

The background features a light gray color with decorative elements. In the top-left corner, there is a large, faint gear mechanism. In the top-right corner, there are circuit-like lines with small dots. In the bottom-right corner, there are more circuit lines and a gear. The text 'DVSM' is prominently displayed in a black box in the upper right area.

DVSM

Welcome to DVSM

Introducing our services and solutions

ABOUT US

DVSM is a CNC manufacturing company founded in 2023 by two seasoned engineers with over a decade of experience in the field.

Located in Riga, Latvia, our company is dedicated to providing high precision and efficiency machining solutions customized to meet our client needs across various industries.

Despite being relatively young company, we have quickly established a reputation for reliability and trust among our clients.

OUR SERVICES

Turning Capabilities

Turning operations for components up to 450mm in diameter and 850mm in length

Milling Capabilities

Milling operations with a range of 762mm (X-axis), 406mm (Y-axis) and 608mm (Z-axis), and 4th axis support

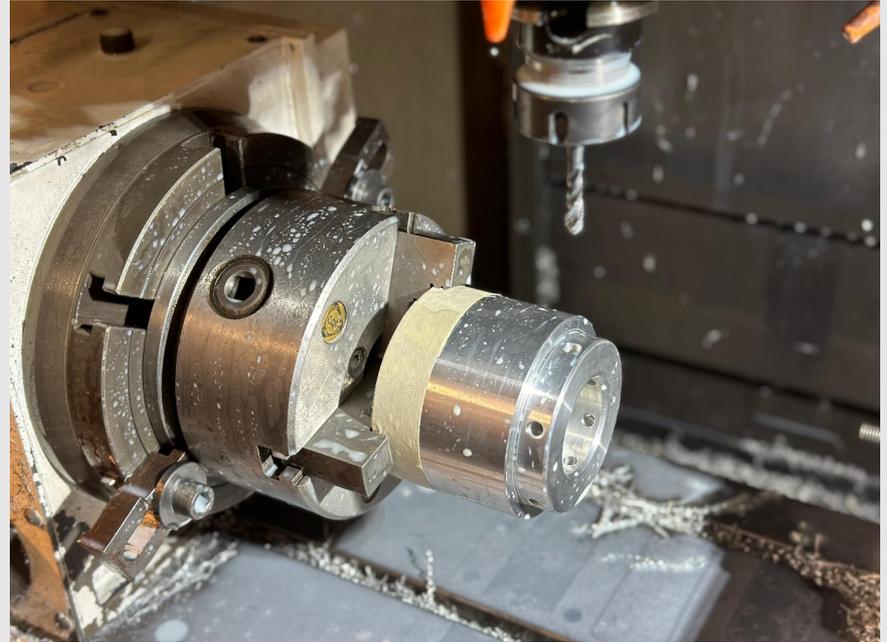

OUR SERVICES

Material Expertise

We have extensive experience in machining a wide variety of metals, including but not limited to:

- Aluminium
- Stainless Steel
- Brass
- Copper
- Other Specialty Alloys

OUR MANUFACTURING FACILITY

270m2, Located in Riga.

- 2 Lathes
- 2 Milling machines
- Band saw
- Gantry crane

OUR SERVICES

Measurement and Quality Control

Dimensional Control

We ensure that all part dimensions are controlled according to client drawings using high-precision micrometers and other calibrated measurement tools.

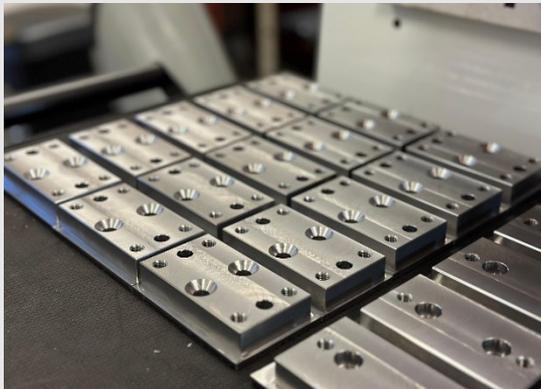

Measurement Protocols

Detailed measurement protocols are prepared for every part we manufacture, ensuring consistency and adherence to specifications.

OUR SERVICES

MARKET PRESENCE

Current Presence

- France
- Germany
- Italy
- Poland
- Denmark
- Finland

Expansion Plans

Actively pursuing expansion opportunities in neighboring European regions.

FUTURE PLANS

ISO 9001 Certification

Committing to achieving ISO 9001 certification to ensure quality management systems and enhance credibility.

Dedicated Metrology Department

Establishing a dedicated metrology department to ensure precision and accuracy in manufacturing processes

Expansion of Turning and Milling Capabilities

Investing in new CNC machines to expand turning and milling capabilities, enabling us to meet growing demand and offer enhanced services.
