up, detailed view of a large jet engine turbine with multiple blades and a central hub.

AERONAUTICS

A high-speed action shot of a motorcycle racer leaning into a turn on a track.

MOTORSPORT

A close-up of a Formula 1 racing wheel with a blurred background suggesting motion.

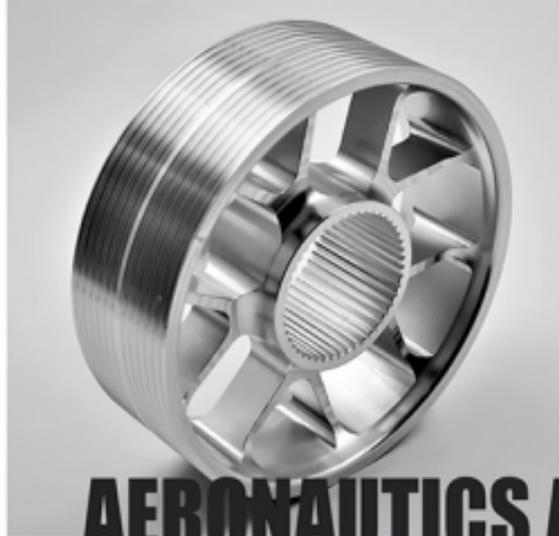

FORMULA1

A close-up of a person wearing a white surgical mask and cap, looking down.

MEDICAL

A dramatic seascape with a large, dark, angular structure, possibly a ship's hull, emerging from the water.

NAUTICAL

AERONAUTICS AND AEROSPACE

We are highly specialized in the production of small and medium batches of **hydraulic fittings**, **aerospace components** and other very complex parts in **titanium**, **aluminium**, various kinds of **steel** and other materials.

FORMULA 1 AND MOTORSPORT

We work for various Formula 1 Teams supplying very complex parts like housing, rockers, brackets, and also special screws and nuts. Titanium, aluminium and steel are always the biggest parts of our work, but we also work in Inconel, and various kinds of special alloys with treatments and special processes.

NAUTICAL AND MEDICAL

Nautical and medical are two significant sectors for us. Precision is always the distinctive element of every process, whether it is bearings, screws or other more or less complex details. For medical we are specialized in various components for surgery and for nautical we work for America's cup but also other companies.
