

Votre partenaire en
construction métallique!

Who are we?

About us

METAL PRECISION is a Tunisian company based in Sousse and part of the LADHARI Group.

Founded in 2018, it specializes in the manufacturing of various metal structures.

The significant industrial development has led to the emergence of quality as a crucial factor in all competitive strategies. Quality enables a company to ensure profitability and strengthen its position in the market. That is why METAL PRECISION has built a team of skilled and specialized professionals to ensure smooth operations.

METAL PRECISION has successfully adapted to market demands and is now a key player in the metal industry in Tunisia.

Precision

Without precision, quality does not exist in the field of metal processing. That's why **METAL PRECISION** applies it to every project without exception.

Expertise

As a professional company, **METAL PRECISION** is committed to carefully selecting its employees, who must always form a cohesive, dynamic, and professional team in order to achieve success in every project.

METAL PRECISION, your partner in old-timers!

Satisfaction

METAL PRECISION sets customer satisfaction as its primary and ultimate goal, even before a project begins. Because your satisfaction writes our story!

Development

In our field, continuous development is a strong indicator of success. **METAL PRECISION** consistently invests in the advancement of its equipment as well as its teams of experts.
