LARGE-FORMAT

INDUSTRIAL

3D PRINTING

NCAGE Code: 9BT1H

Welcome to the Omni3D World

OMNI3D

- ◆ Omni3D is the leading European manufacturer of large-format industrial 3D printers.
- ◆ With 10+ years of experience in industrial applications, we offer innovative solutions and comprehensive support for businesses across diverse industries.
- ◆ Our industrial large-format 3D printers unlock new possibilities for production, and tool creation in industries such as Automotive, Defense, Aerospace, and Maintenance, among many others.

Why Choose Omni3D?

- ◆ **Experienced Team:** A team of passionate specialists with 10+ years of industry experience and expertise in 3D printing.
- ◆ **Award-Winning Technology:** Our printers boast award-winning and patented solutions, ensuring high-quality and precise printing.
- ◆ **Constant Innovation:** We continuously develop and expand our offerings with new 3D printer models and materials.
- ◆ **European R&D and Production:** Guarantee of high quality and safety standards.

◆ Facts:

- ◆ **Mission:** Unlock the future of digital production. Empower businesses with cutting-edge 3D printing technology for unstoppable efficiency and innovation.

Our Industrial 3D Printers

OMNI3D

COMING SOON

OMNI PRO HT

Strong parts resistant to extreme temperatures or chemical agents, with exacting industry certifications

OMNI PRO

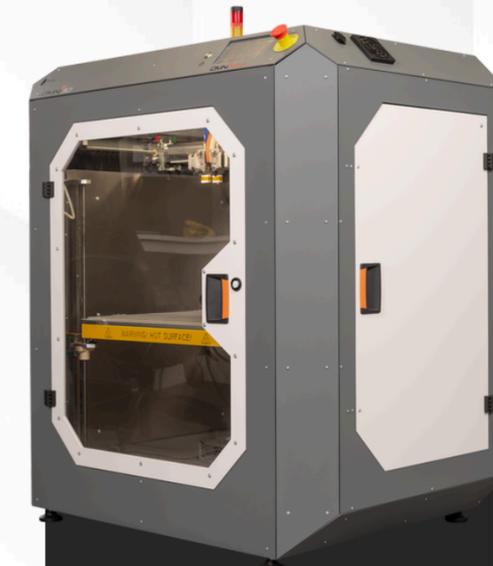

Strong, high-stress, HT, chemically resistant parts for a wide range of industries.

OMNI TECH

Workhorse with an excellent output in the widest range of engineering materials.

OMNI NOVA

Workhorse for companies with restricted connectivity protocols.

OMNI LITE

Entry-level industrial machine for big 3D printed parts.
