

DKC MAKINA SAN. TIC. AS

Your long term reliable partner for manufacturing solutions

WHO WE ARE...

DKC Makina is established in 2020 to offer services in manufacturing industrial components including machining of various metals ,sheet metal processing , welding and assembly with the modern technology, quality approach and customer satisfaction .

Through its experienced and dedicated leadership team, DKC Makina is committed to provide customized solutions to its clients.

As a result of this vision, the company managed to dedicate 80% of its capacity to export markets in a short period of 3 years.

MISSION

We are offering complete solutions that include raw material, machining and other services per client's request.

OUR MISSION is to;

- Develop business relationship with domestic and international partners by ensuring high quality standards in machining, that are based on tradition of high quality, market competitiveness and business reliability.
- Satisfy customer requirements and expectations at an executive level,
- Create uniqueness in the eye of our customer with the service quality we offer
- Customer oriented with continuous improvement of QCD (Quality, Cost, Delivery) and achieve sustainable efficiency,

THE SECTORS WE SERVE

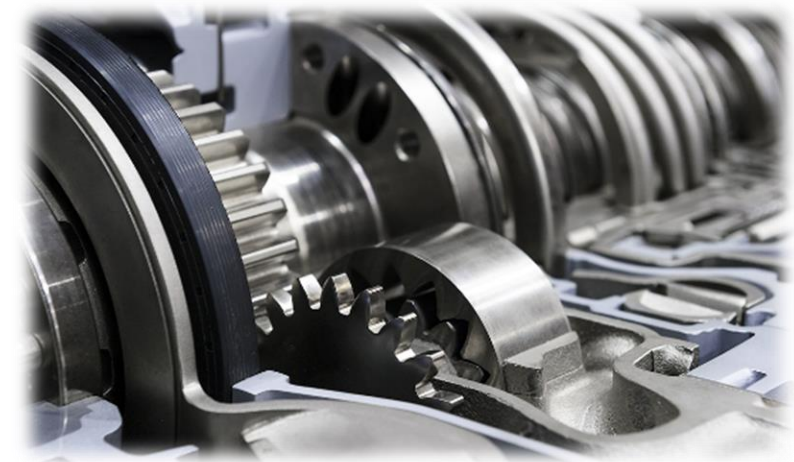

MACHINERY FOR VARIOUS SECTORS

AGRICULTURAL VEHICLES & EQUIPMENT

HVAC

HEAVY DUTY MACHINES

AUTOMOTIVE

WE EXPORT TO... 3 Continents 15 Countries

SERVICES

MACHINING

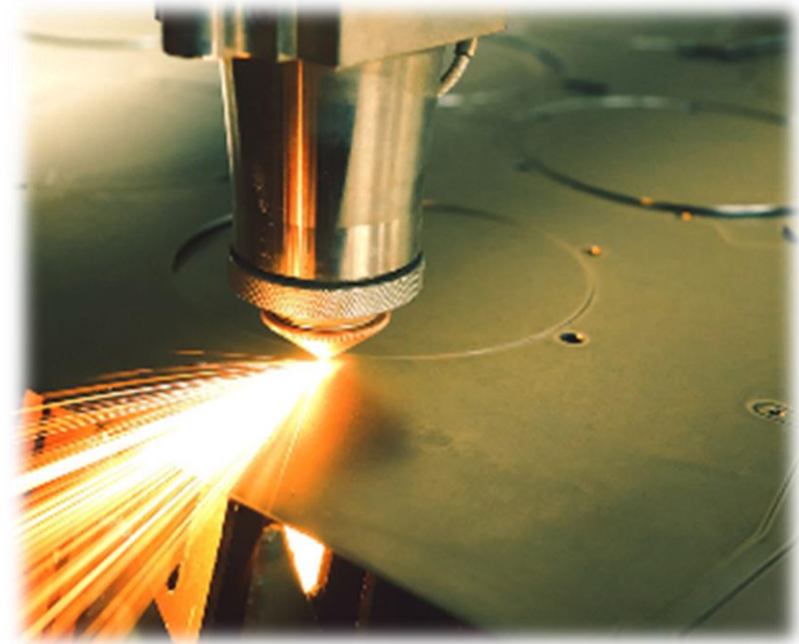

- CNC Turning
- CNC Milling
- VMC
- Drilling
- Grinding
- Polishing

SERVICES

SHEET METAL PROCESSING

- CNC Laser Cutting, CNC Plasma Cutting ,CNC Punch
- CNC Press Brake Bending
- Hydraulic Press , Eccentric Press
- CNC Wire Erosion

SERVICES

WELDING

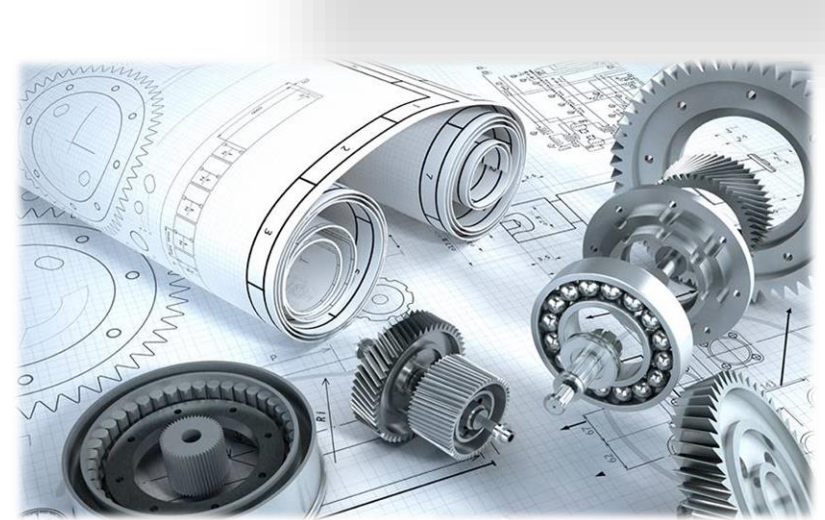

- MMA
- TIG
- MIG/MAG
- ROBOTIC

SERVICES

- **Engineering Services**

APQP , FMEA ,3D Modelling, CAD/CAM/CAE Applications

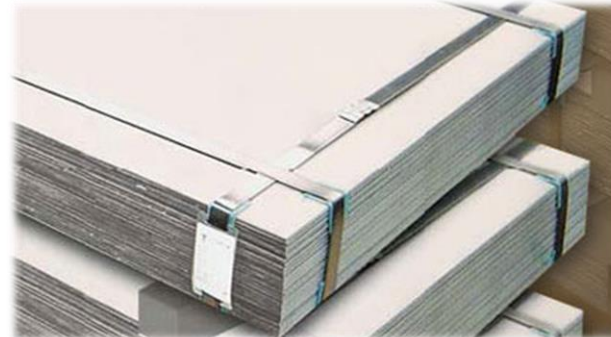

- **Raw Material Supply**

Casting ,Stamping, Forging , Sheet Metal , Steel , Copper

- **Component and Assembly Parts Supply**

SERVICES

- **Coating & Heat Treatment**

Vacuum Hardening , Induction Hardening , Nitriding

- **Assembly**

- **Required Test Processes**

- **Quality Control**

ISO 9001

- **Packaging**

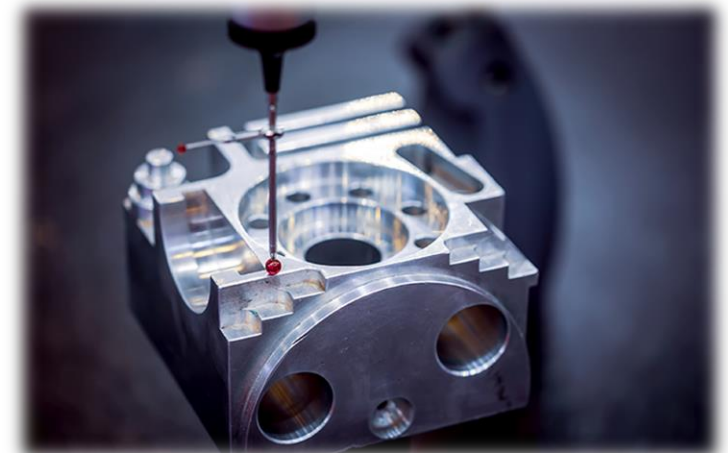

Anti corrosion , Durability

- **Logistics**

QUALITY POLICY

- Developing policies in order to fulfill our customer requirements and expectations at the highest level and supporting these activities to sustain our presence in the global market.
- Establishing and continuously improving internal and external communication without interruption with the support of modern technologies.
- Performing planned activities for improving the main performance indicators and criterias of the company.
- Implementation of Total Quality Management Model most effectively within our organization and providing required sources for improving.
