

CAPABILITY SHEET FOR PURCHASING AND ENGINEERING

Plastic parts from 3D printing, direct from the factory.

3Descu is one of the largest 3D printing factories in Eastern Europe, with 200+ printers in our own ISO 9001:2015 certified plant. We are factory-direct, not a broker.

PROCESSES

FDM and SLA (stereolithography). CNC on request through a local partner.

MATERIALS

27 FDM polymers, including PETG, ASA, PC, nylon and carbon-fibre grades, plus SLA resin for fine detail. Other compatible materials on request.

TYPICAL PARTS

Housings, brackets, jigs and fixtures, spare parts, prototypes and small batches.

INDUSTRIES

Machine building, electronics, energy and cleantech, building products, medical and lab equipment, hardware start-ups.

QUOTE

Upload a file at quote.3descu.com: price and delivery date in under a minute, with no account. Nothing is ordered until you accept.

SPEED

Production runs 7 days a week. Small orders can be printed in as little as one day.

COMMITMENTS

Reprint or refund, in writing. Mutual NDA on request, signed fast once the text is agreed. A person replies the same business day.

TRACK RECORD

1,200+ orders for 450+ clients in 10+ EU countries, rated 4.7 / 5.
