**HISTORY:**

The company was established in 1937 as a branch of SKODA Pilsen. At those times it had 24 workers and 76 machines, its main business activity consisted in production of single purpose machinery and tooling since the very beginning. Permanent keeping a skilled staff producing high-quality products enabled the company to penetrate into both local and international markets and established there its firm and long-term position. In the period of more than 75 years, plenty of workers and engineers proved their skills and made the name of the company well known all over the world.

During its existence, the company name had been changed several times. In period 1997-2012 the company was owned by RONA, a.s. and operated as ZTS-LR NaJUS a.s. On November 30, 2012, Harburg-Freudenberg Maschinenbau GmbH became a new owner and since January 1st, 2013 the company name has been changed for HF Najus, a.s. and the company started to write its new history.

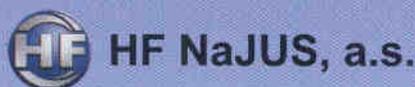

The company has more than 250 employees who are spread according to their qualification into various departments such as Sales, Design, Engineering, Planning, Purchasing, Production, Assembly, Quality Assurance. Production area of the company is 15,000 sq.m and production capacity over 16,000 working hours / month. HF NaJUS is equipped with new and high-tech machine tools to provide its customers highly qualified services. The company is a holder of Certificate of Quality STN EN ISO 9001:2009, STN EN ISO 3834-2:2006 and customer Approval No. 0144 from Spirit AeroSystems (Europe) Limited UK.
