# Nuts made in Gütersloh

With us, you get your nuts exactly as you need them:

- From **forming** and **threading** to **sorting** and **packaging**, our nuts are individually finished on site in our own factory.
- Apart from our standard parts, we also offer you **special and customised solutions** and tailor our services to your needs.
- The raw materials for our products are imported from all over the world – you benefit from high product availability, stable supply chains, and the constant traceability of goods.

# Our know-how for you

- Our experts and engineers will be happy to **advise** you personally and work with you to **optimise** the entire product cycle – from product development to the production of prototypes and technical testing options through to launch.
- This enables you to **increase efficiency and make savings**.

**Benefit from over 100 years of manufacturing experience and our expertise in all aspects of nuts!**

**We're ready  
to go nuts  
for your project!**
