**Architectural & Interior Metalwork**

Custom metal fabrication for fit-out and architectural projects

# WHO WE ARE

Kovo-Praha is a family-run metalwork shop based in Prague

We specialize in custom metal components for architectural and interior fit-out projects, working closely with architects, contractors, and design teams.

Our focus is precision, reliability, and clean execution - from single bespoke elements to complex multi-part installations

# WHAT WE DELIVER

## **Architectural metalwork**

Railings, staircases and structural frames, including visible and load-bearing elements integrated into architectural concepts.

## **Interior metal components**

Custom furniture frames, shelving systems and integrated metal details for retail and residential interiors, where precision and clean lines matter.

## **Project-minded delivery**

We support projects through prototyping and technical coordination, working with trusted partners for coatings, CNC machining, glass and wood.

# HOW WE WORK

## **Input & Coordination**

Drawings, concepts, sketches - we adapt to your workflow

## **Technical preparation**

Shop drawings, details, tolerances, material selection

## **Fabrication**

In-house welding, grinding, fitting

## **Finishing & Protection**

Powder coating, galvanizing and other surface treatments with trusted partners

## **Delivery & Installation**

Clear timelines, site coordination, clean handover

*We merge traditional craftsmanship with modern project standards.*

elements and installation  
coordination

**Location:** Various locations  
across Czech Republic &  
Slovakia

# SELECTED REFERENCE

**Project:** Private residential interior

**Scope:** Custom metal elements for residential interior, including furniture frames and integrated metal details

**Location:** Prague, Czech Republic

# A reliable metalwork partner for architectural and interior projects

We work alongside architects, designers and contractors to deliver metalwork that fits the project - technically, visually and operationally.

Clear coordination, precise execution and respect for detail are standard parts of how we work.

If you see a potential fit, let's discuss your project scope.
