

# METAL PRECISION

*Your Expert Partner in Custom Metal Solutions for the Automotive Sector !*

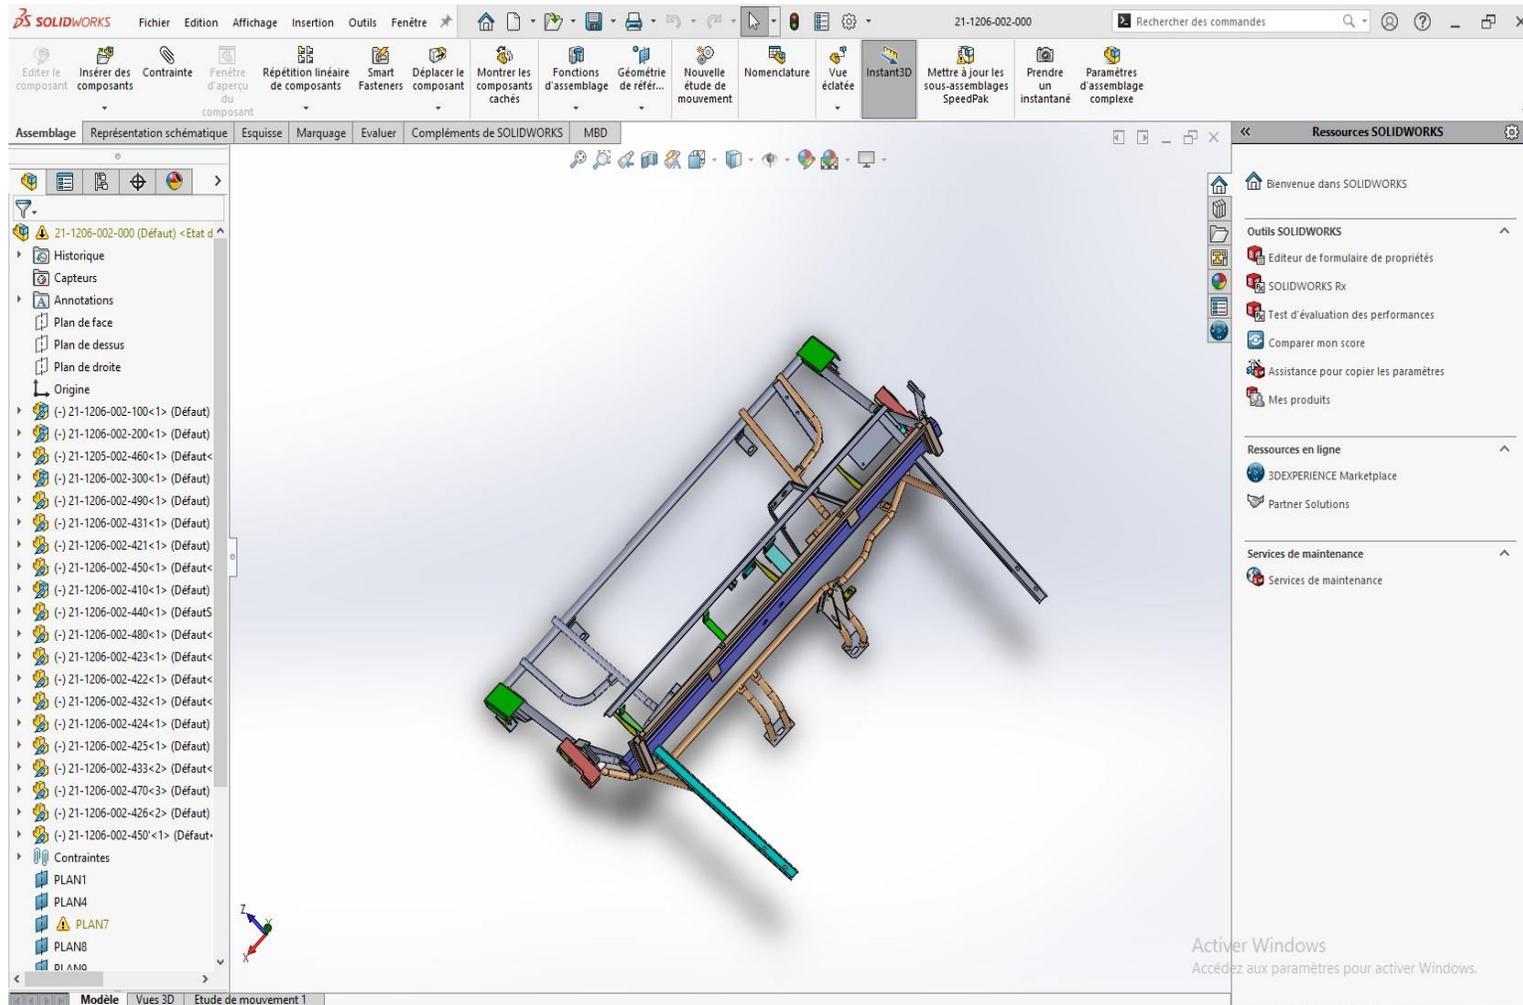

# 1. Company Overview

- Founded in 2018, Sousse, Tunisia
- Member of Group Ladhari
- Specializes in metal construction and sheet/tube transformations
- Focused on components for vintage vehicles and two-wheelers
- Serves international markets
- About 30 employees

## 2. Core Capabilities

- Engineering & Design
- Sheet Metal working
- Assembly & Welding

# a. Engineering & Design

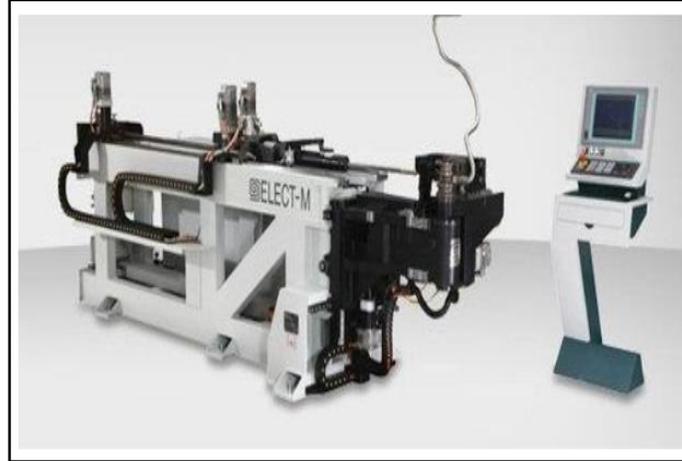

- Needs analysis & technical specifications
- Budget, scheduling & regulatory constraints
- CAD, 3D modeling, structural simulation
- Rigorous quality control integrated throughout the process

## b. Sheet Metal working

TRUMPF Trulaser 3040, 4000 Watts

BLM ELECT M 40

AMADA HFB 8025

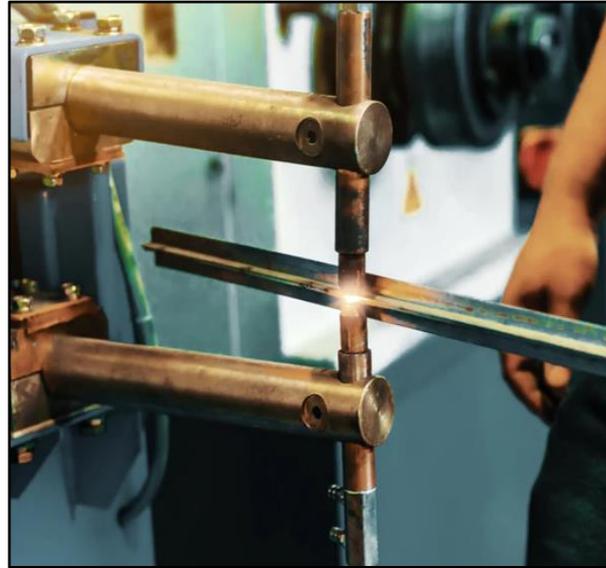

COFMO – Type : KI-2130

- The process of cutting, bending, punching, and shaping metal sheets into desired parts.
- Typical operations:
  - Laser cutting
  - Punching
  - Bending
  - Rolling
  - Forming
  - ...
- **Purpose:** To shape flat sheet or tube into specific components.

## c. Assembly & Welding

Welding

Spot Welding

- The process of joining two or more metal parts together to form a final product or sub-assembly.
- Typical operations:
  - TIG, and MIG welding
  - Spot welding
  - Riveting
  - Mechanical fastening
- **Purpose:** To combine parts to build a functional structure or complete product.

# 3. Product Portfolio and Surface finishing

- **Structural metal parts**
  - Mezzanines, cabinets, shelving, stairs, containers, carts, safes...
- **Bicycle frames and forks**
- **Classic car body parts** (2CV, Mini Moke, Méhari, Citroën DS)
  - 100+ metal parts: chassis, seat frames, bumpers, supports
- **Custom brackets and welded assemblies**
- **Surface finishing** : Metal Precision subcontracts the surface treatment of its products, such as galvanizing, epoxy coating, zinc plating, and conventional painting.

*For a detailed overview of our products, please visit our website at:*

## 4. Sectors Served

- Automotive (vintage & light vehicle components)
- Urban mobility and e-bikes
- Furniture and architecture
- Industrial machinery and equipment

# 5. Quality & Certifications

- ISO 9001 certified quality management system expected by January 2026
- Full material traceability from raw material to finished products
- 100% Incoming, in process and final inspection
- In-house jig and fixture design
- Continuous quality improvement
- Training programs for quality awareness at all levels
- Non-conformance tracking and root cause analysis
- Supplier quality audits and monitoring

## 6. Plans for automotive market:

- Enhancing welding controls (WPS/WPQR) for consistent quality
- Targeting IATF 16949 certification by 2026
- Production capability from medium to large series
- Dedicated team for automotive customer requirements
- Development of FMEA and control plans for critical components

# 7. Why work with us

- End-to-end expertise: from engineering to finishing
- Commitment to quality through ISO 9001 system and full traceability
- Competitive pricing from Tunisia
- Experience with EU clients (France, Italy, Germany)
- Strong technical know-how and bilingual staff

# 8. How We Manage Your Project

## YOUR PROJECT IN 5 STEPS

# 9. Locations & Contacts

- **Address:** Zone Industrielle, Sidi Abdelhamid, Sousse 4061, Tunisia

- **Contacts :**

- **Sales:**

- ☎ +216 98 754 053

- ✉ [commercial@metalprecision.com.tn](mailto:commercial@metalprecision.com.tn)

- **Accounting:**
