

Our equipment

Han's Laser metal laser cutting machine with a 12 kW laser and two 3 × 1.5 m worktables.

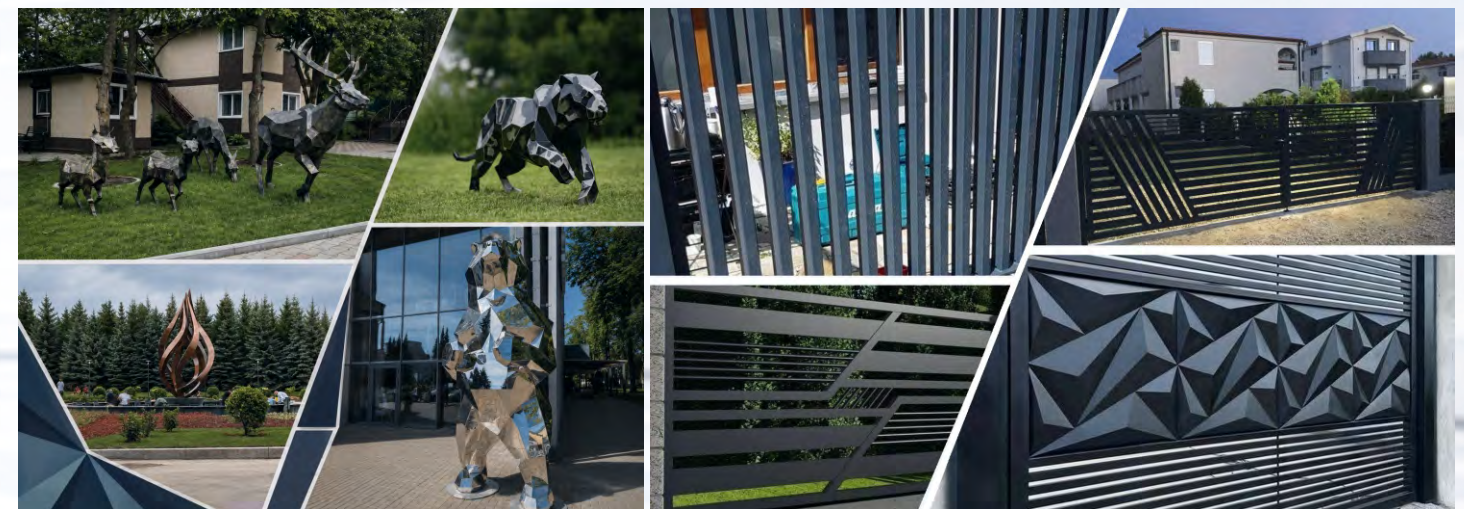

Han's Laser 5-axis press brake.

CAPABILITIES

Laser Cutting • CNC Bending • Welding • Powder Coating
• AssemblySteel • Stainless Steel • Aluminium
From Prototype to Serial Production

Industries we serve

- Machinery & Industrial Equipment — housings, frames, brackets, machine parts
- Electrical & Electronics — cabinets, enclosures, panels, boxes
- Automotive — metal parts, brackets, frames, prototypes & series
- Construction — steel structures, façade elements, custom metalwork
- Furniture & Interior — metal furniture, frames, decorative elements
- Energy — cabinets, housings, supports, structural components
- Retail & Public Infrastructure — kiosks, terminals, stands, street furniture
- HVAC — housings, panels, brackets, ventilation components
- Food Equipment — stainless steel parts, housings, frames
- Custom Manufacturing — prototypes, small batches & serial production

Our Advantages

Competitive pricing driven by lower operating costs
Modern equipment and high production efficiency
Full production cycle at one location
Cost-effective small and medium batch production
Strategic European location with efficient logistics

Our Capabilities

Laser Cutting Tolerances

Metal tolerances are maintained at ± 0.05 mm in accordance with ISO 2768, unless otherwise specified.

Delivery Time

From 1 day

Standard Production Time

From 2 days

Precision Tolerances

According to your drawing specifications and GD&T requirements for metal parts, we can maintain tolerances of ± 0.05 mm.

Our Manufacturing Projects

Send us your drawings in DXF format

We will provide a quote within 24 hours.

We start production immediately after approval.

We deliver finished products directly to your warehouse.

Our Clients

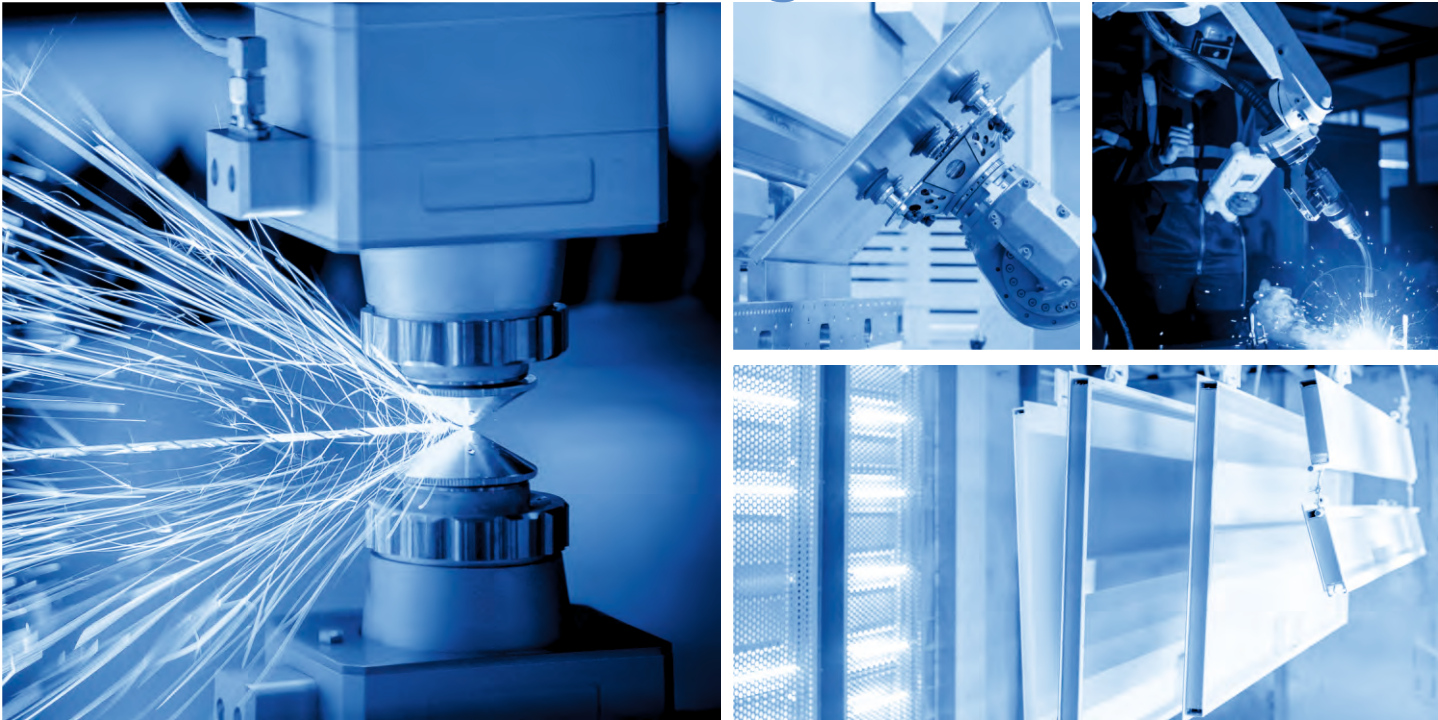

Company Name: ALTIMABOX DOO BEOGRAD-PALILULA
Address: Pita Maravića 9g
Postal Code and City: 11000 Belgrade
Company Registration Number: 21856070
Tax Identification Number (PIB): 113376938

A

ALTIMA

Real Manufacturing. Real Results.

Laser Cutting

Sheet metal cutting up to 40 mm

Bending

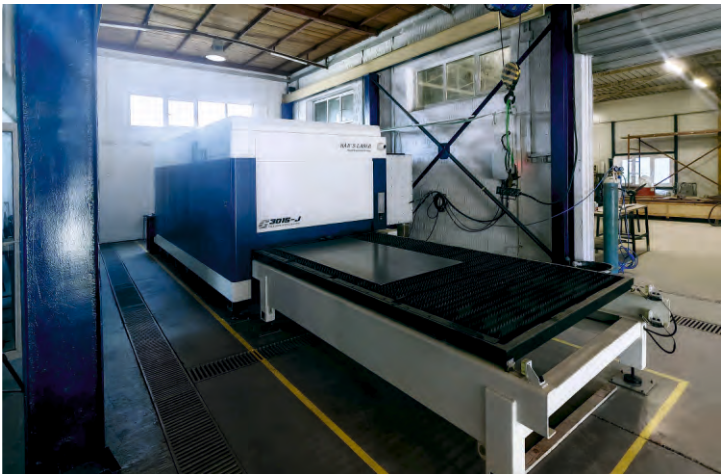

Sheet metal bending up to 3 meters

Welding

Welding of any complexity

Painting

Powder Coating

We use and offer equipment from **Han's Laser**, a world-renowned manufacturer of laser metal processing machines. Visit our showroom in Belgrade and see the machines in action!
