Strategy & added value

- To offer to our customers the most competitive prices on the complete range of their machining & turning needs thanks to a strong organization and a network of selected partners which share our goals

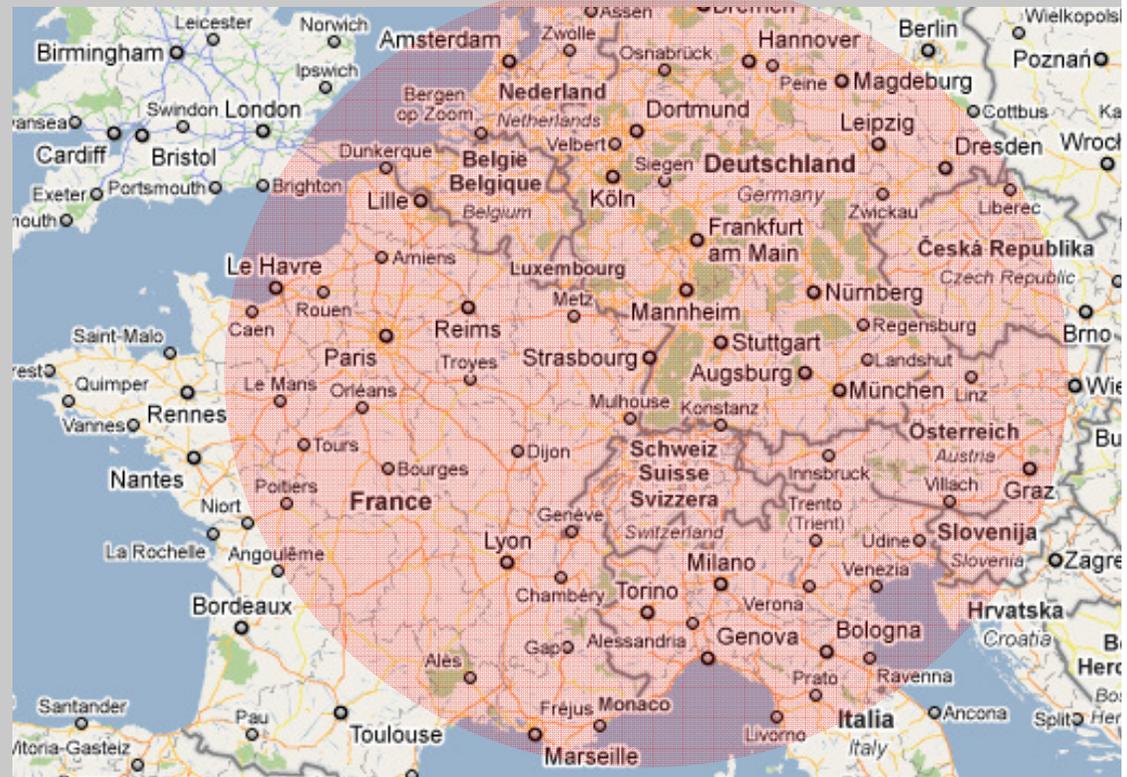

QUALITY & SERVICE

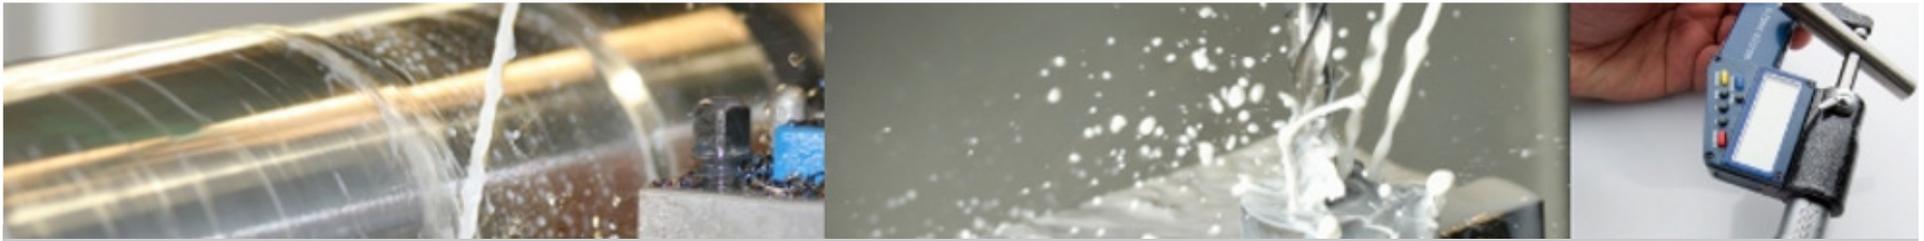

- Partnerships in Belgium and Czech Republic function of the customers' needs

Our current customers

- Earth-moving machines
- Agricultural machines
- Special machines
- Lightning
- Sheet-metal
- Steel construction
- Medical instruments
- Foundries
- Haven equipments
-

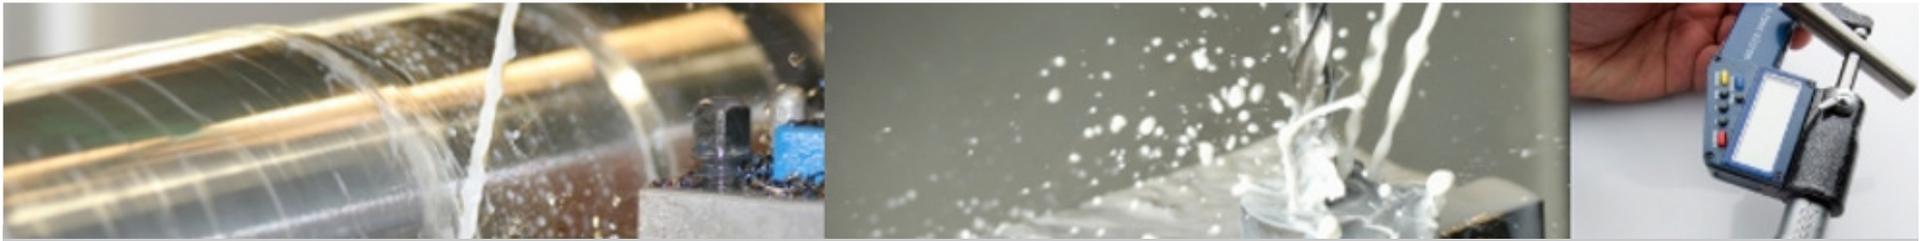

Equipements

- Vertical machining centers :
 - Mazak VTC 20 (1500x500x500)
 - Leadwell MV50i (1200x600x600)
 - Leadwell MV20i (500x350x300)
 - Cincinnati Arrow (750x500x500)

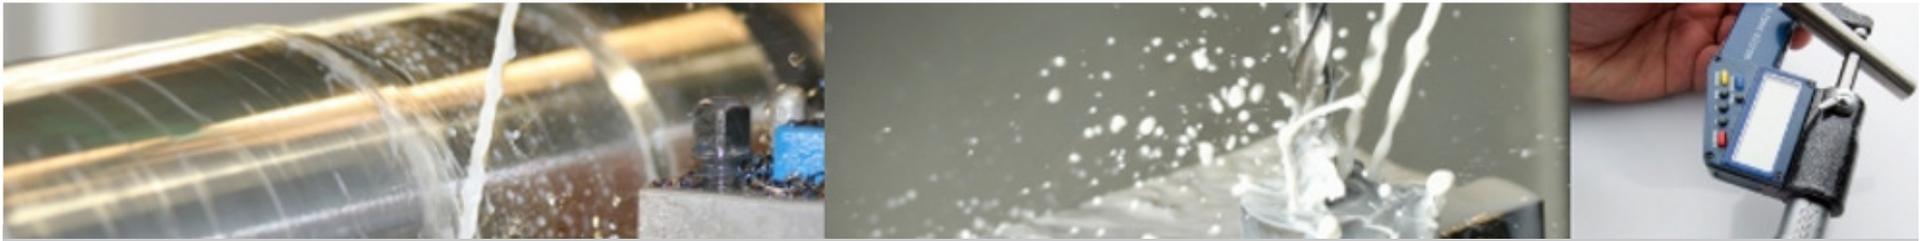

Equipements

- Horizontal machining centers :
 - Mazak H400N (with APC, 400x400)
 - Okuma MA-40H (with APC, 400x400)

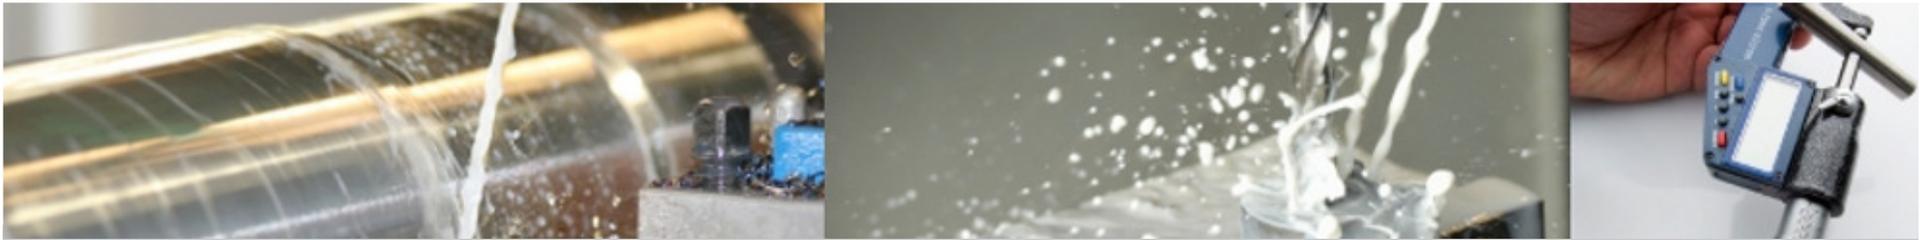

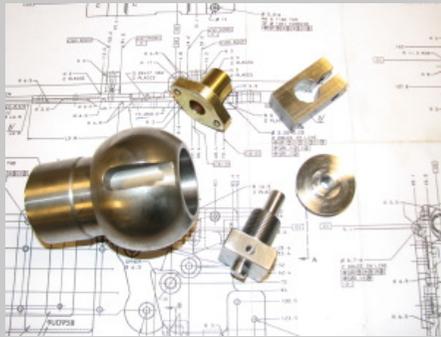

Equipements

- CNC lathes :
 - Dainichi (\varnothing 200x600)
 - Leadwell T8 (\varnothing 350x600)
 - Leadwell T6 (\varnothing 150x600)
with barfeeder
- Other :
 - 1 conventional lathe
 - 2 tapping machines M3- \rightarrow M24
 - Automatic saw CNC Everising \varnothing 350
 - Automatic saw CNC Mep Shark \varnothing 250

MECAFLEX sa

We can also offer :

- Surface treatments (Zinc plating, galvanizing, anodizing, painting,...)
- Hardening
- ...

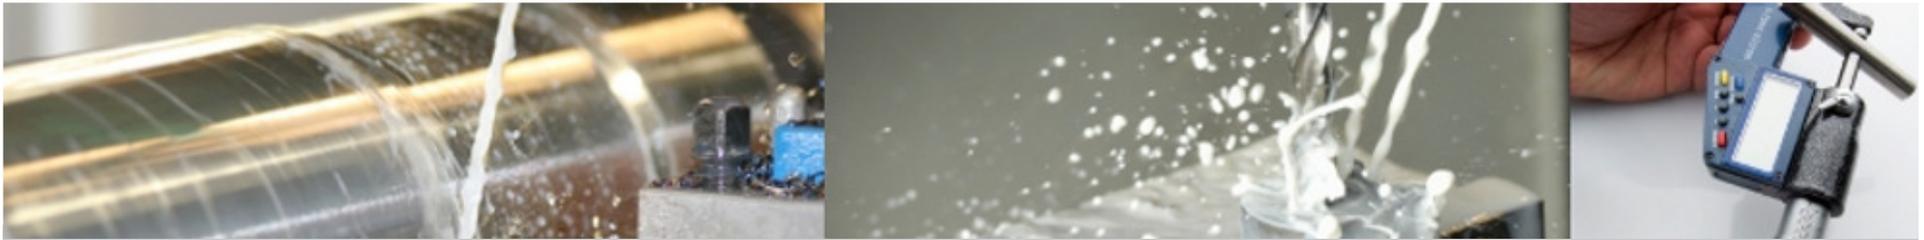

Materials

- Steel (all types)
- Stainless steel (303, 304, 316, 329,...)
- Aluminium
- Brass
- Thermo-plastics
-
- We offer **full material traceability** on customer's demand

Investments done on last 10 months

- ERP system implementation
- Connecting all the CNC machine to company network for remote control
- New **OKUMA MH40-A** horizontal machining center
- Technical upgrade of 2 vertical machining centers
- Training of 2 additional workers to CNC programming

Current developments

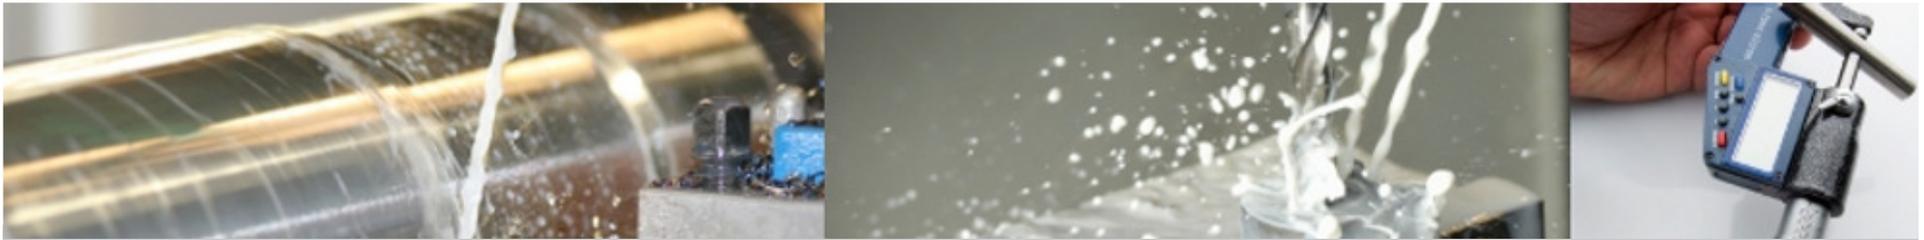

- **ISO certification** -> we will be certified by 2011
- Our investments for 2011 are focused on **automatisation**
- Workforce training :
 - We started permanent inside training
- ...

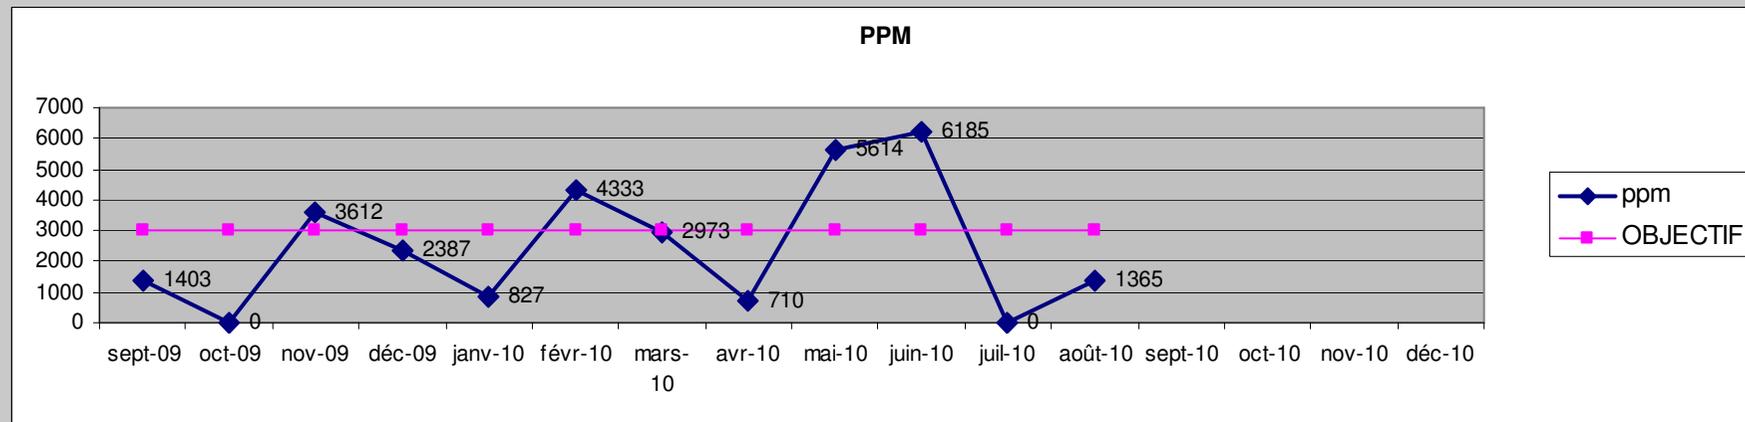

Quality

- ISO certification by 2011
- 2 measuring columns
- Permanent quality control based on samples
- We offer **full raw materials traceability**

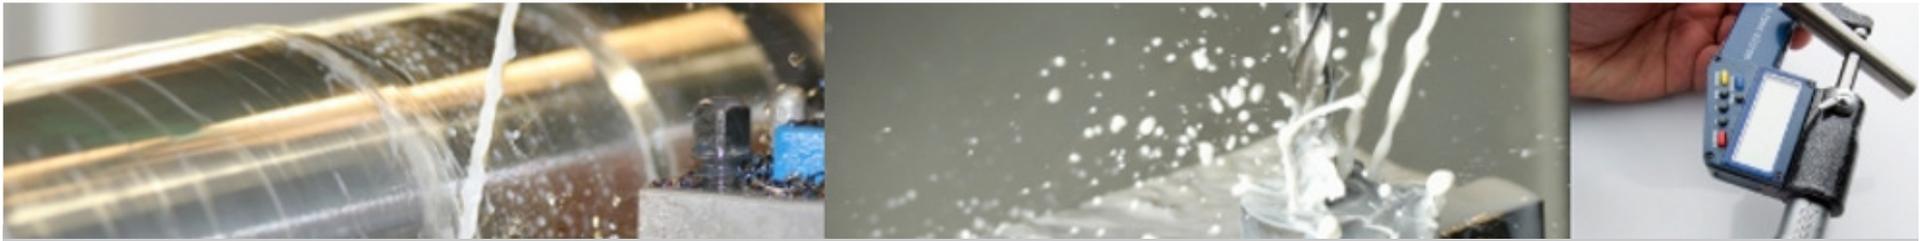

Quality

- Average % of rejected parts = 0.27% of turnover
- => 99.77% of parts are delivered according to customer requirements

Our strenghts

- Long **experience**
- State of the art production **technology**
- High **quality** level
- Competitive **prices**
- Short **lead times**
- **Strong** partners network
- **Customer support** in Dutch, French, English and German.
