About us

14+

We have over 14 years of proven experience in delivering high-quality, customized carbon fiber solutions.

70+

We export to over 70 countries worldwide — trusted globally for fast, precise carbon fiber solutions.

100%

We are a 100% European company — based in Estonia, producing in Estonia, and proudly owned by Estonians.

200000+

We've produced over 200,000 carbon fiber components for industries like medical, marine, motorsport, and UAVs.

Fast. Precise. Carbon.

Upload your drawing, get instant pricing, and order carbon fiber parts — all online. European-made. No emails. No waiting.

CarbonVega ready-made standard components

Countersunk washers

Flat washers – Lightweight, rigid, and ideal for load distribution in composite structures.

Countersunk washers – Designed to pair with countersunk-head fasteners, ensuring clean flush surfaces.

Available in multiple inner/outer diameters and thicknesses.

Custom dimensions on request.

AN Clamps

AN-Standard Hose Clamps

We manufacture carbon fiber hose clamps based on AN (Army-Navy) standard profiles, widely used in motorsports, aerospace, and performance engineering.

These clamps are extremely lightweight and durable — perfect for securing oil lines, fuel hoses, or hydraulic tubing.

Cable mount

Cable & Hose Mounting Clamps

Our carbon composite clamps offer a sleek, strong solution for cable or hose routing. Available in multiple sizes, with predrilled mounting holes. Ideal for:

- UAV systems
- Automotive wire looms
- Marine or industrial routing setups
