Made in Italy

√ AZIENDA

IRTI è specializzata nelle lavorazioni meccaniche con macchine a controllo numerico e tradizionali ed è presente sul mercato dal 1985. Forte della sua pluriennale esperienza e delle ormai collaudate metodologie di sviluppo IRTI è oggi in grado di affrontare e risolvere qualsiasi esigenza nella realizzazione delle lavorazioni meccaniche.

I nostri punti di forza sono:

- La competenza e la professionalità del nostro personale
- La totale flessibilità dei processi produttivi
- La continua esperienza nella realizzazione di componenti appartenenti a settori diversi
- Il forte grado di personalizzazione

√ SETTORI

Nel corso degli anni abbiamo realizzato lavorazioni meccaniche per aziende che operano in settori diversi tra loro, accumulando una forte e variegata esperienza nella realizzazione di particolari meccanici, specialmente nei settori:

- OLEODINAMICO
- MACCHINE UTENSILI
- NAVALE
- AUTOMOBILISTICO
- AGRICOLO
- CANTIERISTICO
- MINERARIO
- PETROLIFERO

Company / Entreprise

√ *COMPANY*

IRTI is specialized in mechanical machining with numeric and traditional machines and has been on the market since 1985. With its long experience and the tried and tested IRTI development methodologies, today it is able to face and solve any need in the production of mechanical machining. Our strengths are:

- *The competence and professionalism of our staff*
- *Total flexibility of production processes*
- *The continuous experience in the realization of components belonging to different sectors*
- *The strong degree of personalization*

√ *SECTORS*

Over the years we have created mechanical machining for companies operating in different sectors, accumulating a strong and varied experience in the production of mechanical parts, especially in the following sectors:

- *Hydraulic*
- *Machine tools*
- *Naval*
- *Automotive*
- *Agricultural*
- *Shipbuilding*
- *Mining*
- *Petrolifero*

√ *ENTREPRISE*

IRTI est spécialisée dans l'usinage mécanique avec des machines numériques et traditionnelles et est sur le marché depuis 1985. Forte de sa longue expérience et des méthodologies de développement éprouvées d'IIRT, elle est aujourd'hui capable de faire face à tous les besoins en matière de production d'usinage mécanique.

Nos points forts sont:

- *La compétence et le professionnalisme de notre personnel*
- *Flexibilité totale des processus de production*
- *L'expérience continue dans la réalisation de composants appartenant à différents secteurs*
- *le fort degré de personnalisation*

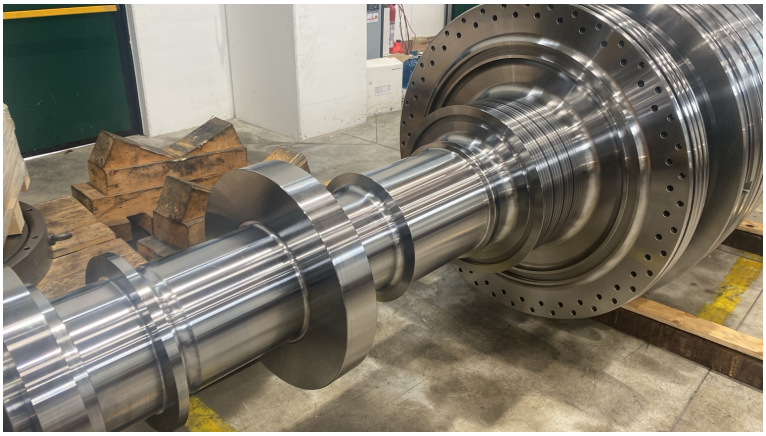

√ *SECTEURS*

Au fil des années, nous avons créé des usinages mécaniques pour des entreprises de différents secteurs. Nous avons acquis une expérience forte et variée dans la production de pièces mécaniques, notamment dans les secteurs suivants:

- *hydraulique*
- *machines-outils*
- *naval*
- *automobile*
- *agricole*
- *Construction navale*
- *l'exploitation minière*
- *Petrolifero*
