With 15 years of experience and continuous investments in technology, the company is one of the most important player on the local market in the plastic industry.

Magnet-Schultz Romania is oriented, while being concerned with maintaining the process of continuous improvement, to high quality and satisfaction of the client. The future technologies and dedicated solutions for plastic injection are the main directions of this company.

Magnet-Schultz Romania has a vast experience also in assembly of electrical components for clients like ABB and Siemens

- Plastic injection.
- We use o lot of types of plastics : POM, ABS, PC, PC/ABS, PMEA, PMMA.
- Assembly of complex electrical parts.

- Turnover 2024 = 2.3 mil euro
- Turnover 2025 = 2.5 mil euro
- Number of employees 2025 = 100 persons

Plastic Injection Area

MAGNET-SCHULTZ
Your Specialists for electromagnetic Solutions in Romania

We have in the production 13 plastic injection machines: 12 new machines for automotive and 1 machine for non-automotive (for electrical motor components)

- Plastic injection machine 50 TF – hydraulic (with robot)
- Plastic injection machine 110 TF – hydraulic (with robot)
- Plastic injection machine 110 TF – hydraulic
- Plastic injection machine 160 TF – hydraulic

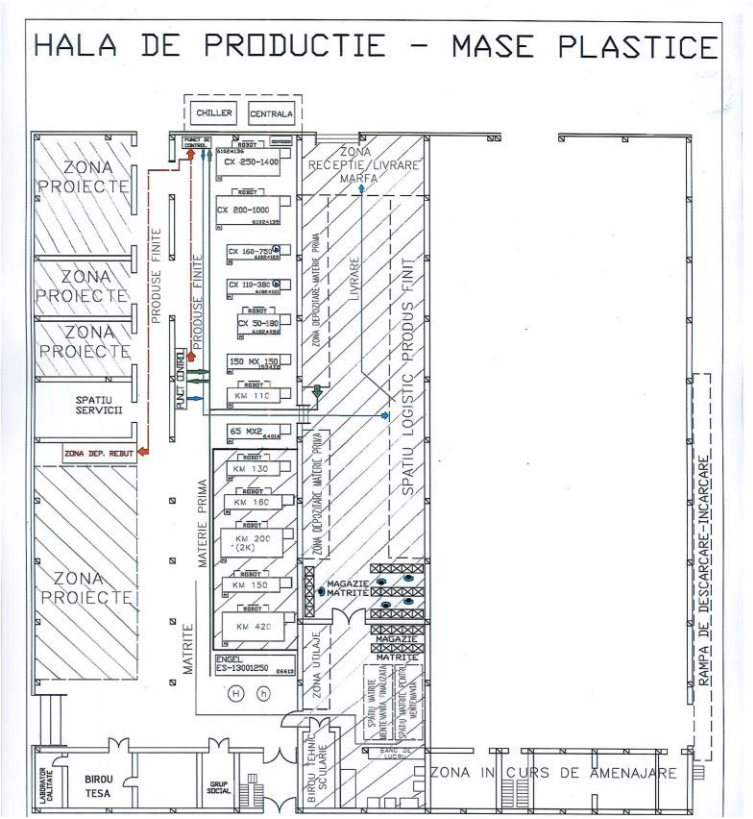

- Plastic injection machine 200 TF – hydraulic (with robot)
- Plastic injection machine 250 TF – hydraulic (with robot)
- Plastic injection machine 50 TF (vertical)- hydraulic

- Plastic injection machine 60 TF – full electric (with robot)
- Plastic injection machine 100 TF – full electric (with robot)
- Plastic injection machine 150 TF – full electric (with robot)
- Plastic injection machine 220 TF – 2K – hybrid (with robot)
- Plastic injection machine 400 TF – hydraulic (with robot)
- Plastic injection machine 250 TF – hydraulic (for non-automotive

Spaces prepared for project implementation

- Production hall– 900 sqm
- New spaces for logistics / warehouses– 700 sqm
- New area for centralized feeding system– 200 sqm (image below)
- Mold maintenance area – 300 sqm
- Offices– 100 sqm
- Additional space from 2026 – 2.000 sqm

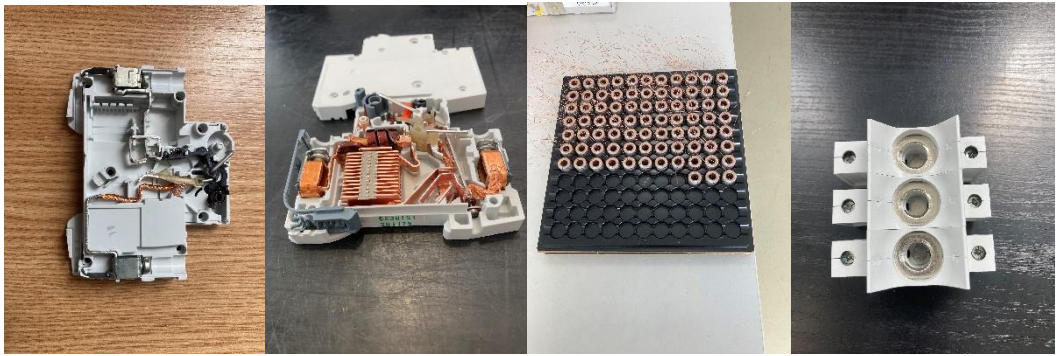

Assembly Area

MAGNET-SCHULTZ
Your Specialists for electromagnetic Solutions in Romania

- 700 sqm of assembly area for our client (Siemens)
- 70 personness
- Over 80.000 parts assembled weekly, 4.000.000 parts annually
- 5 projects – more then 120 products
- Over 1.1 mil euro in turnover

- Continuous improvement and efficiency of production process
- Strict control of process and products for reduce the impact of environment
- Improving the work conditions and safety at work
- Continuous improvement of product quality to reach the customer standards
- Ensuring that the environmental standards are respected
