IREMAS

A RELIABLE ENGINEERING PARTNER SINCE 1998

www.iremas.lt

ABOUT US

We are one of Lithuania’s largest metalworking and industrial services companies, operating since 1998. We provide industrial companies with solutions in equipment repair, maintenance, installation, manufacturing, and technical services.

We offer our clients a complete package of engineering and technical solutions — from repair, maintenance, and installation to manufacturing, technical works, and specialised testing.

Since
1998

>400
employees

>20 000
sq. m of facilities

>50
certified welders

OUR DIRECTION

Vision and mission that define the direction of our operations

VISION

To be an open, honest, and innovative partner for our employees and clients.

Openness | Honesty | Innovation

MISSION

To ensure the highest quality of our services while protecting the surrounding environment and providing safe and healthy working conditions.

Quality | Environmental Responsibility | Safety

OUR BUSINESS AREAS

01
Industrial equipment repair, maintenance and installation

02
Contract manufacturing

03
Electrical equipment repair, maintenance and installation

04
Engineering services

05
Destructive and non-destructive testing of metals

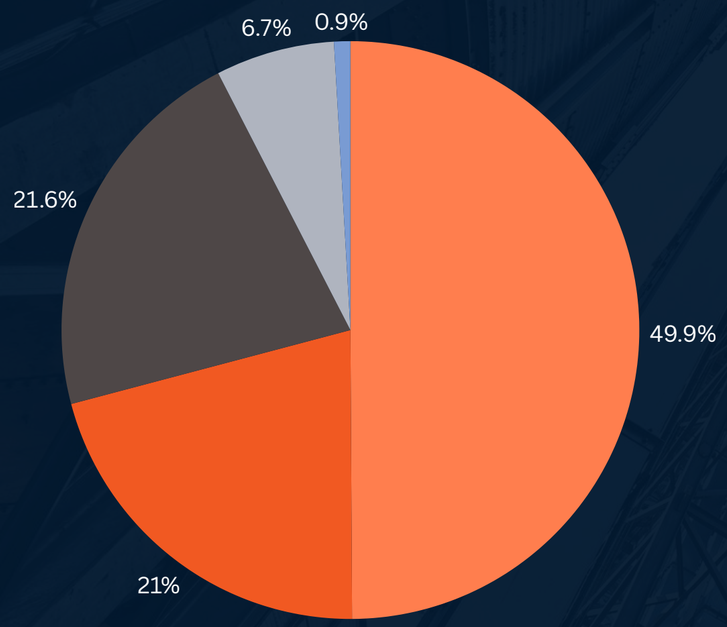

2025 REVENUE BREAKDOWN

EUR 32.9 million

Total revenue in 2025

EUR 1.97 million

Investments in 2025

- Industrial equipment repair, maintenance and installation — **EUR 16.42 million**
- Contract manufacturing — **EUR 6.9 million**
- Electrical equipment repair, maintenance and installation — **EUR 7.09 million**
- Engineering services — **EUR 2.19 million**
- Destructive / non-destructive metal testing — **EUR 0.3 million**

2025 EXPORTS

Key foreign markets and export volumes

EUR 6.9 million
Manufacturing Division revenue

~EUR 3.6 million
Exports of manufactured products in 2025

52 %
Exports of manufactured products

16 %
Company exports

KEY EXPORT COUNTRIES

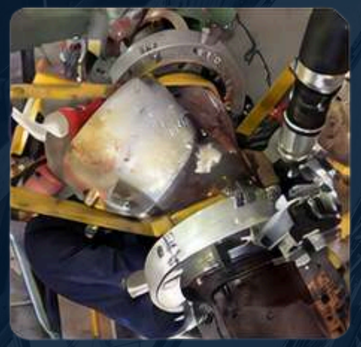

KEY MARKETS

- Sweden
- Finland
- Norway
- Germany

INDUSTRIAL VALVES AND FITTINGS REPAIR SOLUTIONS

Repair, inspection, hydraulic testing, and documentation of high- and low-pressure industrial valves

GATE VALVES | VALVES | CONTROL VALVES | SAFETY VALVES | CHECK VALVES

VALVE REPAIR DEPARTMENT

Specialised team, equipment and facilities for industrial valve repair

13
employees
Specialised repair team

~1000 kv. m
workshop space
Space for large-size valve repairs

5 t
overhead crane
For handling heavier assemblies and equipment

10 000
vnt.
valves repaired per year

TURIMA ĮRANGA

- Universal lathes
- Boring machines
- Band saw
- Hydraulic test benches
- Gasket cutting machines
- Drilling machines

REPAIR PROCESS

From defect inspection to hydrostatic testing and documentation

01 Cleaning and defect inspection

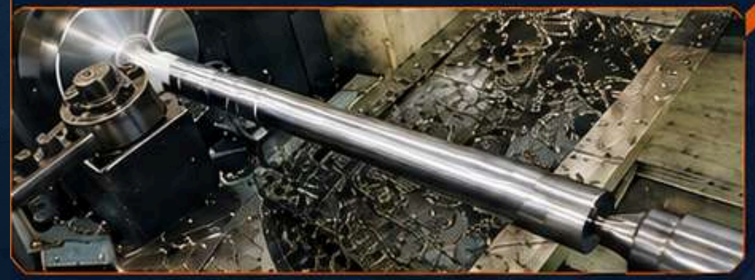

02 Part manufacturing / ordering

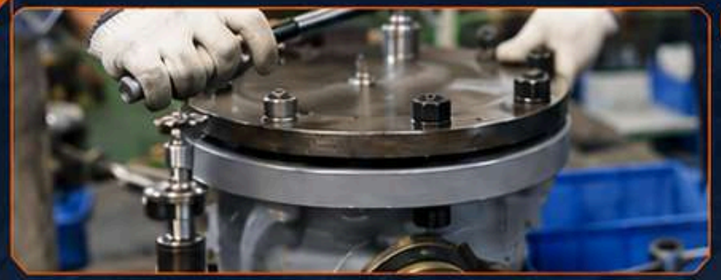

03 Machining of flanges and sealing surfaces

04 Stem machining or manufacturing

05 Gasket manufacturing and assembly

06 Hydrostatic testing, test report, and painting as required

QUALITY CONTROL | FAST AND RELIABLE SOLUTIONS | QUALIFIED TEAM | PRECISION MACHINING | DOCUMENTATION AND TRACEABILITY

CERTIFICATIONS AND STANDARDS

The foundation of quality, safety and technical compliance

MANAGEMENT SYSTEMS

- *ISO 9001*
- *ISO 14001*
- *ISO 45001*

Quality, environmental, and occupational health and safety management systems

MANUFACTURING AND WELDING STANDARDS

- *ISO 3834-2*
- *EN 1090-2 EXC3*
- *DIN 2303-Q2*

Quality requirements for metal fabrication, welding, and execution

LABORATORY ACCREDITATION AND QUALITY STANDARDS

- *LST EN ISO/IEC 17025*
- *ASME B31.3*

Standards for technical testing, inspection, and compliance

PARTNERSHIPS AND MEMBERSHIPS

Professional networks, industry cooperation, and experience with industrial clients

MEMBERSHIPS

We are active members of engineering industry, welding, defence, and international business communities.

LINPRA Association
Engineering and technology industry sector

Lithuanian Welding Association

Lithuanian Defence and Security Industry Association (LGSPA)
Defence and security industry sector

Finnish-Lithuanian Business Association
International business cooperation

CLIENTS AND PARTNERS

We work with clients and partners in the industrial, energy, defence, and technology sectors in Lithuania and abroad.

PARTNERSHIP | EXPERIENCE | TRUST

VALUE FOR THE CLIENT

What clients gain by choosing our services

01 **Reduced downtime**
Fast decision-making and work planning

02 **Documented results**
Traceable repair process and clear technical documentation

03 **Hydrostatic testing**
Leak-tightness and functionality testing before return to service

04 **Work at the client’s site**
We can carry out work not only in our workshop, but also at the client’s site

05 **12-month warranty**
Additional assurance of the quality of completed works

WHY IREMAS?

Reasons why clients choose us

01 Industrial experience

Experience working with different types of industrial valves

02 Technical capabilities

Specialised facilities, equipment, and technical capabilities

03 Clear repair process

From defect inspection to assembly and final inspection

04 Testing

We perform hydrostatic testing and leak-tightness checks

05 Documentation

We prepare test reports and repair documentation

06 On-site work

When required, we also carry out work at the client’s site

CONTACT US

Let’s discuss your needs and select the most suitable solution

We are ready to answer your questions, assess your needs, and propose the optimal solution for you.
