

TIM Hapert

Strength through co-operation

TIM Hapert

TIM HAPERT IS AN ACKNOWLEDGED EXPERT IN THE PROCESSING OF CAST, WELDED AND FORGED OBJECTS. WE SUPPORT CUSTOMERS FROM THE DEVELOPMENT STAGE ALL THE WAY THROUGH TO DELIVERY ON DEMAND OF SEMIMANUFACTURES, COMPONENTS AND COMPLETE PRODUCTS. WHETHER IT CONCERNS COMPLEX PROCESSING OR THE PRODUCTION OF VARIOUS SERIES: TIM HAPERT IS YOUR PARTNER OF CHOICE.

As part of a good price/quality ratio, TIM Hapert is committed to maximum productivity. To achieve this, we are continuously investing in the improvement of our organisation. After all, TIM Hapert is a model of well thought-out automation and robotization and is permanently aiming at higher efficiency. Our company was incorporated in 1971 and by constantly setting higher standards, we have evolved into an extremely reliable supplier for the machining of cast, forged, cut, plate and construction work. Our versatile CNC controlled machines produce top quality work against low cost prices.

EXPERTS FROM BEGINNING TO END

TIM Hapert employs professionals and uses modern machinery. We also offer our expertise for the worldwide procurement of cast and forged products. We not only produce semifinished products and components, but also complete products. Excellent planning enables us to make full use of our potential of manpower and machinery, so that we are also an attractive partner for product assembly.

IN-HOUSE ENGINEERING AND TOOLSHOP

Good tools make all the difference. That is why our design office engineers carefully check all supplied drawings for possible improvements. They quickly and purposefully determine the most efficient approach to your order. This often leads to innovative solutions that directly benefit your product. Our own toolshop then constructs the tools and special machinery, to ensure maximum production efficiency. Naturally, you are always consulted about any proposed design changes.

QUALITY ASSURANCE

Our reputation is built on reliability. That is why we have developed a waterproof quality system. Part of it consists of the advanced measuring equipment that we use for incoming and outgoing inspections. You can be assured that only the highest quality standards are applied, that agreed delivery times are observed and that you obtain the best price/quality ratio. It is for good reason that we are a valued partner of many international companies. We work in conformity with ISO 9002, ISO 14001, ISO TSI 6949 and DIG. As an extra guarantee, TIM Hapert belongs to the powerful VDL Groep.

TIM HAPERT OFFERS YOU:

- own engineering office
- technical supervision
- commercial advice
- professional employees
- tool shop
- modern automated machinery
- logistics service
- quality assurance system

EXTRA SERVICE: WAREHOUSING

Just in time delivery often means what is says, namely exactly on time. This requires good planning, reliable procurement and perfect logistics. The accurate achievement of this is an integral part of our organisation. For every order, we have a worldwide network of suppliers to choose from. If required, we can store your products in our warehouse after processing. Delivery can take place at any time that is convenient for your organisation. So the continuity of your own production is always guaranteed.

VARIOUS ACTIVITIES

- mechanical processing
 - turning
