SILMA TOOLS

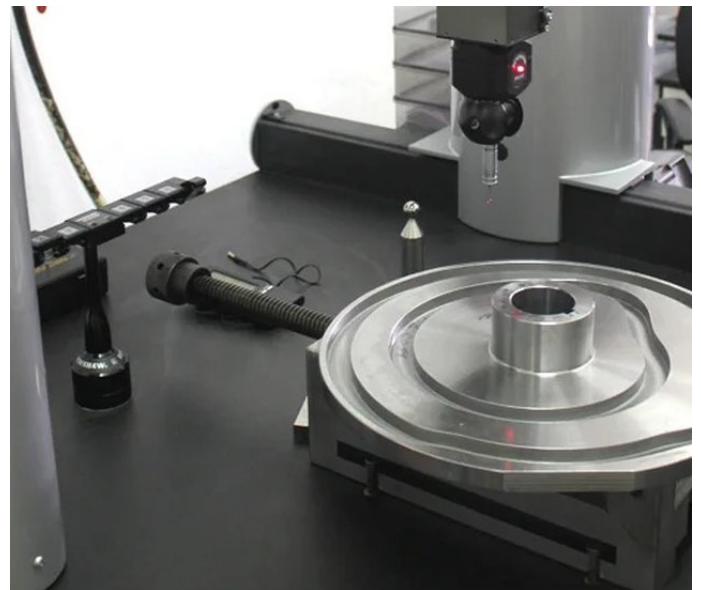

PRECISION THAT SUPPORTS PRODUCTION

Toolmaking and precision metalworking for industry

www.silma.pl

CNC MACHINING AND EDM

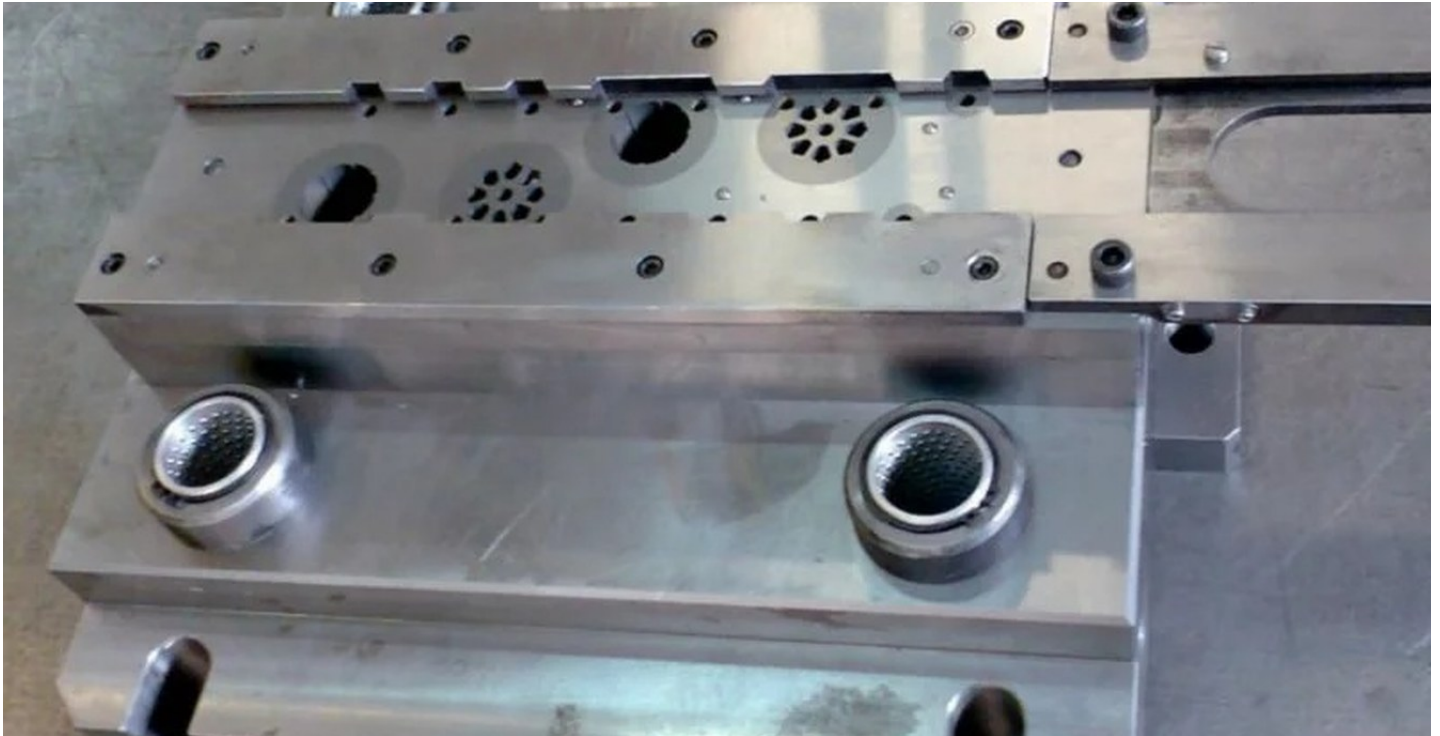

From prototypes and individual parts to short and repeat production runs.

- CNC milling, including 5-axis machining
- CNC turning with driven tools
- Wire EDM and sinker EDM
- Coordinate measurement and dimensional inspection

TOOLMAKING

We design, manufacture, repair and modify production tooling.

- **Punching dies, cutting dies and progressive tools**
- **Punches, matrices, inserts and replacement components**
- **Assembly, welding and inspection fixtures**
- **Tool regeneration and rapid production support**

WELDED STEEL STRUCTURES

Custom solutions for industrial plants and investment projects.

- **Machine frames and bases**
- **Platforms, stairs and railings**
- **Guards, barriers and technical structures**
- **Manufacture, delivery and installation as agreed**

COOPERATION

We work from 2D drawings, 3D models or supplied samples.

- 1 Documentation or sample
- 2 Technical review and quotation
- 3 Production and quality control
- 4 Delivery and technical support

LET'S DISCUSS YOUR PROJECT
