

CNC REZAC

PRECISE MACHINING

Our company was founded in 1992. We are experienced modern equipped company. We specialized in machining non-ferrous metals, especially aluminum alloys and plastics.

Our major customers are for example motogadget GmbH, Gunda Automation GmbH, Ludwig Schwerdtel, ZODIAC GALLEYS EUROPE etc.

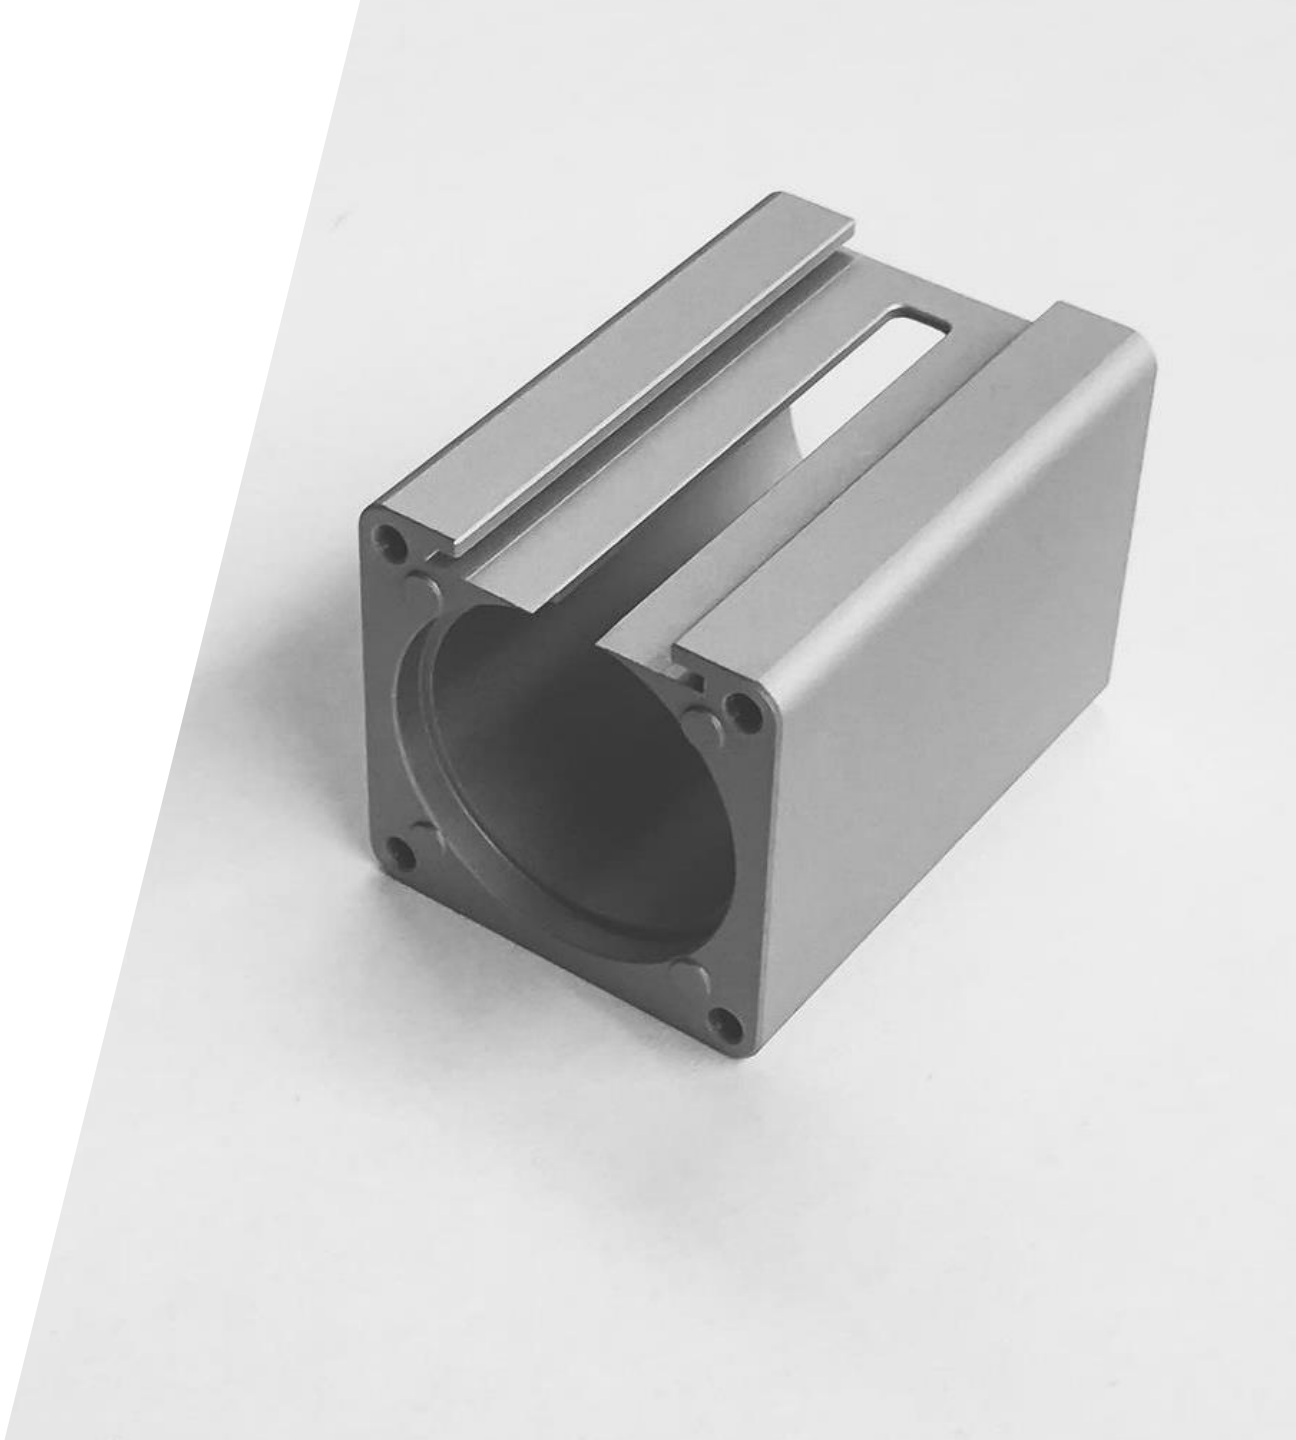

CUSTOMERS SECTOR

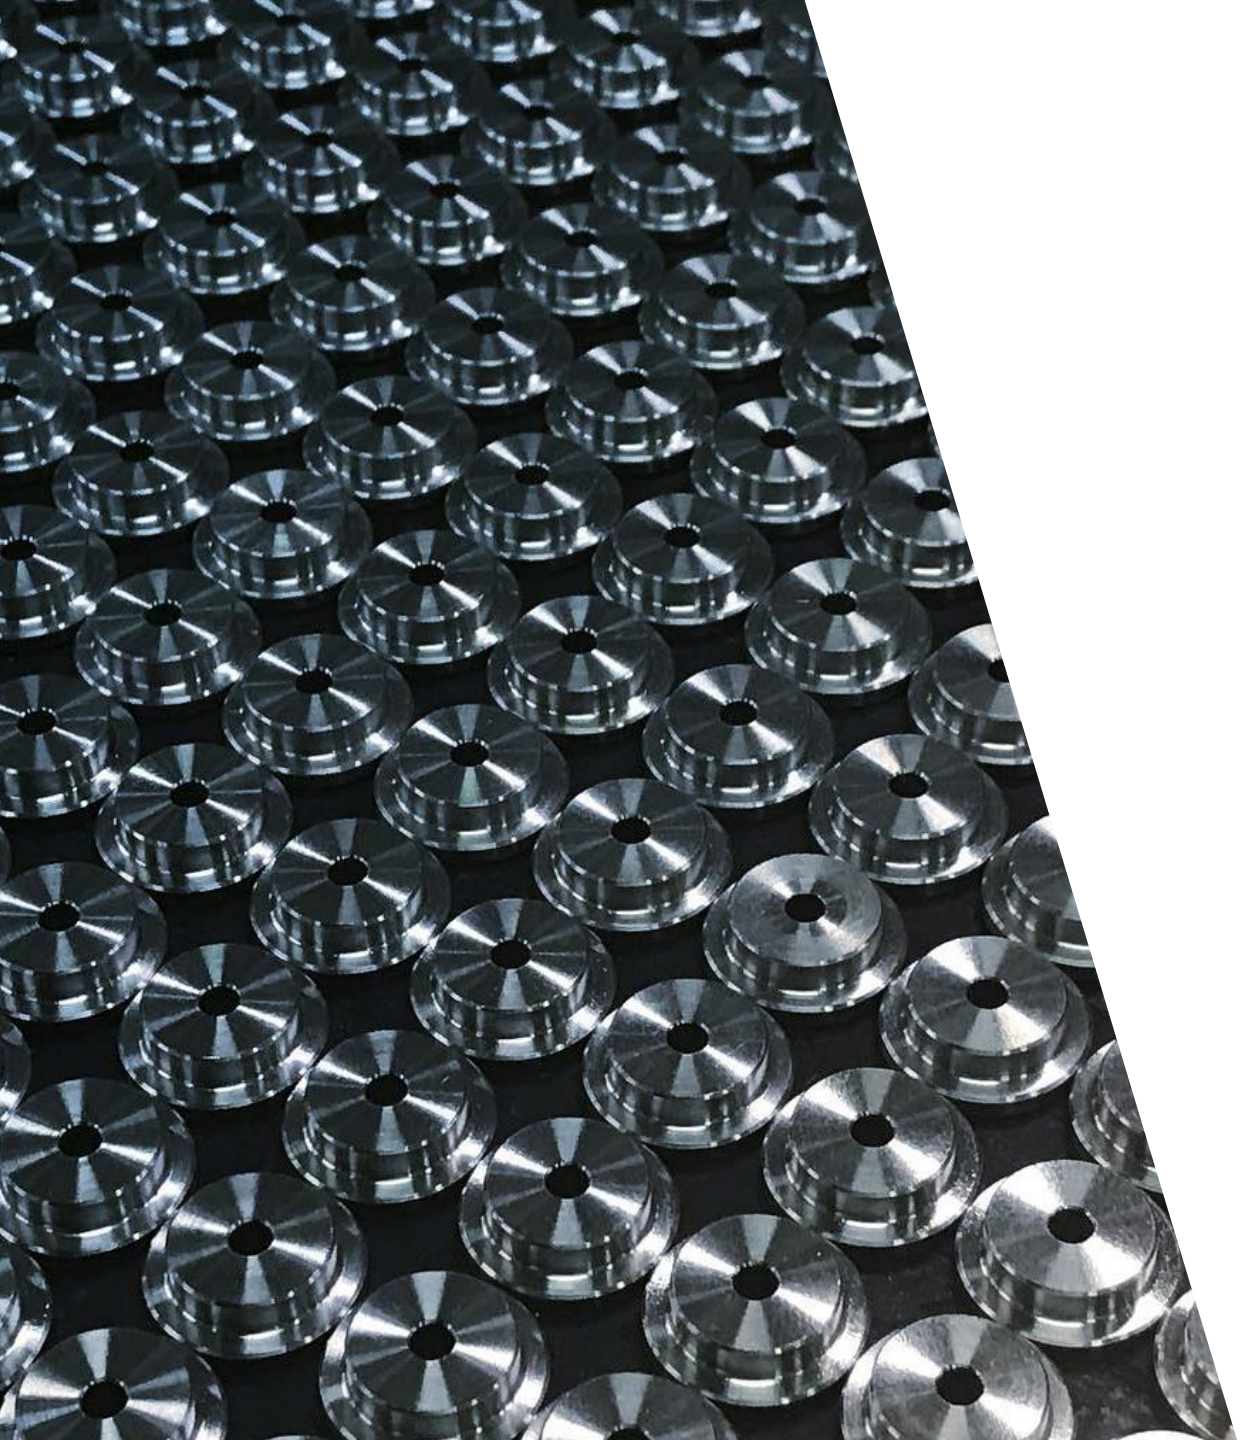

- Laser devices
- Ultrasonic devices
- X-ray equipment
- Telecommunication devices
- tuning parts for motorcycles
- automotive
- aviation industry
- hydraulic and pneumatic parts
- industrial computers
- parts for robots

CNC milling

Production of precise and optical quality milling parts using vertical CNC machines

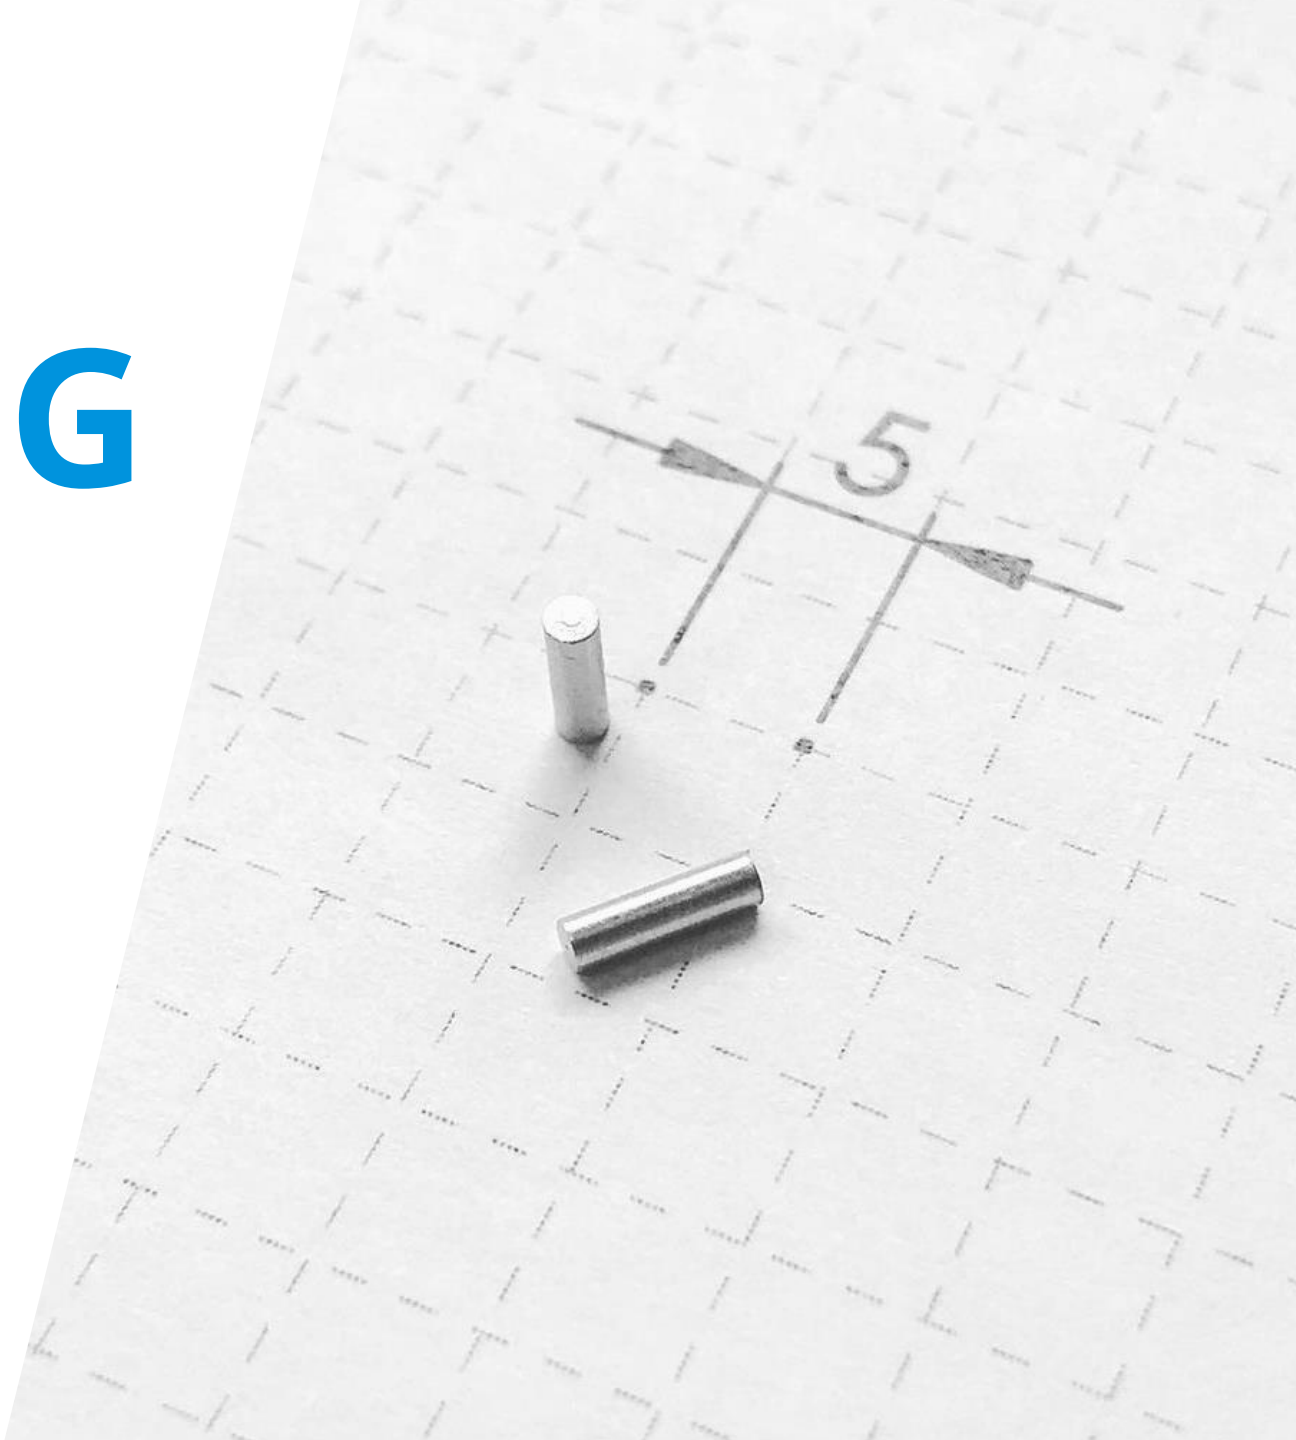

CNC turning

Precise and fast cutting of rotary parts with milling elements.

CNC 3D MESASURING

Precise part measuring in air-conditioned room including measuring protocol.

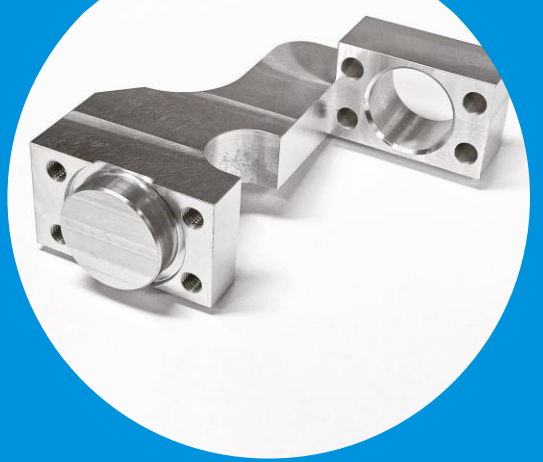

Our equipment

- **Mori Seiki NL1500SY** (CNC milling lathe, 6 axes, subspindle, driven tools)
- **KUKA KR 8 R1620** (robotic cell)
- **Kovosvit MCV 800 Quick** (CNC vertical milling machine, 3 axes)
- **Kovosvit MCV 754 Quick** (CNC vertical milling machine, 3 axes)
- **Kovosvit MCV 500** (CNC vertical milling machine, 3 axes)
- **Wenzel LH 65** (CNC vertical measuring machine)
- **Intos FNGJ 32** (workshop milling machine)
- **Bomar Ergonomic 320.258 GANC** (automatic belt saw)

Examples of our work...
