About Us

Akyavuz Industry was established in 1996 by Şeremet Özođlu in Kocaeli İzmit Small Industrial Site under the name "Yavuz Makina." Since 2014, it has been continuing its activities under the name Akyavuz Industry Machine Mold Commitment Industry and Trade Limited Company. By prioritizing the value we add to the competitive power of our customers, we produce high quality at an affordable price and ensure customer satisfaction.

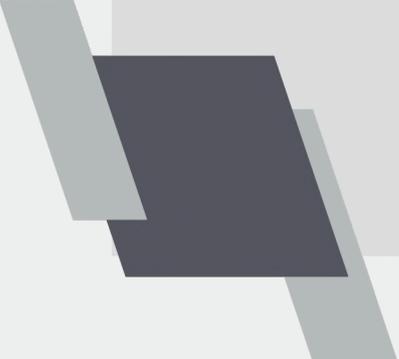

Our journey, which started in an area of 50 square meters, continues today in an area of 500 square meters closed and 2000 square meters open. We have inscribed our name in the sector with golden letters with the great success we have achieved in the Iron and Steel Industry. We provide services in the sector by using the latest technology and strictly adhering to regulations and standards. With our understanding of quality production, we aim to be a continuously preferred company.

Mission

- **Innovative Solutions:** By following the latest technological developments in the sector, we offer innovative and creative solutions.
 - **Excellence:** By aiming for excellence in every project, we achieve the highest quality standards.
 - **Customer Focus:** Understanding the needs of our customers and producing solutions that exceed their expectations.

 - **Sustainability:** Contributing to the future with environmentally friendly and sustainable production processes.
 - **Cost-Performance:** Maximizing customer satisfaction by offering the highest quality products and services at the most affordable prices.
- 

Vision

- **To Lead Innovation:** As a pioneer of innovation in the sector, we offer our customers high-quality and reliable solutions equipped with the latest technologies.
 - **Global Recognition:** To be a globally recognized and preferred company.
 - **Leadership:** Always staying one step ahead to strengthen our leadership in the sector.
 - **Customer Satisfaction:** Providing services that exceed customer expectations.
 - **Sustainable Growth:** Achieving lasting success with sustainable growth.
-

Machine Installation, Maintenance & Revision

The Makino MC65 CNC horizontal machining center, for which we revised the engine and control panel with the Turkish-made HSC system, was installed on-site in Denizli and personnel training was provided.

For more information and details, please visit our website:
www.akyavuzendustri.com

Machine Installation, Maintenance & Revision

Our ZMM MC032 CNC 5-axis machine, which we have completely revised with SZGH motor and control panel, has been working without any problems for 3 years.

For more information and details, please visit our website:
www.akyavuzendustri.com

Machine Installation, Maintenance & Revision

We have completely overhauled our Stanko Bridge type CNC with a GSK motor and control panel and it has been working flawlessly for 5 years.

For more information and details, please visit our website:
www.akyavuzendustri.com

Machine Installation, Maintenance & Revision

Our Makino MC65 CNC horizontal machining center was sold to our customer after a full overhaul and all tests were carried out with the Turkish-made HSC brand system.

For more information and details, please visit our website:
www.akyavuzendustri.com

Machine Installation, Maintenance & Revision

Our Hitachi Seiki HG500II CNC horizontal machining machine has been fully revised with FANUC motor and control panel and is ready for use and sale.
