

TEHNOINDUSTRI SRL

Looking for a supplier of
CNC machining ?

YOU JUST FOUND ONE

MECHANICAL PARTS

For automotive,
pharmaceutical, cosmetic and food
processing industries

MILLING CNC

3 axis CNC Milling
1200x550 mm
CNC Milling with 4
axis

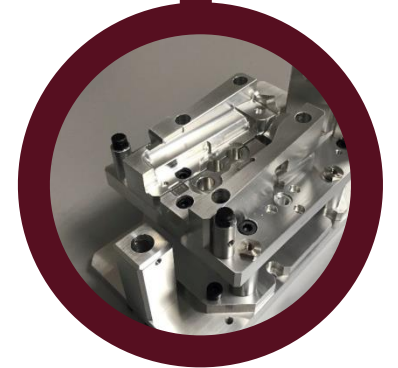

TURNING CNC

5 axis turning
lathe machine
2 CNC lathe with
Barfeeder

RECTIFICATION

Plane and round
rectification

ASSEMBLY

High precision
assemblies

OUR PRODUCT WILL BE FULLY ADAPTED TO YOUR REQUIREMENTS

QUALITY CONTROL

We can offer 3D dimensional certificate for our parts

RAPID DELIVERY

We have experience with exports to the EU, we have an truck each two weeks. For fast delivered we use logistics company were delivered are realised by plane.

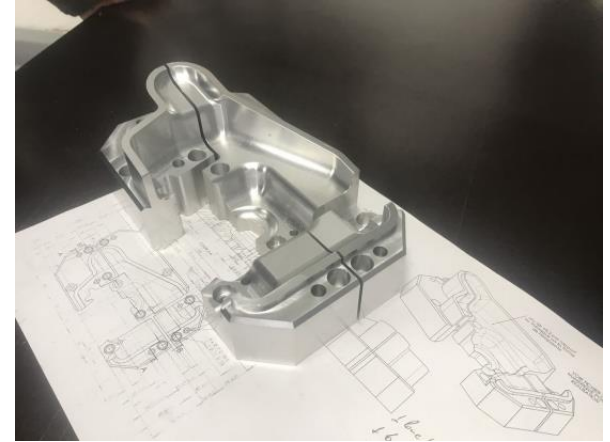

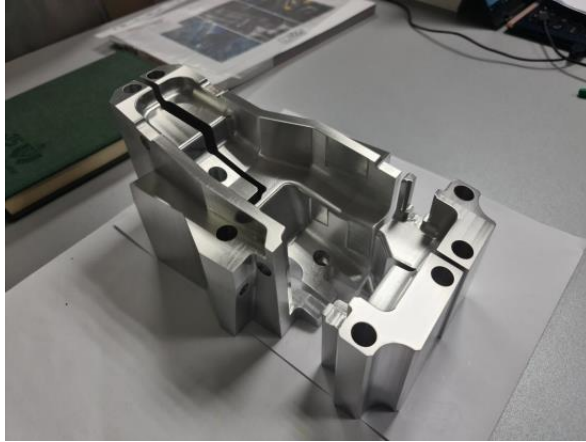

CERTIFICATION

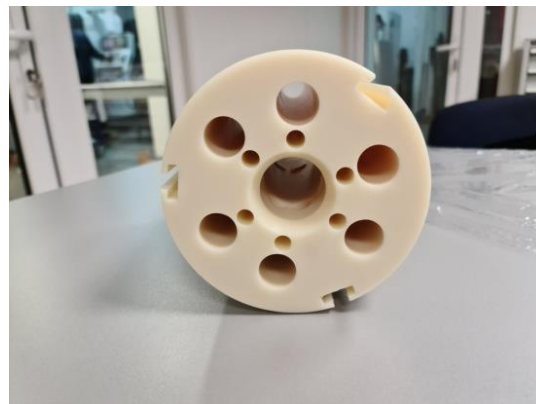

Our mecanichal parts are certified and meet strict European requirements, all materials are accompanied by the material certificate

Tehnoindustri MILLING PRODUCTS

Tehnoindustri TURNING PRODUCTS

About Company

Tehnoindustri is a mechanical production company, leveraging its experience in machining, ranging from milling to turning. Our activity is primarily focused on the design, manufacturing, and assembly of mechanical parts, accessories, and subassemblies for special machines. We design and process parts either individually or in series, with high precision. To achieve this, we offer a comprehensive range of services including milling, turning, grinding, and 3D machining. With significant experience in exporting to the European Union, we ensure regular truck deliveries every two weeks and, for urgent needs, we provide air freight services in collaboration with a logistics company. All our mechanical parts comply with the strictest European standards and are delivered with material certificates. Our areas of expertise include:

- Milling
- Turning
- 3, 4 and 5 axis machining
- CNC machining
- CNC processing
- Mechanical assembly
- Powder coating and wet painting
- Surface grinding and circular grinding.
- Surface treatment

Tehnoindustri offers high-quality mechanical construction solutions and brings its expertise to all your projects, ensuring precision and reliability at all levels of production.

TERMS OF WORK

- Terms of cooperation in particular with each client..
 - Terms of transport DAP
- Standard payment terms: 30 days after delivery of goods.
