¡¡ NEW FACILITIES !!

### CORE ACTIVITY

Precision machining of **large steel pieces (between 2 and 25 tonnes)**, including its manufacturing, repair and modification.

### **GENERAL INFORMATION**

<b><u>Established:</u></b>	1920
<b><u>Languages:</u></b>	Spanish English German
<b><u>Employees:</u></b>	60
<b><u>Size of workshop:</u></b>	10.000 s.q.m.
<b><u>Turnover:</u></b>	9,800,000 €

### **SECTORS**

- Energy-Propulsion (especially Wind Energy)
- Naval Industry
- Iron and Steel Industry
- Other sectors

## **Wind energy**

- Hubs and main frames
- Main / rotor shafts
- Rings, flanges and plates
- Main bearing housing
- Brake discs and other.

## **Naval industry**

- Hubs and propeller blades
- Crankshafts, shafts, shaft covers
- Cylinder heads for 2 stroke engines and other.
- Manufacturing, repair and modification of pieces.

## **Iron and steel industry**

- Roll chocks and ball bearing for milling trains.
- Ball bearings (12" – 36")
- Manufacturing, repair and modification of pieces.

## **Other sectors**

- Shafts and crankshafts for high pressure pumps.
- Housings and lenses for butterfly valves (up from 45")
- Propeller Blades and Hubs made of stainless steel and bronze for Kaplan Turbines.
- Manufacturing, repair and modification of pieces.

\* Depending on the case, we can even include the model and the raw material.

\*\* Other machining possibilities according to our machine capacities list.

**MACHINE CAPACITIES LIST**

<b>MILLING MACHINES:</b>	1 CNC
<b>BORING MACHINES:</b>	9 CNC 2 Manual
<b>HORIZONTAL LATHES:</b>	2 CNC 2 Manual
<b>VERTICAL LATHES:</b>	3 CNC 1 Manual
<b>BRIDGE TYPE DRILL:</b>	1 CNC
<b>UNIVERSAL GRINDER:</b>	1
<b>TESTING EQUIPMENTS:</b>	1 Láser Tracker
<b>LIFTING EQUIPMENT:</b>	7 Overhead cranes up to 25 t. 1 Linde fork lift truck for 2,5 t. 1 Linde fork lift truck for 12 t.
